Toledo Police Department Mission Statement

The mission of the Toledo Police Department is to enhance the quality of life in the city of Toledo by working in partnerships with the community to preserve life, enforce the law, provide quality services, reduce the fear of crime, and promote joint problem-solving for safe, secure neighborhoods.

Law Enforcement Code of Ethics

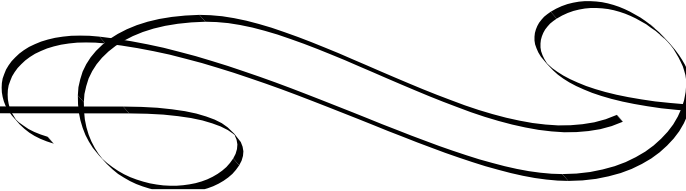

The Law Enforcement Code of Ethics is adopted as a general standard of conduct for officers of the Toledo Police Department.

“As a law enforcement officer, my fundamental duty is to serve mankind, to safeguard lives and property, to protect the innocent against deception, the weak against oppression or intimidation, the peaceful against violence and disorder, and to respect the constitutional rights of all men to liberty, equality, and justice.

“I will keep my private life unsullied as an example to all; maintain courageous calm in the face of danger, scorn or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed in both my personal and official life, I will be exemplary in obeying the laws of the land and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of duty.

“I will never act officiously, or permit personal feelings, prejudices animosities or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear of favor, malice, or ill will, never employing unnecessary force or violence and never accepting gratuities.

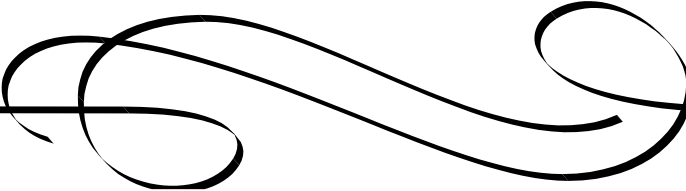

“I recognize the badge of my office as a symbol of public faith and I accept it as a public trust to be held as long as I am true to the ethics of police service. I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession...Law Enforcement.”

Fundamental Goals

While short-term goals evolve to meet changing societal conditions, the basic responsibilities of the police department remain unchanged. These are:

- ❖ To deter crime and create a sense of public well-being and security through constant visible presence and availability.
 - ❖ To reduce the opportunity for, and instance of, criminal activity and public nuisance through the consistent proactive and reactive enforcement of laws and ordinances.
 - ❖ To apprehend and assist in the prosecution of law violators through investigation, intelligence gathering and the collection, preservation and presentation of evidence.
 - ❖ To safeguard, identify and return to its rightful owner, property coming into possession of the department.
 - ❖ To facilitate the safe, expeditious flow of vehicular and pedestrian traffic through public education, enforcement of traffic laws, accident investigation and traffic control.
 - ❖ To abate potentially violent confrontations and preserve individual rights through tactful mediation, informed advice, preventive presence, and through enforcement of laws when necessary.
 - ❖ To aid persons in need of assistance through the use of department resources or through knowledgeable referral to other suitable agencies.
 - ❖ To respond to changes in community needs, legislative and judicial mandates, criminal trends and technological advances through research, planning and implementation of new and innovative policies, practices and procedures.
 - ❖ To achieve and maintain a high degree of police-community interaction, respect and cooperation through education, dialogue, information sharing and responsiveness.
 - ❖ To maintain a superior level of organizational and individual performance through the hiring of qualified persons, training and ongoing management and supervisory control and review of police activities.
 - ❖ To provide for the safety and well-being of its employees through appropriate training, equipment and supply acquisition, and administrative and technical support.

DIRECTIVE 101.1	TOLEDO POLICE DEPARTMENT		
EFFECTIVE November 01, 2002	STANDARD OPERATING GUIDELINES		
REVISED December 1, 2012	CHIEF OF POLICE: <i>Michael C. Jesendle</i>	PART: ADMINISTRATION	PAGES 3
RESCINDS November 01, 2002	CHAPTER: LAW ENFORCEMENT ROLES AND AUTHORITY	AUTHORITY OF PERSONNEL	

I POLICY

The Federal Constitution, Ohio Constitution and Ohio Revised Code define the scope and limits of law enforcement authority as it pertains to the enforcement of laws, statutes and ordinances.

Ohio Revised Code 737.11 outlines the general duties of police, stating, "The police force of a municipal corporation shall preserve the peace, protect persons and property, and obey and enforce all ordinances of the legislative authority of the municipal corporation, all criminal laws of the State and the United States, and all court orders issued and consent agreements approved pursuant to Section 2919.26 and 3113.31 of the Ohio Revised Code."

The Ohio Constitution, Article XVIII, Section 3, grants to municipalities the authority to exercise all powers of local self-government and to adopt and enforce within their limits such local police, sanitary and other similar regulations, as are not in conflict with general laws.

The Ohio Constitution, Article XVIII, Section 7, permits any municipality to frame and adopt or amend a charter for its government and, subject to provisions of Section 3 of this article, exercise thereunder all powers of local self-governments. The City of Toledo adopted a charter November 3, 1914.

The City of Toledo Charter, Section 61, grants the Mayor of the City of Toledo the responsibility of being the "chief conservator of the peace within the city; to see that all ordinances and resolutions of the city are enforced."

II PROCEDURES

1 DIRECTOR OF PUBLIC SAFETY-EXECUTIVE AUTHORITY

The executive authority of the Director of Public Safety is prescribed in the Ohio Revised Code, Section 737.01 and 737.02, which is quoted in part:

"...the Director of Public Safety shall be the executive head of the police and fire departments..."

The same authority is prescribed in Section 139 of the Toledo City Charter, Chapter VII, and is quoted as follows:

"The Director of Public Safety shall be executive head of the divisions of police and fire."

Additional powers and duties are to be found in Section 104 of the Toledo City Charter:

"He shall have the power to prescribe rules and regulations not inconsistent with this charter, for the conduct of the officers and employees of his department; for the distribution and performance of its business; and for the

AUTHORITY OF PERSONNEL 101.1

custody and preservation of the books, records, papers and property under its control.”

2 CHIEF OF POLICE AUTHORITY

The authority of the Chief of Police is prescribed in the Ohio Revised Code, Section 737.06, which is quoted in part:

“The Chief of police shall have exclusive control of the stationing and transfer of all patrolmen, auxiliary police officers, and other officers and employees in the department...under such general rules and regulations as the director of public safety prescribes.”

The same powers are conferred in Section 140 of the Toledo City Charter, Chapter VII, and is quoted in part:

“The chief of the division of police, to be called the chief of police, shall have exclusive control of the stationing and transfer of all patrolmen and other officers and employees constituting the police force, under such rules and regulations as the director of public safety may prescribe.”

3 LEGAL AUTHORITY TO CARRY AND USE WEAPONS

As long as members of the public are victims of violent crimes and officers in the performance of their duties are confronted with deadly force, it will remain necessary for police officers to be properly armed for the protection of society and themselves.

The Chief of Police may authorize sworn personnel to carry and use weapons in the performance of their duties as long as they meet department requirements and follow procedures set forth within this manual.

4 POLICE ACTION BASED ON LEGAL JUSTIFICATION

What is reasonable in terms of appropriate police action or what constitutes probable cause varies with each situation, and different facts may justify an investigation, a detention, a search, an arrest or no action at all. The requirement that legal justification be present imposes a limitation on an officer’s action. In every case, an officer must act reasonably within the limits of his authority, as defined by statute and judicial interpretation, thereby ensuring the rights of both the individual and the public are protected.

5 Police Authority Aboard Foreign Vessels

Generally, all persons within the jurisdiction of the United States are subject to like punishment and penalties. This includes persons from or aboard foreign vessels. Ships and crews are to abide by local laws and any crime committed within that jurisdiction may be punishable by local laws. The right to enter and to navigate the waters of any county is subject to the conditions of temporary obedience to its laws. The United States Coast Guard has jurisdiction in matters involving hazardous cargo and drug violations on foreign vessels.

It is the policy of the department that if a minor incident occurs on board a foreign vessel that only affects that vessel or the crew, it shall be dealt with by the foreign authorities on board the vessel. Conversely, if crimes committed on board the vessel are serious in nature, the offenders are not entitled to any exemption from the enforcement of local laws.

Foreign vessels and crews are subject to the criminal laws of the Toledo Municipal Code and the Ohio Revised Code as any other citizen, and are entitled to the same safeguards as any other criminal defendant. Officers of the department have the authority to board foreign vessels much the same as they have authority to enter a private dwelling, but are also bound by the same restrictions.

Although incidents aboard foreign vessels are rare, it is important to keep in mind that any action taken could have local, national and international ramifications.

- 5.1 Officers shall evaluate the incident and determine whether it is necessary to board the vessel.
- 5.2 If it becomes necessary to board the vessel, a field operations supervisor shall respond to the scene.
- 5.3 The responding field operations supervisor shall ensure that the United States Coast Guard is notified that department officers are boarding the vessel and relate the nature of the incident, and may request assistance if necessary.
- 5.4 Department officers shall take only such action as is necessary to resolve the incident.

6 **POLICE AUTHORITY OUTSIDE CITY**

No officer of the department shall attempt to make a warrantless misdemeanor arrest, while acting under color of his authority, for any offense committed outside the municipal boundaries of the city of Toledo.

Summons in Lieu of Arrest – Ohio Revised Code summary

In order for a police officer to issue a summons in lieu of arrest, he must have the authority pursuant to the provisions of Rule 4(A)(3) of the Ohio Rules of Criminal Procedure. This means that unless a police officer has the power to make an arrest, he does not have the authority to issue a summons. The controlling factor here is whether or not the officer is within his territorial jurisdiction. Therefore, a Toledo police officer within the Toledo city limits would have authority to issue a summons in lieu of arrest for an offense committed within the city, but he has no arrest powers outside the city limits, and could neither arrest nor issue a summons for an offense committed outside the city (other than a Felony).

- 6.1 Offenders that have fled from our officers, for offenses committed within the city, who are stopped outside the city by law enforcement officers from that jurisdiction may be issued traffic citations or summonses by our officers when /if called to the scene.
- 6.2 Officers called to a scene outside the city of Toledo shall first obtain approval from their supervisor who shall consider the time lapse from the time of the offenses until the apprehension, and distance from the city limits.

Exception: Mutual Aid Pact – An exception to the above restrictions is a special provision in the Ohio Revised Code allowing for mutual aid pacts between governmental agencies. When an officer is sent to a different governmental jurisdiction, under the terms of a Mutual Aid Pact, the officer has the same authority as a police officer of the community receiving the assistance

DIRECTIVE 101.2	TOLEDO POLICE DEPARTMENT

REVISED October 1, 2020	CHIEF OF POLICE: <i>Michael C. Fournelle</i>	PART: ADMINISTRATION	PAGES 4
RESCINDS December 1, 2012	CHAPTER: LAW ENFORCEMENT ROLES AND AUTHORITY		
ROLES AND RESPONSIBILITIES			

I POLICY

Community relations are most commonly manifested in the daily encounters between individual officers and citizens. It is at this level where the greatest opportunity to strengthen community relations exists. When dealing with the public, each officer must make his contact one which inspires respect for himself as an individual and professional, and one which generates confidence, cooperation and approval of the public. An officer cannot allow his personal feelings or prejudices to enter into public contacts. As the community is made up of a wide spectrum of cultural beliefs and values, it is incumbent upon the officer to maintain his effectiveness through objectivity and impartiality regardless of his personal beliefs.

II PROCEDURES

1 PROFESSIONAL STANDARD OF SERVICE

The department cannot be aware of each circumstance in the city where police action or assistance may be required. The department is dependent upon members of the community for such information. The people, in return, expect the department to respond to requests for police service within a reasonable time and to render professional quality service in all cases.

2 INDIVIDUAL DIGNITY

Recognition of individual dignity is vital in a free system of law. Just as all persons are subject to the law, all persons have a right to dignified treatment under the law, and the protection of this right is a duty that is as binding on the department as any other.

An officer must treat a person with as much respect as possible and he must be constantly mindful that the people with whom he is dealing are individuals with human emotions and needs. Such conduct is inherent in an officer's primary responsibilities.

3 EQUALITY OF ENFORCEMENT

Toledo is composed of many different communities, each with its own life style and each with its own individual crime problems. The cosmopolitan nature of the city is manifested by the diverse ethnic and social background of its people. However, all persons in each area of the city have a common need for protection that is afforded by fair and impartial law enforcement. As a person moves throughout the city, he must be able to expect a similar police response to his behavior, wherever it occurs.

In order to respond to varying law enforcement needs in different parts of the city, the department must have flexibility in deployment and methods of enforcement. Policies should be formulated on a citywide basis and applied uniformly. Implicit in uniform enforcement of the law is the element of evenhandedness in its application.

ROLES AND RESPONSIBILITIES 101.2

To ensure equal treatment in similar circumstances, an officer must be alert to situations where, because of a language barrier or for some other reason, he may be called upon to display additional patience and understanding.

4 RESPONSIVENESS TO THE COMMUNITY

The department must be responsive to the needs and problems of the community. While the department's task is governed by the law, the policies formulated to guide the enforcement of the law must include consideration of the public will. This responsiveness must be manifested at all levels of the department by willingness to listen and a genuine concern for the problems of individuals or groups. The total needs of the community must become an integral part of the programs designed to carry out the mission of the department.

5 INTERPERSONAL COMMUNICATION

To promote understanding and cooperation there must be interpersonal communication between members of the community and officers at all levels of the department. Each employee must be aware of the law enforcement needs of the community and his particular assigned area of responsibility. Guided by policy, an officer must tailor his performance to attain the objectives of the department and solve the particular problems in the area he serves. The department should provide for programs to encourage productive dialogue with the public to enhance the unity of the police with the community.

6 POLITICAL ACTIVITY

The department encourages active participation in community affairs by its officers; however, that role is limited by existing law. Officers must be cautious to avoid conflicts with federal or state laws, or Charter or Civil Service Commission regulations, which limit "Political Activities."

7 THE NATURE OF THE TASK

Law enforcement operations consist of many diverse activities, which are directed toward the attainment of department objectives. Activities such as patrolling, conducting field interviews and issuing traffic citations are not objectives in themselves; rather, they are methods of achieving the real objectives of preventing and deterring crime, arresting criminal offenders and preventing traffic accidents.

Decisions in law enforcement operations frequently must be made in an instant and the lives of officers and others may depend upon the quality of those decisions. An officer is confronted in stressful situations with both criminal and non-criminal behavior and he must be capable of making a reasonable response in both cases. An officer must base his conduct and actions in each instance upon the facts of the situation as they reasonably appear, relying upon his experience, training and judgment to guide him toward morally justified and lawful decisions and actions.

8 VALUE OF LIFE STATEMENT

The value of human life is immeasurable in our society. Police officers have been delegated the awesome responsibility to protect life and property and apprehend criminal offenders. The apprehension of criminal offenders and the protection of property must at all times be subservient to the protection of life. The officer's responsibility for protecting life must include his own.

9 **RESPONSIBILITY OF ON-DUTY OFFICERS**

9.1 **ON-DUTY, WITHIN CITY, FULLY RESPONSIBLE**

On-duty officers within the city limits, after considering the tactical situation, are to take all steps reasonably necessary and consistent with their assignment to effect the enforcement of the criminal provisions of the city ordinances, state statutes, and federal laws, and to protect life and property.

9.2 **ON-DUTY, OUTSIDE OF CITY, FULLY RESPONSIBLE FOR CITY MATTERS**

On-duty officers outside the city limits who become aware of a situation requiring police action must first consider the tactical situation, and then take all steps reasonably necessary on police matters of direct concern to the City of Toledo.

9.3 **ON-DUTY, OUTSIDE OF CITY, OTHER CONSIDERATIONS**

On-duty officers outside the city limits acting within the scope of their employment as Toledo Police officers on matters of direct concern to the city, are to give first consideration to causing the appropriate action to be effected by the responsible law enforcement agency. Such officers should act only after consideration of the tactical situation.

10 **RESPONSIBILITY OF OFF-DUTY OFFICERS INSIDE AND OUTSIDE OF CITY**

Under Ohio law, both on and off-duty officers have law enforcement authority as to any public offense committed or which there is probable cause to believe such offense has been committed in his presence and with respect to which there is immediate danger to persons or property.

Off-duty officers, both inside and outside of the city limits, are to give consideration to causing the appropriate action to be effected by the responsible law enforcement agency. Such officers should then act after consideration of the tactical situation.

11 **RESPONSIBILITY OF ON AND OFF-DUTY PLAIN-CLOTHES OFFICERS**

Plain-clothes officers, both on and off-duty, must remember uniform officers arriving at an incident may not readily identify plainclothes officers as police officers. Until identified, plain-clothes officers may be considered “a person with a gun”. Bearing this in mind, plain-clothes officers shall yield authority to uniform officers upon their arrival at an incident. The plain-clothes officers shall not argue with or point weapons in the general direction of arriving officers. After the arriving uniform officers have the situation under control, the plain-clothes officer may continue with his responsibilities.

12 **DUTY TO INTERVENE**

Trust placed in law enforcement by the community can be damaged or completely lost if department employees fail to intervene when encountering inappropriate conduct by others in the criminal justice profession. Therefore, department employees have a responsibility to take appropriate action in circumstances that involve fellow employees, as well as other public safety associates (i.e. task force members, officers from other jurisdictions, etc.) whose actions are criminal, unconstitutional or inappropriate.

The duty to intervene shall occur when a department employee observes or becomes aware that a constitutional violation is being committed and possesses a realistic opportunity to intervene to prevent the harm from occurring when one or more of the following occur:

ROLES AND RESPONSIBILITIES 101.2

- (1) excessive force is being used
- (2) an unjustifiable arrest has been made
- (3) a violation of a federal, state or local statute was committed and a reasonable department employee would recognize it as such
- (4) Violation of department policy

Circumstances involving excessive force and/or unjustifiable arrest shall require immediate intervention when realistically possible. Notification to the appropriate supervisor shall be made as quickly as possible during the department employee's tour of duty.

When circumstances do not require immediate intervention, the conduct shall be reported to the appropriate supervisor no later than the reporting department employee's tour of duty.

Non-sworn department employees are not required to intervene in use of force situations where they are not properly trained or required by oath of office or law to take such actions.

	USE OF DISCRETION		

I POLICY

When exercising discretion, officers shall take into consideration the seriousness of the offense, the goals and objectives of the department, the best interest of the public, and any mitigating circumstance involved.

II DEFINITION

DISCRETIONARY POWER – The power of free decision or latitude of choice within certain legal bounds. When this power is poorly exercised, discretionary power may be viewed by the public as favoritism, bias or corruption.

III PROCEDURES

1 THE USE OF DISCRETION

Police officers may be restricted or limited by any of the following:

- 1.1 State law.
- 1.2 City ordinance or statute.
- 1.3 Court decisions.
- 1.4 Rules, regulations, policies or procedures of the department.
- 1.5 A lawful order by a superior.

CONSTITUTIONAL REQUIREMENTS			

I POLICY

No person has a constitutional right to violate the law; neither may any person be deprived of his constitutional rights merely because he is suspected of having committed a crime. The task of determining the constitutionality of a statute lies with an appellate court of proper jurisdiction, not with an officer who seeks to properly enforce the law as it exists. Therefore, an officer may enforce any federal, state or local statute which is valid on its face without fear of abrogating the constitutional rights of the person violating that statute. An officer who lawfully acts within the scope of his authority does not deprive persons of their civil liberties. He may within the scope of his authority make reasonable inquiries, conduct investigations, and arrest on probable cause. However, when an officer exceeds his authority by unreasonable conduct, he violates the sanctity of the law he is sworn to uphold.

II PROCEDURES

1 CONSTITUTIONAL REQUIREMENTS

1.1 MIRANDA WARNINGS

Prior to interrogating a suspect, whenever he is in custody or is otherwise deprived of his freedom, an officer shall advise the suspect of his constitutional rights, as required by the United States Supreme Court decision of *Miranda vs. Arizona* (1966). The officer shall also complete a WAIVER OF RIGHTS (TPD FORM 30.2).

1.1.1 When Miranda warnings are not necessary:

- (a) Without express questioning or its functional equivalent there is no "interrogation" within the meaning of *Miranda*, even though the suspect may be in custody.
- (b) When questioning a person who was merely a witness to a crime but is not a suspect.
- (c) When questioning a suspect who has not been deprived of his freedom in any significant way and realizes he is free to terminate the interview at any time. Also, the suspect must understand that he is free to leave, without fear of arrest or detention.
- (d) When questioning a motorist stopped for a routine traffic offense.
- (e) When asking questions reasonably motivated by concerns for public safety.

1.2 RIGHT TO COUNSEL

Once a defendant has expressed a desire to exercise the right to counsel he shall not be interrogated or questioned until the defendant has obtained counsel, or a court appointed attorney.

101.4 CONSTITUTIONAL REQUIREMENTS

1.3 PRE-TRIAL PUBLICITY

Because pre-trial publicity could prejudice a fair trial, department personnel will follow the guidelines outlined in Directive 303.2 NEWS MEDIA RELATIONS.

	OATH OF ALLEGIANCE		

I POLICY

Each department member, prior to assuming their official duties is required to take and subsequently abide by an oath of office to enforce and uphold the Constitution of the United States, the laws of the state of Ohio, and the ordinances of the city of Toledo.

I POLICY

II DEFINITIONS

GOALS – A relatively broad statement of the end result that one intends ultimately to achieve. A goal usually requires a relatively long time span to achieve.

OBJECTIVE – An end or result that one intends to attain in order to achieve partial fulfillment of a goal. Objectives must be stated in such a format that they contain measurable achievements.

DIRECTIVE 103.1	TOLEDO POLICE DEPARTMENT		
EFFECTIVE November 01, 2002	STANDARD OPERATING GUIDELINES		
REVISED October 2, 2023	<i>Michael C. Froendle</i> CHIEF OF POLICE:		
RESCINDS June 14, 2019	PART: ADMINISTRATION	CHAPTER: STANDARDS OF CONDUCT	PAGES 2
	PERSONAL CONDUCT		

I POLICY

All members of the Toledo Police Department shall abide by the rules of conduct as set forth in this manual.

II PROCEDURES

1 LOYALTY

In the performance of his duty to serve society, an officer is often called upon to make difficult decisions. Not only does an officer need to consider how his actions and decisions will impact him on a personal level, he must also be mindful of how they will impact the department. An officer's decisions are not easily made and occasionally they involve a choice that may cause him hardship or discomfort. An officer must be faithful to his oath of office, the principles of professional police service, and the objectives of the department, and in the discharge of his duty he must not allow personal motives to govern his decisions and conduct.

2 CONDUCT UNBECOMING AN OFFICER

An officer is the most conspicuous representative of government, and to the majority of the people, he is a symbol of stability and authority upon whom they can rely. An officer's conduct is closely scrutinized, and when his actions are found to be excessive, unwarranted, or unjustified, they are criticized far more severely than comparable conduct of persons in other walks of life. Since the conduct of an officer on or off duty may reflect directly upon the department, an officer must at all times conduct himself in a manner which does not bring discredit upon himself, the department, or the city.

3 INTEGRITY

Society demands that the integrity of its law enforcement be above reproach, and the dishonesty of a single officer may impair public confidence and cast suspicion upon the entire department. Succumbing to even minor temptation can ultimately destroy an individual's effectiveness and may contribute to the corruption of countless others. An officer must avoid any conduct that would compromise the integrity of himself, his fellow officers, or the department. An officer who has personal knowledge of serious misconduct of a fellow officer has a responsibility to report such conduct to his superior officers.

4 COURTESY

Effective law enforcement depends upon a high degree of cooperation between the department and the citizenry it serves. The practice of courtesy in all public contacts encourages understanding and appreciation; discourtesy breeds contempt and resistance. The majority of the public are law-abiding citizens who rightfully expect fair and courteous treatment by department employees. The practice of courtesy by an officer is not a

103.1 PERSONAL CONDUCT

manifestation of weakness; it is, on the contrary, entirely consistent with the firmness and impartiality that characterizes a professional police officer.

5 **COMPLIANCE WITH LAWFUL ORDERS**

The department is an organization with a clearly defined chain of command. This is necessary because obedience of a superior's lawful command is necessary for the safe and prompt performance of law enforcement operations. The most desirable means of obtaining compliance are recognition and reward of proper performance and the positive encouragement of a willingness to serve. However, discipline may be necessary where there is a willful disregard of lawful orders, commands, or directives.

6 **USE OF INTOXICANTS**

There is an immediate lowering of esteem and suspicion of ineffectiveness when there is public contact by a department employee evidencing the use of intoxicants. Additionally, the stresses of law enforcement require an employee to be mentally alert and physically responsive. Except as necessary in the performance of an official assignment, the consumption of intoxicants is prohibited while an employee is on duty; no officer is to consume intoxicants to such a degree that it impairs his on-duty performance.

7 **ATTENTION TO DUTY**

As most police work is necessarily performed without close supervision, the responsibility for the proper performance of an officer's duty lies primarily with the officer himself. An officer carries with him a responsibility for the safety of the community and his fellow officers. He discharges that responsibility by the faithful and diligent performance of his assigned duty. Anything less violates the trust placed in him by the people, and nothing less qualifies as professional conduct.

8 **OFFICER OFF-DUTY ARREST**

All sworn employees are advised that being arrested and/or criminally charged by any jurisdiction can result in disciplinary action against the employee. All sworn employees shall contact their applicable unit/section/bureau commander as soon as possible when they are arrested and/or criminally charged. The applicable commander shall then make notifications through their chain of command and ensure that the Personnel Section is notified.

9 **CONDUCT UNBECOMING A DEPARTMENT EMPLOYEE**

A police department employee is a clear representative of government. Since the conduct of a department employee on or off duty may reflect directly upon the department, a department employee must at all times conduct himself in a manner which does not bring discredit upon himself, the department, or the city.

DIRECTIVE 103.2	TOLEDO POLICE DEPARTMENT		
EFFECTIVE November 01, 2002	STANDARD OPERATING GUIDELINES		
REVISED April 12, 2021	CHIEF OF POLICE: <i>Michael C. Froendle</i>	PART: ADMINISTRATION	PAGES 15
RESCINDS July 28, 2021	CHAPTER: STANDARDS OF CONDUCT		
	RESPONSE TO RESISTANCE		

I POLICY

The Fourth Amendment to the Constitution has long recognized the right of officers to make an arrest or conduct an investigatory stop and carries with it the right to use some degree of physical control. In the course of carrying out their lawful duties, officers may find it necessary to use physical control techniques to protect themselves or others from bodily harm or to affect an arrest when de-escalation techniques have proven unsuccessful or are not possible. Officers are permitted to use only physical control techniques that are objectively reasonable, in light of the facts and circumstances confronting them, to accomplish lawful objectives. The United States Supreme Court rulings in *Graham v. Connor*, and *Tennessee v Garner*, have suggested guidelines for police officers' responses to subjects' actions. Officers shall follow all applicable federal, state and local laws when applying physical control techniques.

All department personnel authorized to carry lethal and less-lethal weapons, shall be issued copies of, be instructed in, and tested on the department's RESPONSE TO RESISTANCE policy, before being authorized to carry a weapon. The issuance, instructions, and testing shall be documented.

II DEFINITIONS

ACTION/RESISTANCE – the behavior of a subject to exert himself, so as to counteract, or defeat, an officer’s commands.

AEROSOL CHEMICAL AGENTS – chemical agents dispensed from a pressurized container.

ACTIVE RESISTANCE – the subject actively resists arrest through their words and/or actions, or takes aggressive action against an officer.

CANISTER CHEMICAL AGENTS – chemical agents dispensed from a canister, commonly used in civil disturbances (e.g. hand thrown or launched grenades).

CHOKE-HOLD – defined as a method by which a person applies sufficient pressure to a person’s neck to restrict the flow of oxygen or blood through the neck.

COMPLIANT – the subject is cooperative and voluntarily follows verbal commands.

DEADLY/LETHAL OPTIONS – any response, which creates a substantial risk that it will proximately result in the death of any person.

DE-ESCALATION - Using skills and techniques (i.e., non-confrontational verbal skills, empathy, active listening, persuasion, command presence, repositioning, warnings, distance, resources, additional time, etc.) to stabilize a person in crisis so as to reduce the intensity of a potentially violent situation and the need to use force.

103.2 RESPONSE TO RESISTANCE

EXCITED DELIRIUM – a state of extreme mental and physiological excitement, characterized by extreme agitation, hyperthermia, hostility, exceptional strength and endurance without apparent fatigue.

LESS-LETHAL WEAPONS – weapons that are used in a manner not intended to cause death or serious injury.

NON-VIOLENT PASSIVE RESISTANCE – a method of protest commonly used during nonviolent demonstrations, where a subject does not respond to an officer's commands, refuses to move, becomes limp or dead weight (e.g., nonviolent protests against government entities, abortions clinics, etc.).

NON-COMPLIANT – the subject refuses to cooperate and does not respond to verbal commands but takes no verbal/physical actions against an officer.

NON-DEADLY RESPONSE – any response that is neither likely nor intended to cause death or serious injury.

OBJECTIVELY REASONABLE RESPONSE – the level of response that is within the bounds of what an ordinary and prudent officer would use, in a similar way, under similar circumstances. The RESPONSE TO RESISTANCE CONTINUUM shall be used as the basis for the reasonableness of the response.

PHYSICAL CONTROL TECHNIQUES – has the same meaning as response.

PROJECTILE CHEMICAL AGENTS – chemical agents dispensed from projectiles fired from various weapons systems, commonly used at incidents involving large civil disturbances, barricaded suspects, and high-risk entry situations (e.g., 12 gauge, 37/40 mm, PepperBall, etc.).

RESPONSE – any physical power or compulsion used to affect the behavior, coerce, or restrain a subject. Compulsion includes the officer's presence and verbal commands that are used to influence the behavior of a subject.

SERIOUS PHYSICAL INJURY – any physical harm that carries a substantial risk of death, permanent partial or total incapacity; involves some temporary, substantial incapacity; involves some permanent or serious temporary disfigurement; involves acute pain of such duration as to result in substantial suffering; involves any degree of prolonged or unmanageable pain; or that involves any mental illness or condition of such gravity as would normally require hospitalization or prolonged psychiatric treatment.

SOFT-IMPACT 40MM PROJECTILE – a 40MM round in a sponge baton cartridge. Commonly used at incidents involving non-compliant subjects, or to overcome resistance by a subject, or to prevent serious injury or death of subjects, officers, or bystanders.

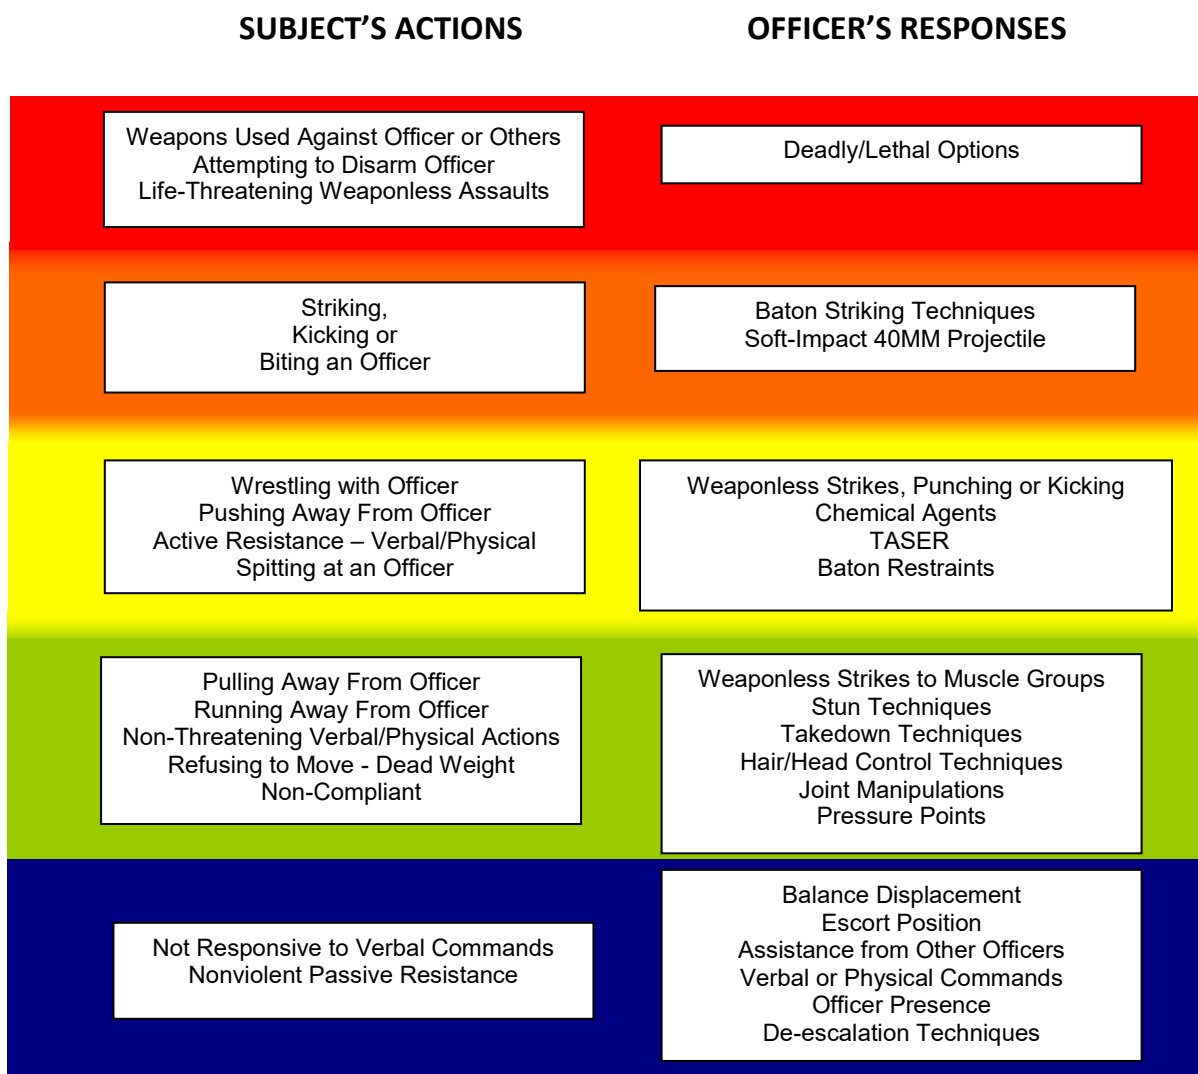

USE OF DEADLY FORCE - An officer may use deadly force only when the officer reasonably believes that the action is in the defense of human life, including the officer's own life, or in defense of any person in imminent danger of serious physical injury.

III PROCEDURES

1 GUIDELINES FOR RESPONSE TO RESISTANCE

1.1 The **RESPONSE TO RESISTANCE CONTINUUM** provides guidelines for the reasonable responses to a subject’s actions. Control of a resisting subject may be achieved through advice, warnings, persuasion or by the use of physical control techniques when responding to a subject’s actions. In determining which control techniques to use in accordance with the RESPONSE TO RESISTANCE CONTINUUM, the totality of the circumstances shall be considered. Listed below are the established guidelines in determining the control techniques that are reasonable based on the RESPONSE TO RESISTANCE CONTINUUM. Whenever possible, de-escalation techniques should be employed to gain voluntary compliance of a subject. If it is necessary for the officer’s response to increase, officers can still use any of the techniques listed in the prior level(s) of the continuum. Response options may be used simultaneously, for instance, combining verbal commands with the use of chemical agents.

RESPONSE TO RESISTANCE CONTINUUM

OFFICER/SUBJECT FACTORS

- Age
- Sex
- Size
- Skill level
- Multiple subjects
- Relative strength

SPECIAL CIRCUMSTANCES

- Closeness of a weapon
- Injury, or exhaustion
- Being on the ground
- Distance from the subject
- Special knowledge
- Availability of other options
- Environmental conditions
- Subject handcuffed

1.2 CONSIDERATIONS WHEN RESPONDING TO RESISTANCE

At times, an officer may be justified in moving to a higher or lower response than recommended on the continuum. Just as officers must be prepared to respond to rising levels of action(s) by the subject, they must likewise be prepared to promptly de-escalate their response when appropriate. The RESPONSE TO RESISTANCE CONTINUUM is not a rigid, inflexible guide. It provides for ranges of reasonable officer responses, and allows for the unique circumstances of each incident. The decision to move to a higher or lower level on the continuum shall be based on the totality of the circumstances.

Officer/Subject factors may be considered when moving to a higher or lower level of response than recommended by the RESPONSE TO RESISTANCE CONTINUUM. These factors include, but are not limited to, age, sex, size, skill level, multiple subjects or relative strength.

Special circumstances may also be considered in determining a reasonable response. These special circumstances include, but are not limited to, the closeness of a weapon, officer injury or exhaustion, being on the ground, the distance from the subject, any special knowledge, and the availability of other options, environmental conditions, or subject is handcuffed.

Whenever an officer responds above the level of response recommended by the RESPONSE TO RESISTANCE CONTINUUM, he must articulate the threat and action posed by the subject in the required reports.

1.3 DETAINEE SAFETY

Once in an officer's custody, the safety of the detainee is paramount. See directive 402.5/2.14 Detainee Safety.

2 NON-VIOLENT DEMONSTRATORS RESPONSE TO RESISTANCE

Due to the sensitive nature of nonviolent demonstrations (i.e., civil rights, pro-life, pro-choice, etc.) exceptions to the RESPONSE TO RESISTANCE CONTINUUM have been established, for nonviolent, passive-resistance subjects:

- 2.1 If a nonviolent demonstrator does not respond to an officer's verbal commands, the officer is authorized to use all options within the blue area of the RESPONSE TO RESISTANCE CONTINUUM.

103.2 RESPONSE TO RESISTANCE

- 2.2 If a nonviolent demonstrator refuses to move, or uses the weight of his body to defeat the control of the officer, joint manipulations and pressure point control may also be used.
- 2.3 Officers, however, are **not** authorized to use weaponless strikes to muscle groups, stun techniques, or takedown techniques, with nonviolent demonstrators.

NOTE: This exception only applies to **non-violent** demonstrators. If at any time, a demonstrator becomes violent, then the standard RESPONSE TO RESISTANCE CONTINUUM applies.

3 LESS-LETHAL WEAPONS

Prior to issuance to an officer, all department less-lethal weapons shall be inspected and approved by department members who are certified, less-lethal weapons instructors. This process will be completed to ensure that these weapons are within specifications and in safe working order.

3.1 APPROVED LESS-LETHAL WEAPONS

- 3.1.1 Approved less-lethal weapons shall be issued to all officers by the department, the specifications of which shall be dependent upon the nature of the officer's assignment.
- 3.1.2 Officers while on-duty or working off-duty projects, shall only carry less-lethal weapons that they have been trained to use and that are issued and approved by the department.
 - Baton – Expandable
 - Aerosol Chemical Agent – Oleoresin Capsicum & C.S. Military Tear Gas
 - Projectile Chemical Agent – Pepper Ball Gun capable of deploying shell projectiles that contain pepper powder
 - Soft-Impact 40MM Projectile

3.2 USE OF BATONS

Officers are permitted to carry department issued batons for which they have received training. The baton shall be used in accordance with the RESPONSE TO RESISTANCE CONTINUUM.

3.3 USE OF CHEMICAL AGENTS

3.3.2 AEROSOL CHEMICAL AGENTS

Officers are permitted to carry aerosol chemical agents for which they have received training and authorization from the Training Section

3.3.2 USE OF CANISTER AND PROJECTILE CHEMICAL AGENTS

The incident commander has the responsibility of determining the use of canister and projectile chemical agents, and has the authority to direct their deployment. Canister and projectile chemical agents may be used in situations such as large civil disturbances, barricaded suspects, and high-risk entry situations. These chemical agents may be used to minimize injury to suspects, officers, and others, and also to avoid property damage.

3.3.3 AID AFTER EXPOSURE TO CHEMICAL AGENTS

Whenever a subject is exposed to chemical agents, the arresting officer shall be responsible for monitoring the subject for possible medical complications.

103.2 RESPONSE TO RESISTANCE

If the subject experiences medical complications, medical treatment shall be sought immediately. The arresting officer shall also be responsible to ensure, and document, that the subject is provided some form of field decontamination (exposure to fresh air, wind, and/or provided water to flush the eyes) prior to being transported to a medical facility.

3.4 EMERGENCY WEAPONS

Incidents that require the use of physical control techniques are dynamic, and potentially dangerous. In these evolving situations, officers may not have the time, or the ability, to utilize authorized weapons. Only in those emergency instances where officer availability options are limited, are they authorized to use other instruments to protect themselves, or others.

3.5 TASER

The TASER is a hand-held electronic control device that causes the subject to become temporarily physically debilitated, regardless of his/her pain tolerance, or mental focus. **See Directive 401.21 – TASER, for the procedures associated with this device.**

3.6 SOFT-IMPACT 40MM PROJECTILE

Soft-Impact 40MM Projectiles offer a less lethal alternative for subduing or incapacitating a subject and to prevent imminent physical harm, while maintaining officer safety. **See Operations Division Manual – EXTENDED RANGE IMPACT WEAPONS, for procedures associated with this device.**

3.7 REMOVAL OF UNSAFE LESS-LETHAL WEAPONS

Less-lethal weapons that are found to be deficient or unsafe shall be removed from service. If an officer observes any of his issued less-lethal weapons to be deficient or unsafe, he shall immediately notify a supervisor. The supervisor shall then direct the officer to the Property Management Unit for a replacement weapon.

See Directive 401.21/2.4 – TASER, for the procedures associated with this device.

4 REPORTING USE OF PHYSICAL CONTROL TECHNIQUES

RESPONSE TO RESISTANCE REPORT - In every instance where an officer uses physical control techniques that are beyond the mere taking control of a subject to take the subject into custody, or in any incident where a subject is injured while resisting their arrest (whether claimed or apparent), or in any incident where physical control techniques are utilized (including incidents where no arrests are made), a **RESPONSE TO RESISTANCE REPORT**, and a **CRIME REPORT (TPD FORM 38.1)**, shall be completed. The Response to Resistance Report shall be completed in the Benchmark Analytics system.

NOTE: Placing handcuffs on a submissive, or compliant, subject; conducting a 'Terry' pat down; or assisting fire/rescue, or EMS personnel are not physical control techniques that require the completion of this form, providing that the subject does not sustain injury. However, striking or wrestling with a subject, or the use of chemical agents (including projectile chemical agents), a baton, TASER, or firearm, are uses of physical control techniques that require the completion of a **RESPONSE TO RESISTANCE REPORT**, and a **CRIME REPORT**.

103.2 RESPONSE TO RESISTANCE

- 4.1 **INCIDENTS INVOLVING NO INJURY:**
 - 4.1.1 On-duty officers completing a RESPONSE TO RESISTANCE REPORT, shall turn them into a supervisor, prior to the end of the officer's shift.
 - 4.1.2 Off-duty officers shall turn in their RESPONSE TO RESISTANCE REPORT to their immediate supervisor (where the officer is assigned). Off-duty officers shall turn in their RESPONSE TO RESISTANCE REPORT, no later than 48 hours after the incident occurs.
- 4.2 **INCIDENTS INVOLVING INJURY:**
 - 4.2.1 On-duty officers shall immediately advise their direct supervisor of the injury, or claimed injury. On-duty officers completing a RESPONSE TO RESISTANCE REPORT, shall turn it in to their supervisor, prior to the completion of the officer's tour of duty.
 - 4.2.2 Off-duty officers shall immediately notify the on-duty Operations supervisor responsible for the geographical area, where the incident occurred. A RESPONSE TO RESISTANCE REPORT shall be completed, immediately, and turned in to the Operations supervisor conducting the review of the incident.
- 4.3 Officers using physical control techniques shall document each subject upon whom physical control techniques were used. If more than one police unit is involved in the incident, each additional unit shall complete a RESPONSE TO RESISTANCE REPORT.
- 4.4 In all cases, the factors and circumstances that supported the level of physical control techniques used shall be described in the narrative portion of the CRIME REPORT.
- 4.5 Use of Firearms: In cases involving the use of a firearm by an officer, the provisions contained in Directive 303.3/16 FIREARMS AND AMMUNITION, shall be followed, in lieu of, Directive 103.2/4 – REPORTING USE OF PHYSICAL CONTROL TECHNIQUES.
- 4.6 Any time an officer checks a box for "**Other**", he shall indicate what the "**Other**" was. For example, if "**Other**" is checked for "*Special Circumstances*", the officer shall specify the factor.

5 SUPERVISORY RESPONSIBILITIES

- 5.1 **INCIDENTS INVOLVING NO INJURY**
 - 5.1.1 For incidents that do not result in an injury or claimed injury, immediate supervisors shall review all RESPONSE TO RESISTANCE REPORTS completed by their subordinates.
 - 5.1.2 Supervisors shall also review all RESPONSE TO RESISTANCE REPORTS completed by their subordinates for all incidents that occur when officers are off-duty. The supervisor shall forward each RESPONSE TO RESISTANCE REPORT, up the chain of command, for review and approval.
- 5.2 **INCIDENTS INVOLVING INJURY**
 - 5.2.1 On-Duty Officer Involved: A command officer of at least one rank higher than the involved officer, preferably his immediate supervisor, shall immediately

103.2 RESPONSE TO RESISTANCE

respond to the scene and review the circumstances of any incident where a subject is injured or claims to be injured. Command officers shall thoroughly investigate the incident, including interviewing all witnesses.

- 5.2.2 Off-duty officer Involved: The on-duty Operations supervisor assigned to the geographic area, in which an off-duty incident occurs, shall be responsible for responding to the scene, reviewing the incident, and completing the supervisor review portion of the RESPONSE TO RESISTANCE REPORT. Once the form is completed, it shall be forwarded to the off-duty officer's assigned bureau/section commander.
- 5.2.3 For incidents involving injury, whether on or off-duty, the supervisor shall complete the RESPONSE TO RESISTANCE REPORT and shall provide a complete, factual account of the incident, and shall not include personal opinions or conclusions.

5.3 ROUTING

- 5.3.1 Each level of command shall conduct a review, and submit all completed forms and relevant reports to the next level, or assign a supervisor to conduct an additional review.
- 5.3.2 The Response to Resistance Report, along with a copy of the CRIME REPORT, shall be sent through the chain of command to their respective deputy chief or their designee.
- 5.3.3 Supervisors in the chain of command shall each have seven calendar days to review the Response to Resistance Report(s) before it is sent to the next level.

5.4 VIOLATIONS OF THE RESPONSE TO RESISTANCE POLICY

All suspected violations of the RESPONSE TO RESISTANCE policy shall be reported immediately on a DEPARTMENTAL INVESTIGATION FORM (TPD FORM 5.6) and routed to the Internal Affairs Section.

6 EXCITED DELIRIUM

- 6.1 Excited delirium is characterized by agitation, aggression, acute distress and in some cases, sudden death. Individuals in a state of excited delirium may exhibit one or more of the following signs:

- Incoherent or irrational speech
- Aggressive, agitated or disorderly behavior
- Extraordinary strength or resistance to pain
- Profuse sweating
- High heart rate
- Attraction to light, glass, mirrors, and water
- Public disrobing (partially or fully naked, even in the winter months)

- 6.2 If, at any time, an officer believes a subject is in a state of excited delirium, a life squad shall be summoned to the scene as soon as possible; a supervisor and, if necessary, additional backup shall be requested. Officers should consider the following:

- 6.2.1 Subjects with excited delirium often do not respond to verbal commands.
- 6.2.2 Attempts at physical control may not be effective given extreme levels of strength and resistance to pain.

103.2 RESPONSE TO RESISTANCE

- 6.2.3 Continued physical struggle can worsen a subject's innate fight-or-flight response, which can raise the subject's temperature, cause changes in the body's acid-base balance, and increase risk of sudden death.
- 6.2.4 The safety of officers and the general public is paramount.
- 6.3 If it can be done so safely, officers shall wait for life squad/medical personnel to arrive and coordinate a plan of action before making physical contact with the subject. This coordination may involve:
- A plan to restrain/control the subject
 - Positioning of the subject's body once under control
 - How and where a sedative will be administered, if necessary
- 6.4 If officers deem it necessary to go hands-on with the subject before the life squad arrives, officers shall:
- Continuously communicate a plan to restrain/control the subject. If possible, the subject shall be placed in a recovery position (either in a seated position or placed in a position lying on his side with the legs no closer than a 90-degree angle to the torso) while waiting for life squad/medical personnel.
 - If the recovery position is not feasible, every attempt shall be made to monitor the consciousness and breathing of the subject until life squad/medical personnel arrive.
- 6.5 The decision to render sedation medication based on the subject's agitated/behavioral emergency is entirely up to the responding life squad/medical personnel. Officers are not authorized to command the emergency medical service to sedate the subject.
- 6.6 At least one officer shall accompany medical personnel in the ambulance when transporting the subject to the emergency room. This officer will be required to relay any pertinent information to the medical staff upon arrival.

7 RENDERING MEDICAL AID AFTER RESPONSE

- 7.1 Every time physical control techniques are used, officers shall evaluate the subject, and determine if medical aid is required. Medical treatment shall be provided under any of the following circumstances:
- 7.1.1 If there is any visible injury the officer believes may require treatment.
 - 7.1.2 If the subject requests medical attention.
 - 7.1.3 If the subject is incapable of communicating his well-being and an officer has reason to believe the subject needs medical attention.
 - 7.1.4 If the subject was unconscious at any time during the contact.
 - 7.1.5 If a TASER has been deployed on a subject.
 - 7.1.6 If the subject is believed to be in a state of excited delirium.
 - 7.1.7 If the subject was struck with a Soft-Impact 40MM Projectile.
- 7.2 Depending upon the urgency of the subject's need for medical attention, officers shall either request the Toledo Fire and Rescue Department to the scene, transport the subject immediately to the nearest hospital with EMS approval, or request an evaluation by Lucas County Correction Center (LCCC) medical personnel when booking the subject.

103.2 RESPONSE TO RESISTANCE

- 7.3 Medical aid shall be rendered as quickly as reasonably possible following any law enforcement interaction in which injuries have been sustained.

8 DEADLY/LETHAL OPTIONS

8.1 RESTRICTIONS

The Toledo Police Department limits the use of deadly/lethal options to: self-defense or the defense of others, from the threat of death, or immediate serious physical injury; the apprehension of subjects, whose acts have demonstrated that they are likely to take an innocent party's life, or to inflict serious physical injury upon another person, if not immediately apprehended.

8.1.1 Danger to third parties - even when deadly/lethal options are permissible, officers should assess whether their use creates a danger to third parties that outweighs the likely benefits of its use.

8.1.2 The risk of death – officers should be aware that even in the rare case where the deadly/lethal options are reasonable, it must be with the realization that the death of some person may occur, not necessarily with the intent that such will be the result.

8.1.3 When the decision is made to use deadly/lethal options, officers may continue its application until the subject no longer poses an immediate threat of danger to the officer, or to others.

8.1.4 Justification; limited to facts known by the officer – justification for the use of deadly/lethal options must be based on what reasonably appears to be the facts known, or perceived by an officer, at the time he decides to use deadly/lethal options. Absent any known or perceived supporting facts, a subsequent investigation establishing these supporting facts does not justify the officer's response.

8.1.5 Officers are prohibited from using choke holds except when protecting themselves or others against an imminent threat of serious bodily harm or injury.

8.2 AUTHORIZED USE OF FIREARMS

8.2.1 Defense of human life – officers are permitted to use deadly/lethal options, when it is reasonable to believe that a subject poses an immediate threat of danger of death, or serious physical injury, to the officer, or to others.

(a) When feasible, and to do so would not increase the danger to officers or others, officers shall identify themselves as a police officer and issue a warning of their intent to use deadly force before discharging a firearm.

8.2.2 Fleeing felons – An officer is authorized to use deadly/lethal options, when it is reasonable to prevent the escape of a felon, **if**:

(a) There is probable cause to believe that the subject has committed a felony involving the infliction or threatened infliction, of serious physical injury, or death, **and**

(b) The subject's escape would pose an immediate threat of danger, or death, or serious physical injury to the officer, or to others, if not immediately apprehended, **and**

(c) **If feasible**, some warning has been given.

8.2.3 Dangerous, or seriously injured animals - officers may use a firearm to destroy:

103.2 RESPONSE TO RESISTANCE

- (a) A dangerous animal, which poses an **immediate** threat to the officer or to others.
- (b) A seriously injured animal, where humanity requires its relief from further suffering.
 - This shall be done only as a last resort, when no other disposition is reasonably available, and only upon the authorization of a supervisor.
 - If an officer uses a firearm to destroy a seriously injured deer (e.g., when struck by a motor vehicle), or when an officer encounters a situation, with a seriously injured or dead deer, then officers shall use the following procedure:
 - ❖ **Motor vehicle crashes** - The driver of the motor vehicle that struck the deer has first claim on the deer’s carcass. If this driver does not wish to claim the carcass, the officer may allow another individual to claim the carcass.
 - ❖ **Incidents other than motor vehicle crashes** – the officer may allow an individual to take possession of the carcass, but should give preference to anyone with a possessory claim to the deer.
 - ❖ The officer shall complete an Ohio Department of Natural Resources (ODNR) Deer Carcass Receipt, listing the information of the individual who takes possession of the carcass. Officers shall provide the yellow copy of the completed deer carcass receipt to the individual.
 - ❖ The officer shall forward the original deer carcass receipt, and if applicable, other related reports (e.g., an Ohio Traffic Crash Report, Impound Report, etc.) to the Records Section, prior to the end of their tour of duty.
 - ❖ If the circumstances surrounding the death of the deer are suspicious, the officer shall have Communications personnel contact the local ODNR Wildlife Officer for advice, before releasing the carcass.

8.2.4 In supervised target practice, authorized competition, or when Forensic Laboratory personnel are required to do so, to test a firearm.

9 **FIREARMS RESTRICTIONS (SEE DIRECTIVE 303.3/16 FIREARMS AND AMMUNITION)**

10 **POST-SHOOTING**

10.1 **OVERVIEW**

DIRECTIVE 103.5	TOLEDO POLICE DEPARTMENT		
EFFECTIVE November 01, 2002	STANDARD OPERATING GUIDELINES		
REVISED December 1, 2012	CHIEF OF POLICE: <i>Michael C. Froendle</i>	PART: ADMINISTRATION	PAGES 3
RESCINDS NOVEMBER 01, 2002	INSPECTIONS		

I POLICY

Inspection and control is necessary to ensure that policies, procedures, and rules are adequate and are being adhered to, whether department resources are adequate and are being properly utilized, and to evaluate the overall performance and attitude of the department. While a formalized inspections unit may exist, it remains the responsibility of each sworn supervisor to conduct inspections within his command to ensure the proper performance of assigned personnel and the most efficient use of assigned equipment, materials, and facilities. Merely finding fault is not inspecting. Therefore, a sworn supervisor's responsibility does not end with the discovery of a deficiency or inadequacy; it includes taking positive measures to correct the problem.

II DEFINITIONS

STAFF INSPECTION – An inspection specifically conducted by members of the Planning, Research and Inspections Section. All staff inspections are at the direction of either the chief of police or the Support and Administrative Services Division commander.

LINE INSPECTION – An inspection conducted by supervisory personnel immediately responsible for an employee, equipment or facility being inspected.

III PROCEDURES**1. STAFF INSPECTIONS**

The purpose of a staff inspection is to promote an objective review of administrative and operational activities, facilities, property, equipment and personnel, outside of regular supervisory inspections. In general, staff inspections focus on agency procedures and encompass a wider scope than line inspections. The staff inspection process shall include five components:

No

1.1 INITIATION AND APPROVAL

Any member of the police department may request the initiation of a staff inspection by submitting a written request through his chain of command to the Planning, Research and Inspections Section.

1.1.1 Requests for staff inspections should be based upon a demonstrated need for the evaluation of a department component, function or procedure.

1.1.2 No staff inspection shall be initiated without the approval of the chief of police or the Support and Administrative Services Division commander.

- 1.1.3 The chief of police or the Support and Administrative Services commander shall also determine the scope of the staff inspection.

1.2 NOTIFICATION

- 1.2.1 Prior to beginning any staff inspection, a member of the Planning, Research and Inspections Section shall notify, in writing, the commander of the bureau, section or unit included in the inspection.
- 1.2.2 This written notification shall contain the date the inspection will commence, as well as the date on which it is estimated the inspection will conclude.
- 1.2.3 The notice will also include the scope of the inspection and will contain a request for documents or materials that will be needed to conduct the evaluation.

1.3 EVALUATION

- 1.3.1 The evaluation component consists of the actual on-site or hands-on inspection of the subject evaluated.
- 1.3.2 Members of the Planning, Research and Inspections Section shall make use of any and all available reports and materials, as well as personnel interviews, to make a complete evaluation.
- 1.3.3 The ideals of thoroughness and objectivity shall be foremost throughout the inspection process.

1.4 REPORTING

- 1.4.1 All staff inspections require a written report. The report's format may vary based on the subject of the inspection; however, the report shall always contain a statement of the inspection's results, including both negative and positive findings. The formal report will also contain recommendations for eliminating or lessening any deficiencies found.
- 1.4.2 Prior to forwarding the final inspection report, the person conducting the inspection shall discuss the findings with the commanders of the bureaus, sections and units evaluated. Their comments, whether in agreement or disagreement with the findings of the inspection, shall be included in the final report.
- 1.4.3 The inspection report shall be submitted to the commander of the Planning, Research and Inspections Section, who shall review it and forward it to the commander of the Support and Administrative Services Division. The Support and Administrative Services Division commander shall forward reports of inspections initiated at the direction of the chief of police to him after his review. The chief of police will be provided a copy of all other staff inspection reports if not originated by him. If the final report is acceptable, the original shall be permanently filed with the Planning, Research and Inspections Section.

1.5 FOLLOW-UP EVALUATION

- 1.5.1 All staff inspections require a follow-up evaluation. Follow-up evaluations do not require the wide examination that was necessary in the initial inspection. Instead, they will concentrate on the correction of deficiencies found during the first inspection. The timing of follow-up inspections shall be based upon

the amount of time reasonably required to implement corrective actions recommended in the formal inspection report.

- 1.5.2 Follow-up inspections require the same notifications as does the initial inspection. The findings of the follow-up will also be discussed with the involved bureau, section and unit commander prior to the submission of any report. The commander's comments will be incorporated in the follow-up report. Follow-up reports are to be submitted under the same procedure as the initial inspection report, and will be filed as an addendum to the original report.

2 **LINE INSPECTIONS**

Each supervisor is responsible for inspecting personnel, activities, and equipment under his supervision and initiating suitable corrective action in the event of failure, error, violation, misconduct, or neglect of duty by a subordinate. The frequency of an inspection depends upon the purpose of the inspection. On a daily basis, an employee's appearance, demeanor and maintenance of equipment are subject to inspection. A more comprehensive equipment inspection will be conducted annually, during the month of April to discover damaged or missing equipment. See Department Manual chapter 303.2 UNIFORM AND EQUIPMENT, section 6.1 ANNUAL INSPECTION OF EQUIPMENT.

2.1 **FREQUENCY**

Supervisors are responsible for performing line inspections on a daily basis. A visual inspection will be conducted of employees' personal appearance and condition of equipment at the beginning of their work shift. Each bureau commander also possesses the authority to initiate line inspections other than those scheduled.

2.2 **REPORTING**

The division commander of the involved bureau shall determine what line inspections require a written report and the format of any report filed. Generally, a written report of the inspection is only required if corrective or disciplinary action is needed.

2.3 **FOLLOW-UP EVALUATIONS**

Supervisors will follow up to ensure that corrective action has been taken regarding unacceptable conditions or performance. If upon re-inspection, the deficiency is not corrected, the supervisor may initiate a DEPARTMENTAL INVESTIGATION FORM (TPD FORM 56).

3 **FACILITIES**

All supervisory personnel are responsible for reporting building deficiencies. Supervisors should inspect facilities by means of a walk-through or observation. Minor deficiencies should be noted on a Supervisors REPORT (TPD FORM 20.7) and forwarded through the chain of command. Major concerns should be immediately reported to the appropriate division commander.

	DRUG AND ALCOHOL POLICY		

I POLICY

The Toledo Police Department recognizes illegal drug usage as a threat to the public safety and welfare of the employees of the department.

Thus, the Toledo Police Department will take the necessary steps, including drug testing, to eliminate illegal drug usage by its employees. The goal of this policy is prevention and rehabilitation rather than termination. The illegal use of drugs and alcohol by employees of this department can have a major impact on job performance.

II PROCEDURES

1 IMPACT OF DRUG USE

1.1 DRUG-RELATED CRIMES

The department is especially sensitive to the fact that even the one-time usage of a controlled substance feeds into a vast network of criminal activity. Frequent use of drugs may lead to selling drugs, theft of drugs, theft of evidence, commission of other serious crimes, association with criminal corruption and involvement with organized crime.

1.2 UNRELIABLE WITNESSES

Employees who have used or abused drugs can easily be discredited as a witness in a court case.

1.3 MORALE AND LOSS OF PUBLIC TRUST

A scandal involving illegal drug usage in the police department would have a major impact on the vast majority of employees who have earned the public's trust. The department would face speculation about the integrity and the willingness of the department to police its own.

1.4 SAFETY AND LIABILITY ISSUES

Department members have a number of responsibilities that set them apart from employees in other organizations:

- They are entrusted with firearms.
- They operate vehicles, sometimes under emergency conditions.
- They have the authority to deprive others of their liberty.
- They provide back-up to other officers in dangerous and sometimes life-threatening situations.
- They may be recalled to duty 24 hours a day.

2 **DRUG TESTING; NOTIFICATION**

2.1 **ASSIGNMENT/SPECIALIZED UNIT - NOTIFICATION/TESTING**

Personnel assigned to special units as specified in the respective bargaining agreements, and those in the Special Operations Bureau may be ordered at the Chief's discretion to submit a urine sample for testing for illegal drug usage once each calendar year.

2.1.1 A calendar year shall be from January 1 to December 31.

2.1.2 The Chief of Police or his designee shall determine the date and time of the testing.

2.1.3 All notifications of assignment-related drug testing shall be made in writing on an ILLEGAL DRUG USAGE SCREENING FORM (TPD FORM 5.10).

2.1.4 During normal business hours, a sworn supervisor of at least one rank higher and/or the Personnel Section Commander or his designee shall accompany the officer to the city physician's office.

2.1.5 The officer shall then be ordered to submit a urine sample according to the specific procedures established by the city physician's office.

2.2 **PROMOTION-RELATED NOTIFICATION/TESTING**

Sworn personnel may be tested as a requirement of promotion.

2.2.1 Officers tested as a requirement of promotion shall be notified of the place and time of the test.

2.2.2 All notifications of promotion-related drug testing shall be in writing on an ILLEGAL DRUG USAGE SCREENING FORM.

2.3 **REASONABLE SUSPICION NOTIFICATION/TESTING**

Any employee may be tested for illegal drug usage based on reasonable suspicion, **whether on-duty or off-duty.**

2.3.1 Reasonable suspicion is a lesser standard than probable cause.

2.3.2 There is reasonable suspicion when there is some articulable basis for suspecting the employee is using illegal drugs or using intoxicants.

2.3.3 This section removed.

2.3.4 All notifications to submit to drug testing due to reasonable suspicion shall be made in writing on an ILLEGAL DRUG USAGE SCREENING FORM AND FITNESS FOR DUTY USE OF INTOXICANTS FORM (TPD FORM 5.12).

2.3.5 It is the policy of the department to collect urine samples in a medical setting. Generally, the sample should be collected during normal business hours at the office of the designated city physician. However, samples may be collected in other medical settings during other than normal business hours.

2.4 **RANDOM NOTIFICATION/TESTING**

Employees whose labor agreement allows for random testing for illegal drug usage may be ordered to submit a urine sample to test for illegal drug usage. Whenever they are selected for such testing, employees will be required to submit a urine sample through the random method utilized by the Department's drug screening provider.

2.4.1 The Chief of Police or his designee shall determine the date, time and location of the testing.

2.4.2 All notifications, of random drug testing, shall be made in writing on an ILLEGAL DRUG USAGE SCREENING FORM.

2.5 **INCIDENT-RELATED NOTIFICATION/TESTING**

Employees whose labor agreement allows for testing based on their involvement in an incident-related action (e.g., vehicle operator in an on-duty traffic accident, officer-involved shooting, etc.) may be ordered to submit a urine sample to test for illegal drug usage, if they are involved in a covered incident.

2.5.1 Covered incidents are outlined in the current labor agreement.

(a) Immediate testing based upon reasonable suspicion or probable cause is not limited to the listed incidents or to duty status. Testing procedures found in Directive 103.9/3.2 – SUPERVISORY RESPONSIBILITIES shall be utilized.

2.5.2 When an employee whose labor agreement calls for such testing is involved in an incident-related action, the employee’s Deputy Chief shall be immediately made aware of the facts surrounding the incident.

2.5.3 The Deputy Chief shall determine whether or not the employee shall be required to submit a urine sample to test for illegal drug usage.

2.5.4 When it is determined that an employee is to be tested as a result of an incident-related action, he shall be given a written order setting forth the time and date of the test, on an ILLEGAL DRUG USAGE SCREENING FORM AND FITNESS FOR DUTY USE OF DRUGS OR INTOXICANTS FORM.

2.5.5 A sworn supervisor of at least one rank higher, and the Personnel Section Commander or his designee, shall accompany the employee to the city physician’s office.

2.5.6 The employee shall then be ordered to submit a urine sample according to the specific procedures established by the city physician’s office.

3 **FITNESS FOR DUTY; DRUG OR ALCOHOL TESTING**

Supervisors are periodically faced with fitness-for-duty situations where immediate action is required. The following is an attempt to clarify and simplify some of the issues involved in the most common types of fitness-for-duty situations.

3.1 **INTOXICATED EMPLOYEE OR SUSPECTED DRUG USE**

3.1.1 If the employee is driving and probable cause exists to believe the employee is under the influence of alcohol and/or a drug of abuse, a criminal charge of OVI may exist.

(a) Any employee suspected of OVI, whether on or off duty, shall be treated the same as any other citizen suspected of OVI.

3.1.2 If the employee is not driving, the basis for the testing of an on-duty or off-duty employee is *reasonable suspicion*; a lesser standard than probable cause. There is reasonable suspicion when there is some articulable basis for suspecting the employee is using illegal drugs or under the influence of alcohol.

3.2 **SUPERVISORY RESPONSIBILITIES**

When an employee is suspected of driving under the influence; or there is reasonable suspicion that an employee is using illegal drugs; or there is reasonable suspicion that an on-duty employee has consumed alcohol or is under the influence of alcohol; or an off-duty officer has consumed *any* amount of alcohol and acts in the capacity of a police officer, or identifies himself as a police officer:

103.9 DRUG AND ALCOHOL POLICY

- 3.2.1 A sworn supervisor of at least the next higher rank must immediately be notified and respond to the scene. If a civilian employee is involved, the employee's supervisor shall contact the shift commander, who will immediately respond to the scene.
- 3.2.2 The employee shall be **immediately** relieved of duty. The sworn supervisor shall immediately relieve the employee of his service weapon, Taser, police radio, ID card (civilians included) and badge/hat piece.
- 3.2.3 An employee suspected of being under the influence of drugs or alcohol **shall** be administered field sobriety tests for criminal proceedings. Field sobriety tests are not required when testing an employee for **administrative charges**.
- 3.2.4 Prior to testing for **administrative charges**, inform the employee of his right to union representation.
- 3.2.5 Per the T.P.C.O.A. and T.P.P.A. labor agreements, employees must be informed of the Toledo Police Department's drug testing policy before testing is administered for **administrative charges**.
- 3.2.6 Notify the employee's section commander. The section commander shall then ensure that the employee's deputy chief, as well as the commanders of the Internal Affairs and Personnel Sections are notified **immediately** (if non-business hours, contact may be made through Communications).
 - (a) During business hours, the Personnel Section Commander shall review facts with the Chief of Police to determine if reasonable suspicion exists and notify the Safety Director.
 - (b) After business hours, the Personnel Section Commander and the respective deputy chief will determine if reasonable suspicion exists; then, the Personnel Section Commander will notify the Safety Director the next day.
 - (c) The respective deputy chief shall notify the Chief of Police.
- 3.2.7 Follow any and all instructions received by the Personnel Section Commander.
 - (a) This may include instructions for transporting the employee to a specific medical facility (if not an OVI), where the testing will take place.
 - (b) The Personnel Section Commander will meet the sworn supervisor and the employee at the medical facility.
 - (c) The Personnel Section Commander will make all arrangements with the medical facility.
- 3.2.8 The officer must be offered a breathalyzer test as it relates to the criminal or traffic charges of OVI or, if the employee was not driving, the administrative charge of use of intoxicants.
- 3.2.9 If the employee is being charged with the criminal charge of OVI or administrative charge of being intoxicated while on-duty, and refuses the breathalyzer test, the Personnel Section Commander, or his designee, shall order the employee, in writing, to submit to the breathalyzer test for administrative purposes using FITNESS FOR DUTY USE OF INTOXICANTS.
 - (a) Refusal could result in the **administrative charge** of GROSS INSUBORDINATION, WILLFUL VIOLATION and/or CONDUCT UNBECOMING AN OFFICER.
 - (b) The officer shall be advised that refusal of the order could be the basis for disciplinary action up to and including dismissal from the department.
- 3.2.10 If the breathalyzer test is unable to be administered, another test may be given. Reasons for other tests may be, but are not limited to:

- (a) Breathalyzer machine is not operating.
 - (b) Employee is unable, due to medical conditions, to take a breathalyzer test.
- 3.2.11 A sworn supervisor shall remain with the employee at all times, including transport.
- 3.2.12 The employee shall not be allowed to operate any vehicle.
- 3.2.13 The sworn supervisor shall cite the employee for any appropriate criminal/traffic OVI violations. Copies of the citation(s) shall be included with the UNUSUAL INCIDENT REPORT (TPD FORM 40.0) and/or DEPARTMENT INVESTIGATION FORM REPORT (TPD FORM 5.6).
- 3.2.14 As with any private citizen charged with OVI, booking is optional as long as there is a responsible party to whom the arrested person may be released. At no time shall an on-duty officer serve as the responsible party to whom the arrested employee is released.
- 3.2.15 If the employee was not driving nor booked at the Lucas County Corrections Center, the sworn supervisor shall make arrangements to have the employee driven home by someone other than an on-duty employee. At no time shall an employee relieved of duty for drugs or intoxication be allowed to operate any motor vehicle.

4 **URINE SAMPLES; CUSTODY**

4.1 **URINE TESTING**

- 4.1.1 The sworn supervisor who relieves the employee of duty shall transport and remain with the employee at all times, until the employee has submitted a sufficient sample and the process has been completed. However, in order not to cause embarrassment to the employee, the sworn supervisor shall generally not be required to witness the submission of the urine sample, unless required by the policies of the medical facility.
- 4.1.2 The submission of samples taken during assignment/promotion-related testing shall not be witnessed.
- 4.1.3 This section deleted.
- 4.1.4 An employee, who in the judgement of the collecting official, attempts to substitute another person's urine, alter by placing or mixing any foreign substance into the sample bottle with his urine, or in any other way, tampers with the collection process, will be required to remain at the medical facility and submit a proper sample.
- 4.1.5 Once the sample has been collected, the sworn supervisor shall be directed by the Personnel Section Commander where to take the employee.
- 4.1.6 All required and appropriate reports (i.e., UI, DIF, Supplemental) shall be completed immediately with one copy forwarded to the employee's deputy chief, one copy to the Personnel Section Commander, and one copy forwarded to the Chief of Police. All envelopes containing reports shall be sealed and marked **PERSONAL & CONFIDENTIAL**.

4.2 **SAMPLE AND CHAIN OF CUSTODY**

A urine sample collected at the city physician's office shall remain in his custody. The procedures established by his office for the preservation of the integrity of the sample shall be followed.

103.9 DRUG AND ALCOHOL POLICY

- 4.2.1 The urine sample collected for testing shall normally be obtained as the result of one void.
- 4.2.2 A minimum of 30 cc of urine must be obtained at one time in order for a split sample to be obtained. For those samples testing positive, the split sample will be subject to a second analysis at a second approved laboratory.
- 4.2.3 If less than 30 cc of urine is obtained, there will be no split sample. However, the original sample, if tested positive, will continue to be kept and available for testing at a separate laboratory.

4.3 **SAMPLES NOT COLLECTED BY CITY PHYSICIAN**

Incidents may occur where samples may be collected at medical locations other than the city physician's office. When the Personnel Section Commander is notified, he shall respond to the employee's location. The Personnel Section Commander shall supervise the collection of the sample. In addition to the other provisions of this order, he shall ensure the following steps are adhered to:

- 4.3.1 The name and department I.D. number of the employee submitting the sample are securely affixed to the bottle used to collect the sample.
- 4.3.2 The sample is collected directly from the employee submitting the sample or the medical personnel receiving the sample.
- 4.3.3 The sample is properly sealed and is marked on the top of the container with the initials of the employee submitting the sample, along with the initials of the medical personnel receiving the sample.
- 4.3.4 The Personnel Section Commander shall take custody of the sample and deliver it to the city physician's office.
- 4.3.5 The city physician will make the request for analysis of the sample and ensure that his standard procedures are followed.

4.4 **ANALYSIS OF SAMPLE**

The urine sample from the employee will be analyzed at a laboratory selected by the city.

- 4.4.1 The laboratory will use established scientific principles in the analysis of the sample. However, to insure the highest degree of reliability, in every case where the initial screening test is positive, there shall be a confirmation test.
- 4.4.2 Only samples testing positive through the confirmatory test will be reported as positive.
- 4.4.3 Normally the EMIT test will be used as the initial screening test and Gas Chromatograph Mass Spectrometry (CG/MS) will be the confirmatory test.
- 4.4.4 For cannabinoids (marijuana) the positive testing level shall be set at 50 nanograms per milliliter (50ng/ml).
- 4.4.5 The positive levels of other drugs being tested for will be determined by the established standards of the testing laboratory.
- 4.4.6 The confirmation test shall be qualitative in nature rather than quantitative.

4.5 **PROHIBITED SUBSTANCES -- DRUG FREE WORK PLACE:**

- 4.5.1 The use of, or presence of a prohibited substance in an employee's system while on or off duty, is not permitted. Prohibited substances include: illegal drugs, prescription drugs not taken as prescribed and medical marijuana. Alcohol is defined as a prohibited substance when an officer is acting in an official capacity.

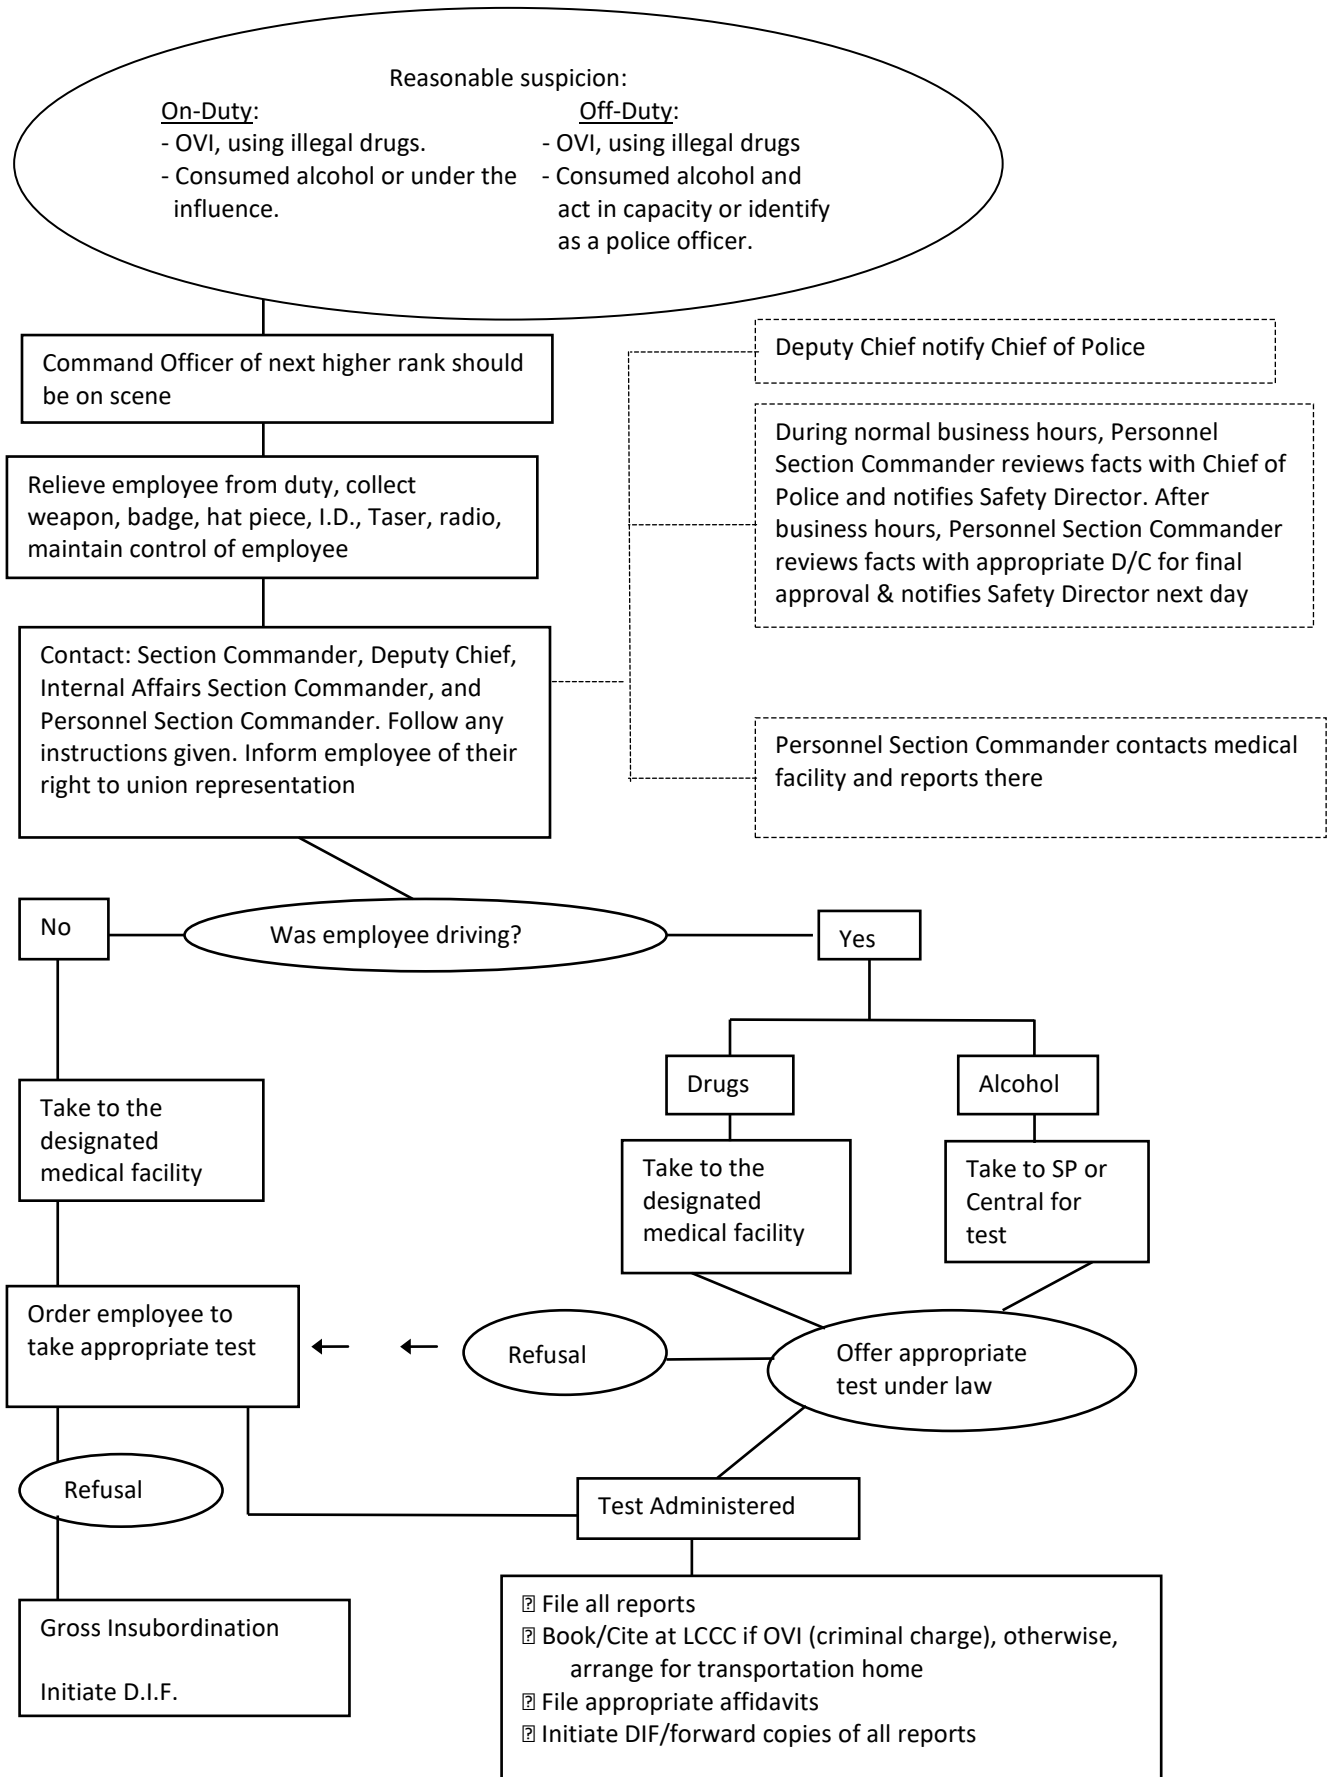

Marijuana remains an illegal controlled substance in the State of Ohio and by Federal Statute. As such, department personnel, whether qualified or not by the Ohio Medical Marijuana Control Program, shall not be considered "fit for duty" if they are using or ingesting marijuana for medical purposes.

- (a) Any employee or volunteer of the department who has applied for, intends to apply for, received, or been denied a card as a "qualifying patient" under the Ohio Medical Marijuana Control Program, shall immediately notify the Chief of Police of any such action in writing.
- (a) Any employee or volunteer of the department who has applied for, intends to apply for, received, or been denied a card as a "caregiver" under the Ohio Medical Marijuana Control Program, shall immediately notify the Chief of Police of any such action in writing.
- (b) Any employee or volunteer of the department who has any person living within their residence who is considered, under the Ohio Medical Marijuana Control Program, to be a "qualified patient" or "caregiver" shall immediately notify the Chief of Police in writing indicating the person's name and what relationship the department member has with the person(s).
- (c) No member of the department shall be permitted to own, operate, manage, be employed by, be financially involved in, or be otherwise involved in the operation, in any way, of any marijuana cooperative, dispensary, business or location that is used to manufacture, grow, process, use, sell, distribute or dispense marijuana for medical purposes, or any location that is involved in the sale or distribution of any paraphernalia that can be used for any of the above.
- (d) No member of the department shall be permitted to be a "caregiver" as defined by the Ohio Medical Marijuana Control Program for any person, unless so authorized in writing by the Chief of Police. Permission may be granted by the Chief of Police to allow a member to be a "caregiver" in extreme circumstances and only for persons of the department member's immediate family who are residing with the department member.

4.6 DISCIPLINE

Those employees testing positive for a prohibited substance may be subject to the disciplinary process.

DIRECTIVE 103.10	TOLEDO POLICE DEPARTMENT		
EFFECTIVE November 01, 2002	STANDARD OPERATING GUIDELINES		
REVISED February 13, 2018	<i>Michael C. Froendle</i> CHIEF OF POLICE:		PAGES 2
RESCINDS October 4, 2017	PART: ADMINISTRATION	CHAPTER: STANDARDS OF CONDUCT	
BIASED-BASED PROFILING			

I PURPOSE/POLICY

To provide guidance to ensure that police services are delivered equitably, respectfully and free of bias in a manner that promotes broad community engagement, trust and confidence in the Toledo Police Department.

Biased-based profiling is an unacceptable behavior and shall not be tolerated. The Toledo Police Department shall utilize various management tools to ensure that race, ethnicity, national origin, age, gender, gender expression or identity, sexual orientation, disability, religion, economic status, cultural group, limited English proficiency or any other identifiable group profiling does not occur.

II DEFINITIONS

BIAS-BASED PROFILING – Racial/ethnic/gender/sexual orientation profiling is defined as the stopping, questioning, detention, arrest, or other disparate treatment of any person based solely on characteristics of race, ethnicity, national origin, age, gender, gender expression or identity, sexual orientation, disability, religion, economic status, cultural group, limited English proficiency or any other identifiable group.

PROBABLE CAUSE – Sufficient reason based upon known facts to believe a crime has been committed or that certain property is connected with a crime.

REASONABLE SUSPICION – Legal standard of proof that is less than probable cause, the legal standard for arrests and warrants, but more than a “suspicion or ‘hunch’”; it must be based on “specific and articulable facts”.

III PROCEDURES

1 FAIR AND EQUAL TREATMENT

Officers must ensure all citizens receive equal and fair treatment regardless of race, ethnicity, national origin, age, gender, gender expression or identity, sexual orientation, disability, religion, economic status, cultural group, limited English proficiency or any other identifiable group.

2 BASIS OF STOP OR SEIZURE

Officers shall make traffic stops, field contacts, or any other formal action on the basis of reasonable suspicion or probable cause, shall make arrests only on the basis of probable cause, and shall not stop, detain, search, arrest or seize property based on race, ethnicity, national origin, age, gender, gender expression or identity, sexual orientation, disability, religion, economic status, cultural group, limited English proficiency or any other identifiable group.

3 **CORRECTIVE MEASURES**

In addition to remedial training, officers who have profiling or discrimination complaints sustained against them may be subject to the disciplinary process.

3.1 Employees are required to report any observed or known violations of this order by any department employee to their immediate supervisor.

4 **ANNUAL ADMINISTRATIVE REVIEW**

The Office of the Chief of Police, or their designee, shall conduct a documented annual administrative review of the department's practices concerning biased-based profiling.

4.1 The review shall include, but is not limited to, department policy and procedure, statistical data, and citizen concerns and any corrective measures taken to address these concerns.

5 **INITIAL AND ANNUAL AGENCY WIDE TRAINING**

The Toledo Police Department shall conduct biased-based profiling related training that includes, but is not limited to the following: field contacts, traffic stops, search issues, asset seizures and forfeitures, interview techniques, cultural diversity, discrimination, and community support to all new hires. It shall also provide annual training to all sworn personnel.

EARLY INTERVENTION SYSTEM			

I POLICY

The Toledo Police department has a responsibility to its employees and the community to identify and assist employees who require additional training or are showing symptoms of job-related stress or performance problems. The Early Intervention System (EIS) offers a non-disciplinary avenue to detect and address problems and/or deficiencies with personnel as early as possible. The behaviors identified under the system parameters will result in a comprehensive review of the individual employee's performance.

The EIS is a proactive program that assists participants in achieving the highest professional and ethical standards to ensure that employees of the Toledo Police Department have the necessary knowledge, skills and abilities to provide the best possible service to the community. The goals of the system are to facilitate positive reinforcement, training, and counseling to promote career longevity for the employee.

The Early Intervention System is divided into three distinct areas:

- Identification
- Analysis and Review
- Participation and Review

II PROCEDURES

1 CRITERIA THAT CAN TRIGGER AN EARLY INTERVENTION ASSESSMENT

Any of the below listed criteria, or a combination of the criteria, may cause an early intervention assessment to be completed by the EIS Review Committee. The EIS Review Committee will take an in-depth look at the criteria; decisions will not be based solely on the benchmarks, but rather as a collective whole.

- Three or more complaints within a 12 month period in which the employee was not exonerated.
- Three or more ACTION–RESPONSE (TPD FORM 29.3) incidents within a 12 month period which require additional supervisory review as a result of injuries suffered by prisoners.
- Officers with the greatest number of reported action-response incidents (top 2%), within a 12 month period, regardless of outcome.
- Two or more violations of the Vehicle Pursuit Policy within a 12 month period.
- Two or more preventable accidents within a 12 month period.
- Three or more firearm qualification attempts on three separate exercises, or a failure to qualify with an officer’s duty weapon during annual qualifications. Any officer who has consistently demonstrated difficulties during firearm qualifications may also be recommended for the EIS by the range supervisor.

103.11 EARLY INTERVENTION SYSTEM

- The referral is deemed appropriate by the chief of police.

2 BEHAVIORAL INDICATORS

The following performance data, although not all-inclusive, may indicate an employee is a candidate for EIS.

- Below average performance evaluation.
- A significant reduction in work performance.
- Unusual or unexplained changes in behavior.
- Excessive absenteeism and/or Late-for-Duty Reports.
- Any discernible pattern of repeated complaints, regardless of finding, against an employee.

3 IDENTIFICATION PROCESS

The EIS Employee Identification Process is dependent upon recognition of candidates through the following methods:

3.1 DATA SCANNING BY THE ACCREDITATION / INSPECTIONS UNIT

Under this process, employee statistical data is reviewed on an ongoing basis for referral indicators.

3.2 DATA SCANNING BY THE INTERNAL AFFAIRS SECTION

Under this process, employee statistical data is reviewed on an ongoing basis for referral indicators.

3.3 SUPERVISORY ASSESSMENT

Any supervisor who identifies negative behavior patterns in an employee should request, through the employee's division commander, that an EIS EMPLOYEE ANALYSIS REPORT be completed on the employee.

3.4 TRAINING SECTION ASSESSMENT

The Range supervisor, or his designee, identifies that an officer is in need of further firearms training.

4 EMPLOYEE ANALYSIS REPORT

4.1 When an employee has been identified through the EIS Employee Identification Process, or through a supervisory assessment, the EIS Review Committee shall thoroughly review all information pertaining to that employee, to determine whether an EMPLOYEE ANALYSIS REPORT (TPD FORM 12.40) is to be completed.

4.2 The EMPLOYEE ANALYSIS REPORT shall include any information that was used to determine the officer's eligibility for the EIS program, including all reports. In addition, it shall also include the employee's present assignment, length of service, and any prior training that may be appropriate.

4.3 The completed EMPLOYEE ANALYSIS REPORT shall be sent to the employee's division commander for review and recommendations. Once completed, the EMPLOYEE ANALYSIS REPORT shall be returned to the commander of the Administrative Services Bureau to determine a course of action.

5 THE EIS REVIEW COMMITTEE

- 5.1 The EIS Review Committee shall serve as an unbiased, objective group of department employees who provide a systematic and comprehensive review of defined indicator criteria when such a review is necessary. The EIS Review Committee shall consist of:
- The commander of the Administrative Services Bureau or his designee (Chairperson)
 - The commander of the Personnel Section, or his designee
 - The commander of Internal Affairs Section, or his designee
 - The accreditation manager
- 5.2 The EIS Review Committee shall meet quarterly, and at the discretion of the chief of police, to analyze the preceding twelve months of threshold criteria data. The EIS Review Committee shall compile a list of all officers who have reached the identification process thresholds. The EIS Committee will thoroughly review all necessary reports to determine if a pattern of behavior has been identified or a cause of concern has been substantiated. If determined, then the EIS Review Committee shall complete an EMPLOYEE ANALYSIS REPORT (TPD FORM 12.40) and forward it to the appropriate division/bureau/section commanders, with a list of officers who have reached the determined thresholds. The appropriate district commander shall provide any additional information regarding the employee to assist the EIS Review Committee, if applicable.
- 5.3 After reviewing the completed EMPLOYEE ANALYSIS REPORT with the division commander's recommendations, if the committee and the division commander concur they shall work together to develop a PLAN OF ACTION. If the committee and the division commander do not concur, they shall meet with the chief of police to determine the preferred course of action.
- 5.3.1 If no action is necessary, then the EMPLOYEE ANALYSIS REPORT will be filed, and no further action will occur.
- (a) The EIS Review Committee Chairperson shall ensure that the referring supervisor is notified of the decided course of action to be taken.
- 5.3.2 If action is deemed necessary, the EIS Review Committee will notify the employee's division/bureau/district commander and collectively, they will develop a PLAN OF ACTION (TPD FORM 12.30) for the employee. The committee shall then meet with the affected employee to discuss the plan and the expectations of the program. The chair of the committee will notify the applicable bargaining unit.

6 PLAN OF ACTION

- 6.1 The PLAN OF ACTION should be flexible to permit modification. Significant progress, or adverse behavior by the employee, may require that the PLAN OF ACTION be modified.
- 6.2 The PLAN OF ACTION shall include:
- A synopsis of the identified behaviors of the employee that are adversely affecting his work performance.
 - Specific actions required of the employee, the employee's immediate supervisor, and/or his bureau/district commander.

103.11 EARLY INTERVENTION SYSTEM

- Notice to the employee that his participation in the PLAN OF ACTION is mandatory, and will not mitigate any disciplinary action resulting from the employee's on-duty or off-duty actions (e.g., future complaints, internal investigations).
- 6.3 Recommendations stemming from the PLAN OF ACTION may include, but are not limited to the following:
- Supervisory counseling
 - Retraining of the employee in the specific area of concern
 - Referral for remedial training
 - Re-assignment (within contractual rights)
 - Mandatory use of a body camera
 - Fitness for duty
 - Referral to the Employee Assistance Program (EAP)
- 6.4 Prior to its implementation, the PLAN OF ACTION shall be forwarded to the chief of police, for approval.
- 6.5 Copies of the approved PLAN OF ACTION shall be sent to the appropriate division/bureau/district commander and to the involved employee.
- An additional copy of the PLAN OF ACTION shall be placed in the employee's personnel file.
 - The division/bureau/district commander or his designee shall review and discuss the PLAN OF ACTION with the employee and his immediate supervisor.
- 6.6 The chief of police may direct employees to attend EAP counseling, or other sources of counseling, at his/her discretion.

7 PLAN OF ACTION SPECIAL PROVISIONS

- 7.1 All PLAN OF ACTION reports shall be in effect for a period of six months from the date of approval by the chief of police.
- 7.2 The supervisor responsible for implementing the employee's PLAN OF ACTION (shift supervisor or range supervisor) shall closely monitor the employee's progress. If a referral was made based on a supervisor assessment, the referring supervisor shall not be the supervisor monitoring the employee during this period. Note that this does not apply to the Range supervisor.
- 7.2.1 The supervisor shall complete an EARLY INTERVENTION SYSTEM STATUS REPORT (TPD FORM 12.60) which shall be signed and reviewed by the affected employee. The status report shall then be submitted monthly by the immediate supervisor to the bureau/district commander, with a copy forwarded to the involved employee's division commander.
- 7.2.2 At the end of the six month period, the immediate supervisor will complete a final progress report along with a recommendation, and forward it through the bureau/district commander to the division commander, who shall forward it to the chief of police for review.
- (a) The recommendation may include:
- A declaration of successful completion of the PLAN OF ACTION
 - A request for an extension of the PLAN OF ACTION

- A referral for additional assistance to the involved employee
 - Any other action deemed necessary
- (b) If the recommendation is a declaration of successful completion of the PLAN OF ACTION and is concurred with by both the division/bureau/district commander and the chief of police, no further action is necessary.
- (c) If the recommendation is not a declaration of successful completion of the PLAN OF ACTION, an assessment meeting will be held with the EIS Review Committee.
- (d) Once the Plan of Action is complete, regardless of the outcome, employees shall be offered an exit interview with committee members.

8 RECORD RETENTION

The EMPLOYEE ANALYSIS REPORT and the original PLAN OF ACTION shall be filed in the Office of the Chief of Police for a period of one year, after the completion of the PLAN OF ACTION.

9 ANNUAL SYSTEM EVALUATION

The accreditation manager shall conduct an annual evaluation of EIS, including findings and recommendations. The report shall be submitted to the chief of police.

DIRECTIVE 103.12	TOLEDO POLICE DEPARTMENT		
EFFECTIVE March 1, 2022	STANDARD OPERATING GUIDELINES		
REVISED October 2, 2023	CHIEF OF POLICE:	<i>Michael C. Froude</i>	
RESCINDS March 1, 2022	PART:	ADMINISTRATION	PAGES 11
	CHAPTER:	ADMINISTRATIVE SUPPORT	
	AGENCY WELLNESS		

I POLICY

The Toledo Police Department is committed to providing the opportunity for all sworn and civilian personnel of the Toledo Police Department to receive emotional and tangible support at a time when personal or professional difficulties may interfere with work, family, or daily life. Stress associated with the law enforcement profession may impact the health, well-being and job performance of all involved individuals. In order to help department personnel deal with such stressors, the department will maintain a Wellness Unit dedicated solely to the well-being of its personnel. The Wellness Unit will provide department personnel with professional, objective and non-judgmental resources. Through the Wellness Unit, both a Critical Incident Stress Management (CISM) Team and a Peer Support Team will be coordinated and administered. Through privileged confidentiality, these teams will be available to assist employees and their families with individual and family support for both critical incidents and daily stressors.

II DEFINITION

CISM TEAM- A group of officers trained to provide CISM services and emotional support services to fellow officers during and after a critical incident. CISM Team members are certified by the International Critical Incident Stress Foundation and are a part of the Ohio CISM network.

CRITICAL INCIDENT- Any event experienced on or off duty that is outside the realm of normal experience and could be expected to produce significant stress reactions. These stressful events may generate intense reactions and briefly interfere with a person's coping mechanisms.

CRITICAL INCIDENT STRESS DEBRIEFING - A formal Critical Incident Stress Debriefing (CISD) is a group discussion of a traumatic experience. These confidential meetings typically occur within a reasonable time of the incident. Although a CISD is usually held within three days, the specific timing depends on a number of factors. CISM Team members must judge the timing of the CISD meeting on a case by case basis. The CISD follows a standardized group process model approved by the International Critical Incident Stress Foundation (ICISF).

CRITICAL INCIDENT STRESS DEFUSING- A brief small group process conducted by CISM Team members within hours of a traumatic experience.

CRITICAL INCIDENT STRESS MANAGEMENT (CISM) - A comprehensive, systematic, and multi-component approach to managing traumatic stress within an organization.

EMPLOYEE ASSISTANCE PROGRAM (EAP) - A short-term problem resolution, assessment and referral program service provided to employees and family members by the City of Toledo. Services are

available for personal problems such as: depression, marital-family and relationship issues, alcohol or substance abuse, stress, finances, childcare or eldercare consultations, critical incident defusing and/or debriefing.

FAMILY SUPPORT SERVICES- A set of interventions which may be utilized by CISM Team officers to provide a range of crisis support services to families of officers.

FOLLOW-UP SERVICES- Contact with officers following initial services provided by a CISM Team member.

5 GRANT MANAGEMENT

Budget constraints restrict the capacity to fund all beneficial services and programs. External funding, or a grant from an outside source, is an excellent means to supplement the police department's budget. External funding and grant sources include federal, state and local governments, as well as corporate, foundation and service group entities. All department personnel are encouraged to locate appropriate grant funding to advance the department toward its goals.

5.1 GRANT REQUESTS

Requests for a grant shall be submitted on a GRANT REQUEST APPROVAL FORM (TPD FORM 6.14) through the proper chain of command to the Office of the Chief of Police. The narrative section of the form shall contain a brief summary of the grant with the following information included: the department section(s) involved in the grant, the funding source, the goals and objectives of the grant, the resources required, identity of subcontractors identified, if matching funds or resources are needed from the city and a brief overview of what items or services will be purchased with the grant funds. After the chief of police makes his final decision, the form shall be forwarded to the grant coordinator who will then notify the project director of the final disposition of the request.

- 5.1.1 If the chief of police gives the approval to move forward on a project, the grant coordinator and the grant project director will work together to submit the grant application for consideration by the funding organization. If the department is awarded the grant, the project director shall complete a NEW GRANT PROJECT INFORMATION SHEET (TPD FORM 6.13) and sign on the line labeled "Original Project Manager Signature." The project manager will have the day-to-day responsibility of managing the grant until relieved of that responsibility by his deputy chief. If the deputy chief assigns a new project manager to the grant, the new manager shall sign his name on the form in the space provided.
- 5.1.2 The project director and the secretary of police shall both keep a binder in their respective sections to include necessary documentation required by the funder. Once the grant has closed, both binders will be stored in the Fiscal Affairs Section for auditing and research purposes. Copies of the NEW GRANT PROJECT INFORMATION SHEET (TPD FORM 6.13) and the GRANT REQUEST APPROVAL FORM (TPD FORM 6.14) shall be kept in both binders.
- 5.1.3 If grant funding is awarded, the grant application and all information relating to the grant shall be kept on file for a minimum of five years after the expiration of the grant. A completed copy of the grant application shall be forwarded to the commander of the Fiscal Affairs Section.
- 5.1.4 If the nature of the grant is for the reimbursement of general overtime (e.g., traffic control, crowd control, general patrol duties, etc.) all sworn employees shall have an opportunity to work the grant. The grant's project director shall not include any language that restricts overtime compensation to specific divisions, bureaus, sections or units.

EXCEPTION: If the grant overtime is job-specific (e.g., Vice/Narcotics Section, SWAT), or requires specifically-trained officers, the chief of police or his designee reserves the right to allow only those officers assigned to a specific division, bureau, section or unit, or the specifically-trained officers, to work the overtime.

5.2 GRANT COMPLIANCE

It is imperative that the grant project director maintain strict compliance with the grant's requirements. A lack of compliance with the grant's requirements may result in unnecessary audits, restriction from future grant awards, create a potential need for the department to reimburse funds received from the grant, or forfeit remaining grant funding.

- 5.2.1 The grant project director shall be responsible for the timely submission of all programmatic reports required by the grant. Fiscal Affairs Section personnel shall coordinate the completion of these fiscal reports.
- 5.2.2 The grant project director shall be responsible for all data retention for grant requirements
- 5.2.3 All reports and data associated with grant requirements shall be stored with the grant file for a minimum of five years beyond the expiration of the grant.
- 5.2.4 The grant project director will be required to prepare PURCHASE REQUESTS (TPD FORM 6.7), and other reports, as directed by the grant coordinator or Fiscal Affairs Section personnel.

104.2 FISCAL/GRANT MANAGEMENT

- 5.2.5 Grant project directors shall ensure that notice of grant overtime opportunities are disseminated to qualified officers (e.g. through the issuance of a NOTICE AND BULLETIN).
- 5.2.6 Moved to 5.1.1
- 5.2.7 Project directors are responsible to notify, in writing, the appropriate personnel of any requests for grant extensions, budget adjustments, changes in project directors, cost overages and shortages, purchasing problems or delays and any issues with grant sub-contractors.
- 5.2.8 For all equipment that is purchased with grant funds, a GRANT EQUIPMENT INVENTORY FORM (TPD FORM 6.15) shall be completed immediately upon receipt of the purchased items by either the grant coordinator or the project director. Copies of the GRANT EQUIPMENT INVENTORY FORM (TPD FORM 6.15) shall be kept in the grant binders maintained by the project director and the Fiscal Affairs Section. The appropriate responsible inventorying unit (Technical Services or Property Management) shall also maintain a copy of the Grant Inventory Sheet in their files. A label, which includes the city assigned grant number, grant name, and year, shall be affixed to the property. Due to their size, smaller items will be marked with the abbreviated grant name and year (i.e. FED JAG 17). Items purchased with grant funding shall be so noted, when practical, in the general inventory maintained by the appropriate unit. All items that are no longer in use shall be disposed of properly and according to the conditions specified in the grant award.

5.3 **FEDERAL AND STATE GRANT FISCAL REPORTING**

When notified that funding has been awarded, the grant coordinator shall request the Fiscal Affairs Section to prepare the documentation necessary to accept the grant.

- 5.3.1 When the department is notified of a grant award, the grant project director shall coordinate all grant-related activities with the grant coordinator to ensure that the proper expenditure accounts are created through the City of Toledo Division of Accounts.
- 5.3.2 Fiscal Affairs Section personnel and the grant coordinator shall design and maintain a grant expenditure accounting system for each grant project to comply with established auditing and accounting procedures, ensuring that future grant reimbursement requests are for approved costs as outlined in the grant award. An adequate audit trail shall be maintained for at least five years after the completion of each grant for all grant expenditures.

DIRECTIVE 105.1	TOLEDO POLICE DEPARTMENT		
EFFECTIVE November 01, 2002	STANDARD OPERATING GUIDELINES		
REVISED December 1, 2012	CHIEF OF POLICE: <i>Michael C. Froschle</i>	PART: ADMINISTRATION	PAGES 6
RESCINDS November 01, 2002	SUPERVISION		

I POLICY

Officers must frequently make critical decisions without the benefit of on-scene direction. In most police operations however, supervision is available and necessary to provide guidance and training. Supervision gives coherence to the police task and directs the energies of the department into an organized effort. Proper supervision is essential to maintain a professional level of competence in law enforcement operations. An established chain of command promotes consistency, reduces confusion and enhances public safety operations. The Toledo Police Department delegates authority to supervisors through an established chain of command to allow employees to perform their assigned duties and responsibilities in an effective and coordinated manner.

II DEFINITIONS

COMMANDER – Used to describe an officer in charge of a division, bureau, section, or unit and is generally the same as Commanding Officer.

III PROCEDURES

1 RANK AND RESPONSIBILITY

1.1 COMMENSURATE AUTHORITY

The department is an organization with an assignment of responsibility and accountability throughout the rank structure. Supervisors must be granted

105.1 SUPERVISION

commensurate authority in order to properly discharge their supervisory responsibility.

1.2 CHAIN OF COMMAND

The Chief of Police must necessarily limit the number of persons who report to him. Therefore, to ensure unity of command, clearly defined lines of authority must be drawn so there exists a structural relationship between each employee and the Chief of Police. Each employee must be aware of his relative position in the organization, to whom he is immediately responsible and those persons who are accountable to him. Employees should strive, at all times, to operate within the chain of command and keep their supervisors informed of their activities. The Chief of Police should be available by appointment to any member of the department.

1.2.1 Each member of the department shall be directly accountable to only one supervisor at any given time.

1.2.2 Each organizational component shall be accountable to and under direct command of only one supervisor.

1.2.3 In the planned absence of the Chief of Police, he shall appoint, in writing, an acting chief until his return.

1.2.4 In the event of an injury, illness or other emergency situation wherein the Chief of Police cannot appoint an acting chief, the mayor or his designee shall appoint an acting Chief of Police.

1.3 RECOGNITION OF COMMAND

In performance of routine duties, or at the scene of a police incident, officers shall recognize and respect the position of officer-in-charge, or officers of superior rank.

1.3.1 Employees shall promptly obey orders of superior officers and other members acting in a supervisory capacity whether received directly or passed along through other officers.

1.3.2 Employees shall not obey unlawful orders. Unlawful orders are defined as any order that violates a city ordinance, state statute or federal law. If in doubt as to the legality of an order, employees shall request the issuing party to clarify the order or to confer with a higher authority.

1.3.3 Employees receiving an order that is in conflict with a previous order shall notify the supervisor issuing the conflicting order.

(a) Responsibility for circumventing the first order then shifts to the supervisor issuing the second and conflicting order.

1.4 COMMAND RESPONSIBILITY

A commanding officer has responsibility and accountability for every aspect of his command. Commensurately, within policy guidelines and legal constraints, he has the authority to coordinate and direct assigned personnel and other allocated resources in achieving his organizational objectives. In doing so, he must perform the full range of administrative functions relying upon policy, direction, training, and personal initiative to guide him and his command in achieving the highest level of performance possible.

1.5 SUPERVISOR ACCOUNTABILITY

Each supervisor within the department is accountable for the performance of employees under his immediate control. The accountability ensures performance is satisfactory for the overall operation of the department. If performance is not acceptable, the supervisor is responsible to ensure steps are taken to remedy the

problem.

1.6 SUPERVISION IN OPERATIONS

A field sergeant is the first level of full-time supervision and it is his primary responsibility to guide, train, direct and motivate those over whom he has control. However, more experienced officers at all ranks have a responsibility to aid and assist less experienced officers in the performance of their duties.

1.7 COMMAND RESPONSIBILITY AT POLICE SITUATIONS

Command of department resources at a police situation rests with the Incident Commander. He has the authority to direct the operation and is responsible for its outcome. A senior ranking officer may make suggestions; however, he may not actively direct the operation unless he properly relieves the subordinate of command.

1.8 GENERAL SUPERVISORY DUTIES

A supervisor shall be responsible for the performance of general supervisory duties, in addition to having the technical skills and knowledge necessary for the performance of the duties unique to his specific assignment.

1.9 SUPERVISORY KNOWLEDGE OF DEPARTMENT ORDERS

A supervisor shall familiarize himself with the contents of department manual, procedural orders, directives, instructions, teletypes, bulletins, and notices, and shall disseminate such information to his subordinates. Information shall be disseminated in such a manner as to achieve department objectives

1.10 DELEGATION OF DUTIES

A supervisor may delegate to his subordinates, appropriate portions of his responsibilities, together with equivalent authority; but he may not delegate or relinquish his overall responsibility for results nor any portion of his accountability.

1.11 SENIOR OFFICER; DETERMINATION

2 PRINCIPLES OF COMMAND

2.1 DIRECTION OF SUBORDINATES

A supervisor shall exercise control over his subordinates necessary to the accomplishment of department objectives. He shall analyze and evaluate the personality, temperament, traits and capabilities of each subordinate in order to realize from every employee the maximum degree of service commensurate with his abilities and limitations.

2.2 TRAINING OF SUBORDINATES

Training shall be considered the process of aiding employees to gain effectiveness in their present or future assignments through the development of appropriate habits of thought, action, skill, knowledge, and attitude. Emphasis shall be placed on respect for the personality and human dignity of each employee, in order to allow maximum development of his capability.

2.3 GUIDANCE OF SUBORDINATES

A supervisor shall take a personal interest in the welfare and problems of subordinates and shall make himself available to employees seeking guidance and counseling. He shall give appropriate advice and personal instructions to immediate subordinates for the development of administrative and supervisory skills.

2.4 TECHNIQUES OF SUPERVISION

A supervisor must frequently command the actions of subordinates by orders and directions in order to carry out proper police operations. This must be done effectively and is essential to control most critical police situations. A supervisor shall make use of positive disciplinary techniques such as the following, to promote satisfactory supervisor-subordinate relationships:

2.4.1 **INSPIRATION** – The ideals and objectives of public service in the police field shall be developed and exemplified by the conduct and actions of supervisory members of the department.

2.4.2 **EXPLANATION** – Department policies and objectives shall be presented to the employees by means of reasoned consideration of the issues. 2.7 TRANSFER OF COMMAND

Upon assuming a new assignment and continually thereafter, a command officer should critically evaluate all aspects of his command. Upon change of command, the commanding officer being replaced has a duty to lend his full assistance in making the command transition as smoothly and orderly as possible. Orientation of a new commanding officer should include information concerning unique problems of the command and assistance in continuing community and professional contacts relative to the command.

2.8 TRANSFER OF SUPERVISORY RESPONSIBILITY

Details or assignments which do not report at one of the regular times for change of shift shall be under the supervision of the watch commander on duty at the time the detail or assignment reports for duty. The responsibility for supervision of such detail or assignment is transferred at the change of shift to the watch commander coming on duty.

2.9 COMMAND CONCERN FOR EMPLOYEE WELFARE

The nature of command is such that there must be coexisting loyalty to the management of the department and to subordinates. The resolution of those loyalties, in a manner which benefits both the department and the individual, and which avoids conflicts between the two interests, requires the exercise of leadership. An interest in employees and their welfare is a responsibility of command, which may extend beyond morale problems and their effect upon an individual's performance. It includes a concern for the personal problems, desires, and interests of employees and positive assistance in resolving those problems or in achieving their goals. However, commanding officers should be cautious to avoid interfering where assistance is not required or desired.

2.10 COMMUNITY LIAISON BY COMMANDING OFFICERS

RESCINDS November 01, 2002	CHAPTER: CAREER DEVELOPMENT	OFFICER EXCHANGE PROGRAM	

I POLICY

In an effort to enhance professional growth and development as well as to improve job satisfaction, the department enables officers to experience a variety of job assignments by permitting them to temporarily work in various areas of the department. These temporary assignments shall not be considered a reassignment, nor do they qualify an officer for Career Enhancement.

II PROCEDURES

1 ELIGIBILITY

All patrol officers who have completed their probationary period are eligible to request participation in the Officer Exchange Program.

2 COMPLETION OF THE EXCHANGE FORM

3.2 The requesting officer's captain/deputy chief shall have the final determination as to approval of the request and shall complete the "Approval & Level of Participation" section of the form. However, if the request affects more than one section, the affected captains/deputy chiefs must both approve the exchange and shall coordinate the exchange prior to final approval.

If there are limitations on the level of participation, the receiving captain/deputy chief shall indicate the limitations on the OFFICER EXCHANGE FORM.

4 **SCHEDULE CHANGE WAIVER**

If participation in the Officer Exchange Program will require a change of shifts, days off, or starting times, the exchange officer must be willing to complete a SCHEDULE CHANGE WAIVER, (TPD FORM 1.9). The form must be completed and processed prior to the start of the exchange.

1.8 REFRESHER TRAINING

In the event that an officer has been on an extended leave of absence from the department, (e.g. extended military deployment, long term disability), or begins a new assignment that requires the officer to be trained/retrained on certain job skills, the Training Section commander, along with the employee's commanding officer, shall determine the type and duration of the refresher training needed by the officer to satisfactorily assume/resume their normal duties.

1.9 LEARNING MANAGEMENT SYSTEM

The department utilizes a learning management system (LMS) for the administration, documentation, tracking, reporting, and delivery of educational courses, training bulletins, department manual directives, and other information that may require a signature of receipt. Department personnel wishing to enhance their skills and/or develop their career are encouraged to request training courses offered through the LMS. DIRECTIVE 301.1	TOLEDO POLICE DEPARTMENT		
EFFECTIVE November 01, 2002	STANDARD OPERATING GUIDELINES		
REVISED February 13, 2018	CHIEF OF POLICE: <i>Michael C. Froendle</i>	PART: SUPPORT SERVICES	PAGES 12
RESCINDS September 1, 2016	CHAPTER: COMMUNICATIONS	COMMUNICATIONS	

I POLICY

The community expects the department to respond to requests for police service in an efficient, effective and professional manner. To ensure the efficient management of citizens' calls for service, the department utilizes a system of classifying various types of calls and matching police response to the particular needs generated by those calls.

It shall normally be the responsibility of the Operations Division Commander to determine the type of police response necessary to handle a particular complaint. Such determination shall be made within the framework of that bureau's guidelines.

II DEFINITIONS

TALKGROUP – A uniquely-named group of radios that shares calls and messages. A talkgroup is comprised of a group of users having a need to communicate with each other.

CHANNEL – A single unidirectional or bidirectional path for transmitting and/or receiving of electrical or electromagnetic signals.

RADIO FREQUENCY – General term for the range of frequencies that are used in radio communication systems.

ZONE – A geographical area within a radio system.

CONVENTIONAL RADIO SYSTEM – This system has dedicated frequencies to specific talkgroups and only one user can utilize a talkgroup at a time. Lucas County public safety agencies will revert to the conventional radio system if the primary trunked radio system and **FAILSOFT** systems fail.

TRUNKED RADIO SYSTEM – This system allows multiple users to share the same set of frequencies because each user is rerouted to the first available frequency. When a user presses the Push To Talk (PTT) button to transmit, the radio sends the talkgroup information to the central computer which then assigns that talkgroup to a specific frequency. This allows all radios in that talkgroup to receive that transmission. This entire process is completed in less than a second.

The primary radio system used by public safety agencies within Lucas County is an 800 MHz trunked radio system.

301.1 COMMUNICATIONS

degree of emergency in all complaints and relay this information to all concerned units.

4.2 GENERAL BROADCASTS

General broadcasts shall be utilized to broadcast general information such as missing persons, descriptions of suspects, stolen autos, etc.

4.3 CALLS FOR SERVICE

Calls shall be dispatched in the following manner:

4.3.1 The dispatcher shall dispatch units to incidents by giving the unit designation, the type of incident, the location, and a response code, if necessary. The assigned unit shall respond with their unit number, an "OK" and the location they are responding from.

4.3.1 Whenever multiple units are dispatched to an incident, those units shall respond with their unit number, an "OK," and their location, in the same order in which their number was broadcast.

4.3.2 All broadcasts by the dispatcher and units shall be made only once unless there are reasons to repeat (e.g., improper reception).

4.4 HIGH PRIORITY CALLS

High priority calls shall be dispatched in the following manner:

4.4.1 When the dispatcher receives information regarding lifesaving, life-threatening or serious crime-in-progress calls, he shall activate the appropriate talkgroups, sound an alert tone and broadcast the type of call and location.

The designated units shall acknowledge by responding with their unit number, "OK" and their location. If any units are closer to the incident than those assigned, those units shall notify the dispatcher of their location and request they be allowed to respond. However, all units shall keep the air clear until the dispatcher has completed the entire broadcasting procedure and the designated units have acknowledged.

4.5 REASSIGNMENT OF HIGH PRIORITY CALLS

When dispatching lifesaving, life-threatening or serious crime-in-progress calls and no units are available, the dispatcher shall reassign a unit from a less urgent call. The steps to be followed in these instances are:

4.5.1 The dispatcher shall broadcast the call on the appropriate talkgroups to ascertain if any unit in the area can make itself available.

4.5.2 If no unit responds to the general broadcast, the dispatcher shall reassign a unit from a less urgent call.

- 4.5.3 If no unit is available from a less urgent call or such units cannot be contacted, the dispatcher shall dispatch a command officer to the lifesaving, life-threatening or serious crime-in-progress call.
- 4.5.4 If a unit is pulled from a less urgent call, the dispatcher shall ensure that the call is reassigned when a unit becomes available.

4.6 ONE (1) MAN UNITS

- 4.6.1 A one man unit may be dispatched on any call for service where all available information indicates there is no obvious or apparent danger to the safety of the officer. On calls for service where information available indicates a possible danger to the safety of the one man unit, a backup unit shall also be dispatched to assist the primary unit. A backup unit shall also be sent on any call upon the request of the primary unit or a command officer.
- 4.6.2 In the event that no backup unit is available, the dispatcher shall utilize the steps listed in the Communications Manual: Dispatching Operations – Reassignment for High Priority Calls, to locate and dispatch a backup unit. However, at no time shall the dispatcher fail to immediately dispatch a one man unit to a lifesaving, life-threatening or serious crime-in-progress situation if unable to locate additional units.
- 4.6.3 In the event that a one man unit arrives at the scene of a dangerous call before assistance is available, the officer is advised to use discretion, depending on the circumstances involved, in handling the call. If the life or safety of a citizen or other police officer is in jeopardy, the officer shall take appropriate action to safeguard the endangered person. If no direct danger exists to a citizen or other officer, the primary unit shall attempt to maintain status quo until assistance is available.

However, on all false alarms and/or calls where the hazard to an officer's safety no longer exists, it is imperative for the first unit on the scene to notify the dispatcher to open the radio to normal air traffic.

5.3 VEHICLE STOPS WHEN TALKGROUP IS CLOSED

Whenever persons or vehicles are stopped while the talkgroup is closed, the officer shall switch to one of the other talkgroups to relay information to the dispatcher. In the event that all talkgroups are closed and an officer not involved in the emergency feels that it is absolutely necessary to use the air, he may do so, but shall keep his transmission brief.

incident or emergency that requires rapid dissemination of information to the general public, shall:

- Obtain sufficient facts to accurately describe the nature of the emergency or incident.
- Notify the Chief of Police, or his designee, of the circumstances and request permission to activate the EAS.

11 RADIO FAILURE PROCEDURE

11.1 800 MHz SHUTDOWN - FAILSOFT BACKUP

When the 800 MHz primary radio system is no longer operational due to a major system failure, communications will be maintained with a computer backup system called **FAILSOFT**. This backup system automatically switches all police radios on a Zone 1 (Local) talkgroup over to one (1) of two (2) pre-designated talkgroups, *CENTRAL* or *SOUTH*. Radios on *CENTRAL* or *SOUTH* talkgroups when **FAILSOFT** activates will automatically switch to the appropriate talkgroup (*CENTRAL* to *CENTRAL* and *SOUTH* to *SOUTH*). Radios on all other *ZONE 1 (LOCAL)* talkgroups will automatically switch to *CENTRAL* talkgroup. Radios on talkgroups other than *ZONE 1 (LOCAL)* when **FAILSOFT** activates must be manually changed to the correct zone and talkgroup.

11.1.1 Mobile and portable users will be alerted to this changeover by a flashing **FAILSOFT** display on their radios. Additionally, an audible tone will sound every 10 seconds.

11.1.2 Since only two (2) talkgroups are in use instead of the usual 13 talkgroups, radio users assigned to all other talkgroups (e.g., *RECORDS* and *RECORDS - TRAFFIC*), shall cease all radio transmissions except for life-threatening emergencies. These users shall use other communication modes, such as cellular telephones.

11.2 FAILSOFT FAILURE – CONVENTIONAL RADIO SYSTEM

Should both the 800 MHz primary and **FAILSOFT** radio systems malfunction, radio communications can be reestablished only by **MANUALLY** activating the conventional radio system.

11.2.1 Generally, when this is necessary, an audible "OUT OF RANGE" tone warning will sound intermittently from all mobile and portable radios. In addition, radios will also visually indicate a malfunction by flashing an "OUT OF RANGE" display. Each mobile or portable radio must be manually switched over to the conventional talkgroup designated for their talkgroup. Both communications personnel and the officer in the field must change over to the appropriate talkgroup before communications can be reestablished.

11.2.2 The conventional radio system consists of two talkgroups, *CENTRAL* and *SOUTH*. Since only two talkgroups are available instead of the usual 13 talkgroups, the SWAT Section, Vice Narcotics Section, and Gang Task Force Section shall monitor the *SOUTH* talkgroup. Investigations and Traffic Section shall monitor the *CENTRAL* talkgroup. Radio users assigned to all other talkgroups (e.g., *RECORDS* and *RECORDS – TRAFFIC*), shall cease all radio transmissions except for life-threatening emergencies. These users shall use other communication modes such as cellular telephones.

11.2.3 The conventional talkgroups are located in *Zone 33 (Conventional)*.

Talkgroup	12	TPD CENTRAL
Talkgroup	13	TPD SOUTH

11.2.4 To change to the conventional radio channels:

- (a) On the face of the radio, press the soft key with one dot (•)
- (b) Use right or left arrow keys to move to the proper zone (Zone 33)
- (c) Press the home key to lock the new zone
- (d) Move the talkgroup selector knob to the proper talkgroup channel

Department personnel should familiarize themselves with the operation of their mobile, portable, and consolette radios so that they know how to manually switch over to the corresponding conventional talkgroup. (See the TOLEDO POLICE MASTER RADIO TEMPLATE on pages 12 – 16).

11.3 TOTAL RADIO FAILURE

11.3.1 General

In the event the 800 MHz primary and **FAILSOFT** systems malfunction and radio communications cannot be reestablished MANUALLY by activating the conventional radio system, all Operations Division units shall report to the appropriate location:

- Sector 1 Northwest Substation
- Sector 2 Central District Station
- Sector 3 Central District Station
- Sector 4 Central District Station
- Sector 5 Scott Park District Station
- Sector 6 Scott Park District Station
- Sector 7 Scott Park District Station
- Sector 8 Scott Park District Station

11.3.2 Command Responsibilities

- (a) Watch commanders shall ensure that all one man units are paired into two man units.

301.1 COMMUNICATIONS

- (b) The CENTRAL Watch Commander shall issue a mass text, using the InTime ISE texting feature, to send a message to all personnel that the radios are in total failure and all **on-duty** personnel shall report to their respective district station.

11.4 DISPATCHING PROCEDURES DURING TOTAL RADIO FAILURE

Communications personnel shall make all necessary notifications, including contacting the District Station watch commanders.

11.4.1 Each watch commander shall insure that an officer is assigned to each of the designated reporting locations to act as a “dispatcher” until relieved by Communications personnel. Only Priority One and Priority Two calls will be dispatched, during total radio failure.

- (a) The assigned officer shall be responsible for receiving calls, via the telephone, and assigning them to responding police units.
- (b) The assigned officers shall remain at their posts until relieved by Communications personnel.
- (c) Upon arrival at the designated locations, Communications personnel shall assume responsibility for dispatching units.

11.4.2 After completing an assigned call, units shall return to their designated reporting location, give the dispatcher a disposition code and stand by for their next assignment.

11.4.3 A minimum of two officers shall be dispatched on all calls for service.

11.4.4 The Computer Aided Dispatching (CAD) system may be operable during radio failures. Units shall remain attentive to their Mobile Data Computers (MDCs) during radio system failures.

11.4.5 Officers assigned to divisions other than Operations shall follow the procedure established by their division commander.

12 EMERGENCY COMMUNICATIONS

Interoperable communications between various jurisdictions and disciplines (police, fire and EMS) is an integral component of responding to emergencies and managing incidents involving more than one agency. The countywide 800 MHz primary radio system is designed to permit maximum interoperability, allowing communication between various jurisdictions and disciplines on many talkgroups. The system can be used for emergency or tactical situations involving more than one agency. When a unified command or an Emergency Operations Center (EOC) is required, and/or there is a need for interagency communication, the Incident Commander or Communications personnel will direct the involved officers to the appropriate zone and talkgroup. Officers shall not transmit on any talkgroups in ZONE 4 (*Maumee*) through ZONE 9 (*Sylvania Township*), ZONE 11 (*Toledo-Express Airport*) through ZONE 32 (*Interop National*), ZONE 34 (*Conventional*) and ZONE 35 (*County Med Channels*), without permission from Communications personnel, or from a supervisor or dispatcher with the agency using/controlling the talkgroups.

DIRECTIVE 302.2	TOLEDO POLICE DEPARTMENT		
EFFECTIVE November 01, 2002	STANDARD OPERATING GUIDELINES		
REVISED December 1, 2012	CHIEF OF POLICE: <i>Michael C. Fournelle</i>	PART: SUPPORT SERVICES	PAGES 9
RESCINDS February 26, 2010	NEWS MEDIA RELATIONS		

I POLICY

It shall be the policy of the department to actively seek to establish a cooperative climate in which the news media may gather and disseminate information or visual images on matters of public interest in a manner that does not hamper police operations. Department personnel shall by not interfere or allow others to interfere with media personnel acting in their news gathering capacity. It must be understood, however, that certain information must be withheld from the media in order to protect the constitutional rights of the accused, to avoid interfering with a department investigation, or because it is legally privileged. If the information cannot be released, the reason for denial should be explained.

Since photography and/or videotaping is rarely unlawful absent any other indicators of criminality (e.g., trespass), an investigation of a report of suspicious photography or videotaping thought to be terrorism-related is governed by the constitutional and statutory rules generally applicable to the investigation of any other type of suspicious activity or behavior. Forcible detention of an individual engaged in such activity may occur if a member of the department can articulate reasonable suspicion that the subject is engaged in photography or videotaping for terrorism-related purposes.

When there is probable cause to believe that a recording device (e.g., camera, video and audio recording devices) or media (e.g., film, electronic storage media) contains evidence of criminal activity, the items may be seized. A search warrant must be obtained in order to view the recordings. Department personnel shall not delete, destroy or alter any equipment, images, files or recordings; or request or permit any other person (including the person taking such recordings) to delete, destroy or alter such recordings.

II DEFINITIONS

NEWS MEDIA MEMBER – staff and freelance representatives of print publications (e.g., newspaper, magazines), electronic broadcast (e.g., radio and television), news and photo agencies.

NEWS MEDIA REPRESENTATIVE – has the same meaning as news media member.

NEWSWORTHY EVENT – crime scenes, incident scenes, motor vehicle crash scenes and any other events or activities that may be of interest to the public

III PROCEDURES

1 GENERAL

1.1 RELEASE OF INFORMATION

As a general rule, public information may be released by the Chief of Police, commanders, supervisors and the Public Information Officer (PIO) in accordance with

302.2 NEWS MEDIA RELATIONS

this order. Other employees may release certain information in accordance with this manual section.

1.2 **RELEASE OF DEPARTMENT POLICY AND PERSONNEL ISSUES**

Department policy and personnel issues shall be released only by the Chief of Police or his designee, and then only in accordance with applicable laws and contractual agreements.

1.3 **RESPONSIBILITY TO ADVISE PIO**

It is the responsibility of all members of the department to keep the PIO regularly advised of new programs, outstanding achievements, current events, investigative developments, or any other newsworthy information that will assist the PIO in performing his duties.

1.4 **REQUESTS FOR MEDIA INTERVIEWS**

In the interest of accuracy and continuity, any request for a news interview, made to any member of the department below the rank of sergeant shall be directed to that employee's immediate supervisor or the PIO.

1.5 **RELEASE OF POLICE OFFICER PHOTOGRAPHS**

Photographs of police officers maintained by police departments have been ruled exempt from disclosure under the Ohio Public Records Act. The Toledo Police Department will not release photographs of a Toledo Police Officer without written consent from the officer.

1.5.1 Each officer shall complete a RELEASE OF PHOTOGRAPH DISCLOSURE OF INTENT (TPD FORM 1.3), indicating if he wishes to be contacted in the event his photograph is requested.

1.5.2 If the officer elects not to be contacted, all requests will be automatically denied. If the officer indicates he wishes to be contacted, the PIO shall contact him. The officer shall indicate his decision on a PHOTOGRAPH RELEASE WAIVER (TPD FORM 1.4).

1.6 **REQUESTS FOR POLICE RECORDS**

Records that are not protected under the Public Records Act may continue to be released by the appropriate designated department personnel holding such records. The Public Records Office is responsible for unusual requests for copies of police records such as tape recordings, Internal Affairs files, personnel records, etc.

2 **THE DEPARTMENT**

2.1 The department shall actively seek to maintain a procedure where the news media may obtain information on matters of public interest in a manner that does not hamper operations and is within legal guidelines.

2.1.1 The scope and content of each release of information is determined by the facts of the situation. Such determination is made by the PIO, a ranking command officer, or a ranking case investigator.

2.1.2 Generally, a description of the circumstances that is not legally privileged and which will not prejudice the rights of suspects or interfere with an investigation will be provided.

2.2 INVESTIGATIONS INVOLVING OTHER AGENCIES

When the Toledo Police Department is involved in joint activities with multiple agencies (e.g., police, fire, and other city services) the agency with primary jurisdiction shall be responsible for the coordination and release of information to the media.

2.3 NEWS MEDIA CREDENTIALS

To ensure the department is communicating with an authorized news media representative at the scene of a police incident, and to ensure the representative is not unnecessarily obstructed in the pursuit of his function, the department will honor all valid news media credentials.

2.3.1 The Director of Public Safety is authorized by city ordinance to issue news media credentials. Credentials are issued to newsmen from newspapers, news services, news magazines, and radio and television stations which maintain regular news services in Toledo and which are legitimate current news disseminators. Any such credentials must be made available to both local and visiting media members, which may include on-site availability immediately preceding or during a newsworthy event.

2.3.2 The possession of a news media credential issued by another government, law enforcement agency, or those issued by a media organization **should** be persuasive evidence that its possessor is a legitimate media representative.

2.3.3 Authorization for entry is normally dependent upon the possession of a permanent city-issued news media credential; however, at the scene of a major incident, the department may issue temporary media credentials for entry into a particular area and/or for coverage of a special event or in order to provide the opportunity for meaningful news coverage. In such situations a credential issued by another law enforcement agency, media organization, and/or professional photography organization (e.g. NPPA, or ASMP) **may** be recognized as valid news credentials and be persuasive evidence that its possessor is a legitimate news media representative entitled to be issued a temporary media credential for this department.

2.3.4 The denial of media credentials may be appealed to the Deputy Mayor of Public Safety.

2.3.5 If the Incident Commander at an incident/event/activity determines that media access must be restricted in certain circumstances (i.e., in order for the department to carry out its law enforcement functions), he or she retains the discretion to do so.

2.4 USE OF DEPARTMENT FACILITIES

When recording interviews, news documentaries, news releases, or events of an unusual nature, representatives of the media may be allowed to use their equipment inside police facilities.

2.5 Requests for department cooperation in the preparation of articles for newspapers, magazines, and other publications will be individually considered by the Chief of Police or his designee. If approved, permission for the interviewing of department personnel and the photographing of police facilities will be limited to the scope of the approval.

2.5.1 Officers participating in the preparation of such articles should ascertain the scope of approval and should be careful not to exceed those limits.

302.2 NEWS MEDIA RELATIONS

- 2.5.2 Officers should exercise care and discretion so as not to make statements or convey information that may create misunderstanding or compromise the effectiveness of the police service.

3 PUBLIC INFORMATION OFFICER

A PIO shall be designated by the Chief of Police to serve as a liaison between the media and the department. The role of the PIO is to foster mutual respect between the news media and the department. All employees shall cooperate fully with the PIO in providing the information requested in a clear and timely manner.

- 4.1.2 The format of the media release shall be in written form and will be approved by the Chief of Police, the PIO, or the responsible supervisor prior to release. All written releases shall contain the "who, what, when, where and why and how" of the event being reported, in accordance with relevant department policies and public records law. In addition, the release shall contain the date the release was issued, a contact name and telephone number for media representatives (this person shall be notified of the pending release and, whenever possible, be given a copy of the release prior to media notification) and the name and telephone number of the person who authorized the release.

- 5.6 Department personnel shall not interfere with the videotaping or the photographing of incidents in public places. However, this does not include access to interior crime scenes or areas secured for security reasons.
- 5.7 In order to cooperate more fully with members of the news media and provide them with access to cover incidents/events/activities/scenes of public interest, the following guidelines shall be complied with unless they interfere with public safety interests and/or recognized law enforcement procedures:
 - 5.7.1 The media shall be granted close access to the incident/event/activity/scene, with a clear line of sight and within hearing range of the incident/event/activity/scene.
 - 5.7.2 When incidents/events/activities/scenes spill over or occur on private property or lawfully restricted public property, members of the media shall not be arrested for criminal trespass, unless an owner or property representative expressly indicates that they do not wish the media to be permitted to enter or remain on their property.

I POLICY

Because department employees enforce traffic ordinances and are the most visible representatives of local government, officers must operate department vehicles in a safe, legal and professional manner. This responsibility is especially great in view of the unique police situations and traffic conditions in which department vehicles are operated on a daily basis.

Code 3 operations, pursuit driving and transporting potentially dangerous people all present a risk of injury to officers, citizens and subjects; making the safe operation of police vehicles and strict adherence to safety practices vital.

2.1.6 Assignment of a department vehicle for any reason not covered in the above guidelines must be approved by the chief of police.

16 FIREARMS RESTRICTIONS

16.1 DISCHARGING OF FIREARMS AT MOVING MOTOR VEHICLES

The discharging of a firearm at a moving motor vehicle creates substantial risks. The likelihood of misses, the subsequent risk of errant shots, the improbability of stopping the vehicle, and the probability of the vehicle's crashing and causing injury to officers and other persons, are among factors that counsel against such actions, other than in the most extreme circumstances.

16.1.1 The discharging of a firearm at a moving motor vehicle is **prohibited**, unless other alternatives are impractical, or would present a greater risk to the officer, or to others.

303.3 FIREARMS AND AMMUNITION

- 16.1.2 If possible, and under the circumstances, it is the officer's **primary responsibility** to move out of the path of the motor vehicle, and/or seek cover. In most instances, this option provides the safest alternative for the officer.
- 16.1.3 Officers shall utilize the tactical positioning of vehicles, and tactical vehicle approaches, in order to minimize the danger presented by occupied vehicles.
- 16.1.4 Due to the extreme risks presented to officers, they shall not deliberately place themselves in the path of a fleeing vehicle.
- 16.1.5 Reaching into an occupied vehicle to turn off the ignition, significantly increases the likelihood of being disarmed, entangled, dragged, or even killed, as a result. Therefore, an officer should only engage in this practice after careful consideration of the tactical situation.
- 16.1.6 As with all uses of firearms, the discharging of a firearm at a motor vehicle is only justified if the officer has probable cause to believe that the subject poses an immediate threat of danger of death, or serious physical injury, to the officer, or to others.

16.2 DISCHARGING OF FIREARMS FROM MOVING MOTOR VEHICLES

As is the case with firing **at** moving motor vehicles, the substantial risk created by firing **from** a moving vehicle must be carefully weighed, against the possibility of an innocent person being injured.

- 16.2.1 Discharging a firearm from a moving vehicle is **prohibited**, unless other alternatives are impractical or would present a greater risk to the officers, or to others.

16.3 OFFICERS SHALL NOT DISCHARGE FIREARMS

No member of the department shall discharge a firearm, under the following circumstances:

- 16.3.1 As a warning.
- 16.3.2 Solely to disable a motor vehicle.
- 16.3.3 In any case, involving solely a misdemeanor, or traffic offense.
- 16.3.4 In any felony case, that does not involve an actual or threatened attack, and could result in death, or serious physical injury.
- 16.3.5 To effect the arrest, or to prevent the escape of a misdemeanant.

16.4 PROHIBITED USE OF FIREARMS AND AMMUNITION

No member of the department shall:

- 16.4.1 While acting as an agent of the department, carry, use, or discharge any firearm or ammunition, except those issued or approved for use, by the department.
- 16.4.2 At any time, *on* or *off*-duty, unnecessarily draw, or point a firearm, engage in 'horseplay' with a firearm, or use a firearm as an impact weapon.

III PROCEDURES

1 BOOKING AND CUSTODY OF PROPERTY

The Property Management Unit commander shall be responsible for the custody of all found, recovered, abandoned, unclaimed evidence and/or other property coming into the possession of the department and delivered to the Property Management Unit and shall be responsible for the safekeeping, accurate recording, accounting for and proper disposition of all such property.

304.1 PROPERTY MANAGEMENT

2 SUBMISSION OF PROPERTY

Every attempt shall be made to photograph or otherwise limit the amount of evidence collected and stored by the Property Management Unit. Officers shall physically collect only that evidence that is necessary to successfully prosecute a case.

Any member of the department taking possession of property or evidence in the course of his official duties shall deposit the property as soon as practical, but before the end of the officer's shift, in the Property Management Unit or, when the Property Management Unit is closed, one of the designated Night Property Rooms, except where provided in Directive 304.1/6 – PROPERTY MANAGEMENT UNIT ROOM EXCEPTIONS.

No property obtained in the course of official duty shall be retained in any office or other place longer than is necessary to move it to secure storage, except as otherwise stated in this directive, or unless written authorization has been obtained from the chief of police.

No property coming into the possession of a member of the department in the course of his official duties shall be retained by, sold, given away, junked, destroyed or dispensed of in any manner by the employee other than is specified in this directive, or unless written authorization is obtained from the chief of police.

- The YELLOW copy shall be given to the individual from whom the property was obtained.
- The WHITE copy shall be submitted when the officer books and logs the property. Each of the night property rooms and the large item storage area will have a designated wall file holder available for placement of the receipts. Officers booking property when the Property Management Unit is open will submit the receipt to Property Management Unit personnel at the counter. Officers booking property in the lockers for flammables or loaded firearms shall place the receipt in the designated folder within the locker.
- The Records Section number shall be included on the PROPERTY RECEIPT
- A notation shall be made in the narrative of the CRIME REPORT or INCIDENT REPORT that the citizen was issued a PROPERTY RECEIPT and advised on the procedure to reclaim their property.

4 REPORT REQUIRED

Except as otherwise noted, in all cases where a department member takes possession of property or returns property to its rightful owner, a CRIME REPORT or INCIDENT REPORT (Found Property) shall be completed as soon as practical, but before the end of the officer's shift. When in the best interest of the department to do so, bicycles and other property not held as evidence or contraband may be returned or released to the legal owner, providing ownership can be satisfactorily shown. In such cases, a CRIME REPORT/INCIDENT REPORT shall be completed documenting all of the circumstances involved and describing the property.

- The report shall describe how the property came into the possession of the reporting officer.
- The reporting officer shall document the chain of custody, from initial control of the property through the final booking or return of the property.

If the contents of the container are too numerous to list on one tag, a copy of the CRIME REPORT, INCIDENT REPORT or SUPPLEMENTAL CRIME REPORT listing the contents shall be attached to the tag.
- 5.3 The responsibility for using the proper tag, for accurate documentation of the contents and furnishing the required information rests with the department member originally acquiring the property. No property shall be accepted or booked unless it is properly tagged. Tags without attachment wires should be used, or the tag wire shall be removed and disposed of prior to booking, when the tag is attached to the property by another means (e.g., staples, tape). Property Management Unit personnel shall not open sealed containers to examine, count or verify the contents thereof.
- 5.4 When tagging property from felony cases, the assigned investigator in charge of the case should be listed as the investigator on all evidence tagged for that case, regardless of how many investigators are working the case or who collected the evidence.

6 PROPERTY MANAGEMENT UNIT ROOM EXCEPTIONS

All property taken into police custody shall be booked into the department Property Management Unit Room except:

A SUPERVISOR'S REPORT (TPD FORM 20.7) shall be sent to the Property Management Unit indicating that property has been placed in the Flammable Liquids/Fireworks Storage cabinet.

304.1 PROPERTY MANAGEMENT

- 6.4 Generally, no motor vehicles shall be booked into the Property Management Unit Room. Any motor vehicles (including gas powered scooters and mopeds) which require license plates shall be towed. Go-carts, mini-bikes and similar types of vehicles shall also be towed. However, small toy-like items that can be readily transported in a police vehicle may be booked in the Property Management Unit.
- 6.4.1 Gasoline shall be siphoned from all small engines that are booked. A gas can and siphons are located inside the Flammable Liquids/Fireworks Storage cabinet in the Safety Building garage. Siphoned gas shall be placed into the Flammable Liquids/Fireworks Storage cabinet.
- 6.5 When the Property Management Unit is closed, property shall be booked into a Night Property Rooms at one of the district stations.
- 6.5.1 Property Management Unit personnel shall be contacted per established call-in procedures if any of the following occur:
- The value of the property is more than \$50,000 (e.g., cash, large amount of jewelry, large quantity of drugs).
 - A supervisor believes it is necessary to book the property in the Property Management Unit Room to protect the integrity of the evidence.
- 6.6 Large, bulky items and bicycles.
- 6.6.1 The Large Item Storage Area is located on the Beech Street side of the Police and Fire Alarm Building, 550 N. Erie Street. This facility shall be utilized for items that can be transported but will not readily fit into a Night Property Room (e.g., basketball hoops, large ladders, furnaces, etc.).
- 6.6.2 All bicycles shall be transported directly to the Large Item Storage Area.
- 6.6.3 Officers entering the Large Item Storage Area must use their keycard to open the overhead door and disarm the alarm system.
- 6.6.4 All items secured at the Large Item Storage Area must be properly marked and tagged.
- 6.6.5 Large items shall be secured inside the cage.
- 6.6.6 Exiting the Large Item Storage Area via the overhead door will reset the alarm system. Officers shall ensure that the overhead door is properly secured after exiting the facility.
- (a) If the overhead door malfunctions and will not close, officers shall request the dispatcher notify City Line for an immediate repair. At no time shall the unsecured facility be left unattended.
- 6.6.7 Officers shall not trespass into any other area of the building as this will set off other alarms.
- 6.7 Perishable food items
- 6.7.1 Under most circumstances, any quantity of perishable foods should not be booked into the Night Property Room.

EXCEPTION: In extreme cases (e.g., when a poisoning is suspected), a supervisor shall be contacted for guidance regarding any perishable foods which may be evidence. In this type of case, the perishable foods should be booked into the refrigerator in the Night Property Room.

7 **MARKING EVIDENCE**

All property held as evidence, even if in a container, shall either be marked or placed so it can be positively identified at a later time, except as otherwise noted. Evidence shall not be marked:

- 7.1 If marking it would alter or change it. In such case it should be placed in a container.
- 7.2 If it already has a serial number and/or distinctive mark that can be positively identified at a later time (the serial number or mark shall be fully described and noted in the CRIME REPORT).
- 7.3 If the property is to be marked as evidence, the mark shall be:
 - As small as possible.
 - Distinctive and not easily capable of duplication. An “X” shall not be used.
 - Placed to prevent altering, contamination or destroying the evidentiary value or reducing the marketable value.
 - Made as soon as possible by the department member who first obtained custody of the property.

8 **PACKAGING PROPERTY**

Property being booked shall be packaged to maintain the integrity of evidence, to protect the item being booked, to protect officers handling the item, and to provide a practical method to store and handle the property. Items collected as evidence require greater care in handling and consideration of special packaging. However, some items may not require packaging, but only the proper tag.

- 8.1 The following are mandatory guidelines:
 - 8.1.1 Items that require packaging shall be packaged in the smallest container possible.
 - 8.1.2 Small items of evidence connected to the same case may be placed in one bag or envelope, using one property tag. Multiple items from the same case that are bagged separately (e.g., drugs) shall be tagged separately. Driver’s licenses and ID’s shall be packaged in a heat-sealed bag so the information is visible.

NOTE: Items with the potential of being returned to the rightful owner prior to other items (e.g., sets of keys, cell phones) must be bagged and tagged separately.

8.1.3 **REMOVED**

- 8.1.4 Evidence tape shall be used to seal all packages. Permanent marker shall be used to print the booking officer’s name, identification number, Records Section number, and the date on the evidence tape.

EXCEPTION: Evidence tape is not required on heat-sealed bags or on rape kits sealed by medical personnel.

- 8.1.5 Property requiring forensic analysis **shall be packaged separately** from other items not requiring analysis. Each **exhibit** shall be packaged individually. (New packaging material shall be used to contain these items. No staples are to be used in securing these items)
- 8.1.6 Items too large to package require only a property tag.

304.1 PROPERTY MANAGEMENT

- 8.1.7 License plates shall be tagged without packaging unless being protected for fingerprints.
- 8.1.8 Items that are known to present or may present a bio-hazard when handled shall be clearly and adequately labeled to warn others of the potential danger.
- 8.1.9 Sharp items (e.g., needles, scalpel blades, razors and other sharp instruments) shall be considered as potentially infectious and shall be handled with extraordinary care. To reduce the chance of needle stick injuries, needles shall never be recapped, bent, broken, removed from a syringe or otherwise unnecessarily manipulated by hand.
- 8.1.10 As soon as possible, all sharp or potentially sharp items (e.g., glass crack pipes that are intact but could break during handling) shall be placed in puncture resistant containers. The containers are available at the Night Property Rooms and in the Vice/Metro Section. These containers are re-usable and should not be discarded. Additional containers are available at the Property Room.
- 8.1.11 Officers shall use every precaution to eliminate any chance of injury. Sharp edges and points of sharp objects should be covered, keeping in mind officer safety and the evidentiary value of the object.
- 8.1.12 All drugs shall be heat-sealed before being booked. The only exception is large quantities of marijuana or similar substances, which will be bagged, secured with evidence tape, and properly marked.
- 8.1.13 Items that are known to require DNA analysis, or that may eventually be submitted for DNA analysis, shall be packaged in a manner that excludes the use of staples to seal the container, as stapling can cause contamination of the evidence. To prevent contamination or cross contamination of these items, only new packaging materials shall be used (new bags, boxes, envelopes etc.).

8.2 ALCOHOL

Alcohol taken into custody as evidence shall be placed in a sample vial, sealed and packaged separately from other items. Sample vials are available in the Night Property Rooms. If analysis is required for prosecution, a Lucas County Coroner Forensic Toxicology Property Control Form must be submitted. Original containers should be photographed and discarded. Any additional items shall be booked according to established procedures.

- 8.2.1 If the alcohol taken into custody is in the original sealed container, there is no need to open the container for a sample. The contents of the sealed container are already verified by the labeling as being alcohol.
- 8.2.2 A completed Lucas County Coroner Forensic Toxicology Property Control Form shall be routed in this manner: original to Records Section, one copy with the evidence, and one copy in the OVI package, if applicable.

8.3 FLAMMABLE LIQUIDS

Whenever an officer seizes a container of an obviously flammable liquid (e.g., gasoline, kerosene, etc.) or any other liquid which cannot be identified, the container shall be protected for prints, when applicable, tagged and placed in the Flammable Liquids/Fireworks Storage cabinet in the Safety Building garage.

- 8.3.1 Officers shall include in the CRIME REPORT/INCIDENT REPORT that the liquid is stored in the Flammable Liquids/Fireworks Storage cabinet. A SUPERVISOR'S REPORT (TPD FORM 20.7) shall be sent to the Property Management Unit

indicating that property has been placed in the Flammable Liquids/Fireworks Storage Cabinet.

- 8.3.2 The Toledo Fire and Rescue Department Arson Unit shall be responsible for having fluids that are connected to an arson investigation analyzed and the container checked for prints. After the fluid has been analyzed, it shall be the responsibility of the Arson Unit to dispose of the remaining contents. The empty container shall be discarded, transferred to the Property Room or, if there is no prosecution, returned to the owner. This decision shall be made by the Arson Unit personnel assigned to the case.
- 8.3.3 Fluids not related to an arson investigation that need to be analyzed shall be placed in the Flammable Liquids/Fireworks Storage cabinet. A **REQUEST FOR ANALYSIS** (TPD FORM 61.5) shall be completed.
- 8.3.4 If the property is not evidence in a criminal case, a completed **PROPERTY ROOM RELEASE** (TPD FORM 23.10) should be attached at the time the property is placed in the Flammable Liquids/Fireworks Storage cabinet.

 - Contact on-duty CSIU personnel to process the firearm. If no CSIU personnel are working or available, book the firearm into the Central Station Night Property Room’s designated “CSIU” lockers ensuring that booking procedures do not compromise fingerprint or DNA analysis. (See directive 407.11/2 HANDLING OF DNA EVIDENCE).
 - Prior to booking the firearm into the Night Property Room’s designated “CSIU” locker or loaded firearms locker, the officer shall obtain all of the information required from the firearm. The forms shall be filled out as completely as possible, clearly describing the circumstances under which the firearm was obtained.
 - Officers shall mark the appropriate ‘test fire’ check box on the **REQUEST FOR ANALYSIS**. This is in addition to any other examinations requested for a particular investigation. Property Management Unit personnel will not process the firearm unless the required forms are completed and booked with the firearm. In instances where the forms are not completed or booked with the firearm, the officer’s supervisor will be notified and the involved officer will be directed to complete and submit the proper forms.
 - The officer shall place the **A.T.F. FIREARMS TRACE REQUEST form, the REQUEST FOR ANALYSIS form** and a draft copy of the **General Offense report** in the locker with the bagged firearm.

 - Officers shall attach to the paper bag with tape (**NO STAPLES**): Two completed property tags – one for the firearm/magazine and one for the bullets. Omit the number of bullets if still in the magazine, just fill out the caliber of the bullets, if known.
- 8.4.3 Biohazard stickers should be affixed to the firearm if the firearm was exposed to any hazardous material.

8.4.4 **LOADED FIREARMS**

Any officer who comes into the possession of a loaded firearm that cannot be rendered safe through familiar unloading techniques shall not attempt to unload or tamper with the firearm.

- (a) If it cannot be determined if a firearm is loaded, it shall be assumed the firearm is loaded and the following procedures apply:
- Officers shall transport the firearm in such a manner as to reasonably ensure the firearm will not discharge.
 - As soon as possible, the firearm shall be taken to the Scott Park District Station.
 - If the range is open, a range staff member will attempt to render the firearm safe and return it to the transporting officers.
 - The range supervisor shall determine who is best qualified to render the weapon safe.

Temporary Detention Rooms/Areas shall be designated with a sign stating the room/area is a Temporary Detention Room/Area. Temporary Detention Rooms/Areas shall be free of objects that can be thrown, misused, or used as a weapon.

2.1.1 Benches shall be securely fastened to the floor.

2.1.2 Handcuff detainment devices shall be constructed and installed to securely hold a handcuffed detainee.

2.1.3 Doors to Temporary Detention Rooms/Areas shall remain closed and locked whenever a detainee is in the room/area, unless an officer is present in the Temporary Detention Room/Area (e.g., doors may remain open and unlocked when an officer is placing a detainee in or removing a detainee from the room/area).

2.2 GENERAL GUIDELINES FOR USE OF TEMPORARY DETENTION ROOMS/TEMPORARY DETENTION AREAS

Any officer may utilize a Temporary Detention Room/Area to temporarily secure a detainee. Officers shall use Temporary Detention Rooms, if available. Temporary Detention Areas shall only be used if all Temporary Detention Rooms are occupied or otherwise unavailable for use. Officers utilizing the Temporary Detention Rooms/Areas shall adhere to the following guidelines.

EXCEPTION: Juvenile Status offenders shall NOT be brought to a police facility.

TEMPORARY DETENTION 306.1

- 2.2.1 Officers shall record the use of a Temporary Detention Room/Area by making the appropriate entries on the TEMPORARY DETENTION ROOM/AREA LOG (TPD FORM 15.29) maintained in a logbook at each Temporary Detention Room/Area.
- Each time a detainee is placed in or removed from a Temporary Detention Room/Area, for any reason, the time in and out shall be recorded on the TEMPORARY DETENTION ROOM/AREA LOG.
 - Any meals provided to a detainee shall be recorded on the TEMPORARY DETENTION ROOM/AREA LOG.
 - The Operations Division commander, or his designee, shall maintain the completed TEMPORARY DETENTION ROOM/AREA LOGS.
- 2.2.2 Officers shall inspect the Temporary Detention Room/Area for weapons, contraband, or unsafe conditions prior to placing a detainee in the room/area and immediately after removing the detainee.

The property shall be placed in one (1) of the property lockers provided near each Temporary Detention Room/Area. Officers shall secure the locker and maintain possession of the property locker key until the property transfers with the detainee.
 - Weapons, contraband or evidence shall be handled in accordance with existing procedures. All other property shall transfer with the detainee when they are transported to another facility or released from custody.
- 2.2.3 While in a Temporary Detention Room/Area, all detainees shall be handcuffed to a handcuff detainment device to ensure detainee safety, prevent escape, and to prevent damage to Temporary Detention Rooms/Areas.
- The proper handcuffing technique to secure a detainee to a handcuff detention device is both hands handcuffed together behind the back with the operable portion of the handcuff detention device attached around the chain or hinge portion of the detainee's handcuffs.
 - If another detention device is used instead of a handcuff detention device, officers shall ensure that both of the detainee's hands remain handcuffed behind the back.
 - Males, females and juveniles shall be separated into different detention rooms/areas.
 - Juveniles shall be kept sight and sound separated from all adult offenders.
- 2.2.4 Officers shall keep their detainee under continual supervision using CCTV monitors and conducting visual checks, at least every 30 minutes, or as conditions warrant.
- Officers shall remain alert for possible indications of medical problems, suicide attempts, escape attempts or other potentially harmful events that may occur.
- 2.2.5 In areas where a Temporary Detention Room/Area is not available, detainees shall be properly handcuffed and shall remain under continual supervision and control.

- 2.3.3 Only authorized personnel (e.g., police personnel) shall be permitted in Temporary Detention Rooms/Areas or to have access to detainees. Other individuals, such as attorneys and family members, will have access to a detainee after the detainee is booked into a permanent detention facility.
- 2.3.4 Officers shall allow reasonable water and restroom breaks for their detainees. Officers shall keep in mind the circumstances, the length of the temporary detention, and any security risk involved in removing handcuffs to allow a detainee to use restroom facilities. If there is any doubt on the part of the officer, a sworn supervisor or investigator shall decide what action to take.
 - (a) When a detainee is granted permission to use restroom facilities, an officer shall search the restroom for weapons, evidence or contraband before and after escorting the detainee to the restroom. The officer shall also monitor the detainee's activities as closely as possible.
 - (b) When an opposite-sex detainee is involved, a sworn supervisor shall be advised and he shall render a decision whether to summon an officer of the appropriate sex, or allow the detainee to use the restroom facilities unsupervised.

2.4 FIRE SAFETY PROVISIONS

- 2.4.1 Fire Prevention – All personnel shall make every effort to prevent the occurrence of fires in Temporary Detention Rooms/Areas, and in other areas where detainees are present, through proper supervision of detainees and control of all flammable materials in and around those areas.
 - (a) Smoking is not permitted in any City of Toledo facility.
 - (b) In the event of a fire or other related emergency, the primary objective will be the protection of lives of all detainees and all others occupying the building.

Officers shall secure all firearms, before entering an Interview Room or Polygraph Room with a detainee, or before entering an Interview Room or Polygraph Room that contains a detainee. Officers shall secure their firearms in one (1) of the gun lockers installed near the Interview Rooms or Polygraph Rooms. Officers should also consider securing other potentially harmful weapons prior to entering a Temporary Detention Room/Area.

DIRECTIVE 401.1	TOLEDO POLICE DEPARTMENT		
EFFECTIVE November 01, 2002	STANDARD OPERATING GUIDELINES		
REVISED July 28, 2020	CHIEF OF POLICE: <i>Michael C. Froendle</i>	PART: OPERATIONS	PAGES 9
RESCINDS September 12, 2018	PURSUIT OPERATIONS		

I POLICY

A VEHICLE PURSUIT SHALL BE TERMINATED WHENEVER THE LEVEL OF DANGER CREATED BY THE PURSUIT OUTWEIGHS THE IMMEDIATE CONSEQUENCES OF THE SUSPECT’S ESCAPE.

It is the policy of the Toledo Police Department to expeditiously identify and apprehend violators of traffic and criminal statutes, while utilizing reasonable methods that protect all persons from bodily injury and unnecessary property loss. Due to the risks that may arise when officers engage in vehicular pursuits, the department has established a strict pursuit policy and provides training to officers in its components.

Traditionally, law enforcement’s response has been to immediately apprehend offenders. The potential hazards of vehicular pursuits, however, necessitate that officers be able to identify vehicles and suspects upon initial contact, should it become necessary to terminate a vehicle pursuit and arrest through follow-up investigation. Therefore, procedures to be followed during vehicle pursuits have been outlined to minimize the risks involved in these situations. Additionally, in an effort to minimize the potential risks associated with vehicular pursuits, the department periodically reviews pursuit-driving incidents, with the aim of revising policy when appropriate and providing updated training.

II DEFINITIONS

VEHICLE PURSUIT – The following of a motor vehicle by a police vehicle, with emergency lights and siren activated, when the operator of the motor vehicle is attempting to avoid apprehension.

CARAVANNING – The following of a suspect vehicle by more than three police vehicles traveling in single file.

PARALLELING – The operation of police vehicles, not in direct pursuit of the suspect vehicle, on streets that parallel the route being traveled by the suspect vehicle.

RAMMING – The intentional contact of a moving police vehicle initiated against a suspect vehicle.

MOVING BLOCKADE – The positioning of a moving police vehicle so that it partially or totally impedes, interferes with, or attempts to cause the cessation of movement.

STATIONARY BLOCKADE – The positioning of a stationary police vehicle so it partially or totally impedes, interferes with, or attempts to cause the cessation of movement.

CHANNELIZATION – A technique similar to a roadblock in which a marked police vehicle or other approved device is placed in the anticipated path of a pursued vehicle in order to alter its direction of travel.

401.1 PURSUIT OPERATIONS

DUAL-PURPOSE VEHICLE – A vehicle that has an electronic siren, emergency red and blue lights mounted on the dashboard or windshield and rear deck, alternating flashing headlights and alternating white strobe lights in the front side markers. (A dual-purpose vehicle is in most instances a 4-door sedan equipped with a standard police performance package).

MOTORCYCLE – A vehicle with less than four wheels that is powered by a motor.

ALL-TERRAIN VEHICLE (ATV) - A vehicle that travels on low-pressure tires, with a seat that is straddled by the operator, along with handlebars for steering control.

III PROCEDURES

1 PURSUIT RESTRICTIONS AND CONSIDERATIONS

1.1 APPLICABLE CODE SECTIONS

The emergency operation of a police vehicle is governed by state and municipal ordinances. The following Ohio Revised Code (ORC) and Toledo Municipal Code (TMC) sections are applicable:

- 1.1.1 ORC 4511.03: Public safety vehicle to proceed cautiously past red or stop signal.
TMC 331.18: Emergency or public safety vehicles at stop signals or signs; turning movements.
- 1.1.2 ORC 4511.04: Exceptions.
- 1.1.3 ORC 4511.24: Public safety vehicle **exempted** from speed limits.
TMC 333.05: Speed exceptions for emergency or safety vehicles.
- 1.1.4 ORC 4511.37: Turning in roadway prohibited; exception.
- 1.1.5 ORC 4511.45: Right-of-way of public safety vehicles. TMC 331.19: Right-of-way of public safety vehicles.
- 1.1.6 ORC 4511.45.2: Pedestrian yield right-of-way to public safety vehicle.
TMC 371.08: Yielding to public safety vehicle.
- 1.1.7 ORC 4513.21: Horns, sirens and warning devices.
- 1.1.8 These ordinances place two major restrictions on police officers when operating a police vehicle under emergency or pursuit conditions:
 - A public safety vehicle only gains the right-of-way when using both emergency lights and siren; and,
 - **THE OPERATOR OF THE PUBLIC SAFETY VEHICLE MUST DRIVE WITH DUE REGARD FOR THE SAFETY OF ALL PERSONS ON OR ABOUT THE STREETS OR ROADWAYS.**

1.2 CONSIDERATION OF ENVIRONMENTAL AND OTHER EXTERNAL FACTORS

No officer shall initiate, or otherwise engage in, a vehicle pursuit without first evaluating all environmental conditions and other external factors that reasonably could be considered to impact on the pursuit's outcome. These factors include but are not limited to:

- The nature and seriousness of the offense.
- The weather and the roadway conditions.
- The presence and volume of vehicular and pedestrian traffic.
- Time of day.
- The presence of passengers in the pursued vehicle.
- The officer's familiarity with the area.

- The availability of assistance.
- The likelihood of the suspect's apprehension.
- The speed and evasive maneuvers of the suspect.
- Condition and capabilities of the police vehicle.
- The suspect is known to the officers or is easily identifiable.

Officers and sworn supervisors shall constantly re-evaluate these factors, and any other relevant factors, during a pursuit so as to make reasonable determinations regarding the continuation or the termination of the pursuit.

1.3 SPEED RESTRICTIONS

1.3.1 Pursuit speeds shall not exceed those that would be described as **REASONABLE**, after consideration of the above-listed environmental factors.

1.3.2 Pursuits shall not be initiated, or if initiated, shall not be continued, when the speeds involved present a clear danger to the public, the occupants of the pursued vehicle or the pursuing officers.

- (a) A clear danger exists when speeds hazardously exceed that of the flow of traffic, or when the presence of vehicular or pedestrian traffic necessitates the unsafe maneuvering of the suspect's or officer's vehicle to avoid such traffic, or when unsafe maneuvering would be required regardless of the presence of other traffic.

1.4 TYPES AND NUMBERS OF POLICE VEHICLES

Only fully marked police sedans/SUVs/wagons and dual-purpose vehicles, with operating lights and sirens, shall be employed in vehicle pursuits.

1.4.1 Officers operating police wagons and dual-purpose vehicles in vehicle pursuit situations shall relinquish their position in the pursuit when a fully marked sedan/SUV is able to assume the wagon/dual-purpose vehicle's position.

1.4.2 Under most conditions, the unit initiating the pursuit shall be known as the **primary unit**. The second unit to engage in the pursuit, while following the primary unit, shall be known as the **secondary unit**. If practicable, a sworn supervisor may also enter the pursuit, behind the primary and secondary units in order to monitor and more effectively supervise the pursuit. No other units shall enter or participate in a vehicle pursuit without the permission of a sworn supervisor in authority.

1.4.3 The caravanning of police vehicles presents additional and unnecessary risks, and **shall not** be employed as a pursuit tactic.

1.4.4 If the primary unit or the sworn supervisory unit determines that additional units are required in order to safely affect the arrest of the suspect, the sworn supervisor in authority may order the participation of additional units in the pursuit.

1.5 ADDITIONAL UNITS

Police units located outside the general area of a vehicle pursuit that involves both a primary and secondary unit shall not enter the pursuit unless specifically directed to do so by a sworn supervisor in authority.

1.5.1 If no sworn supervisor is available, the officer assigned to the primary unit may request the assistance of outside units. Otherwise, outside units shall maintain

401.1 PURSUIT OPERATIONS

their positions and shall closely monitor the status of the pursuit with respect to its likely entry into the outside unit's area.

- 1.5.2 Police units located within the general area of a vehicle pursuit shall closely monitor the status of the pursuit and may parallel the pursuit's course, if conditions permit. Paralleling units shall **NOT** operate with emergency lights and sirens, unless specifically directed to do so by a sworn supervisor in authority.
- 1.5.3 Under no circumstances shall any units, other than those permitted under Directive 401.1/1.4 – TYPES AND NUMBERS OF POLICE VEHICLES, enter the area of a pursuit while operating Code 3. All units shall continuously operate with due regard for safety of all persons on or about the streets and roadways.

2 PURSUIT RESPONSIBILITIES

2.1 PRIMARY UNIT

Upon anticipation of a vehicle pursuit, or no later than the actual initiation of a pursuit, the primary unit shall notify Communications by radio and provide the following information:

- The unit number of the primary unit.
- The location and direction of the pursuit.
- Description of the suspect vehicle and occupants.
- The reason for the pursuit.

NOTE: In general, primary unit officers shall be responsible for the actual apprehension of the suspect at the conclusion of the pursuit.

2.2 SECONDARY UNIT

The secondary unit shall join the pursuit behind the primary unit. The secondary unit shall immediately notify Communications of their participation in the pursuit.

- 2.2.1 The secondary unit shall follow the primary unit at a safe distance and, where possible, shall assume full responsibility for radio communications regarding the pursuit's progress, thus permitting the primary unit officers to concentrate on vehicle operation.
- 2.2.2 Additional or sworn supervisory units, if any, shall join the pursuit behind the secondary unit. No unit shall pass another engaged in a pursuit unless directed to do so by the sworn supervisor with authority over the pursuit.
- 2.2.3 If it becomes necessary for the primary unit to drop out of the pursuit, the secondary unit will assume the position of primary unit. The sworn supervisor with authority shall retain the responsibility for directing units into and out of the pursuit.
- 2.2.4 Units transporting non-police personnel shall not engage in vehicle pursuits, unless the non-police personnel are civilian observers who have signed waivers.
 - However, host officers, while accompanied by a civilian observer, shall not join or participate in any vehicle pursuit that has been initiated by another police unit.

2.3 **RESPONSIBILITIES OF COMMUNICATIONS PERSONNEL**

- 2.3.1 Upon notification of a vehicle pursuit, the Communications dispatcher shall:
- (a) Immediately clear the radio channel of all unnecessary radio traffic, and maintain strict control of the use of the radio channel by other units.
 - (b) Notify the nearest available sector sergeant or patrol shift sworn supervisor and request acknowledgment of the pursuit.
 - (c) Acknowledge and, if necessary, assign a secondary unit to the pursuit.
 - (d) Receive and record all information on the pursuit and the pursued vehicle.
 - (e) Provide other Communications personnel with any available information in order to ascertain the identity of the suspect vehicle's driver and/or occupants, and to discover other possible reasons for which the individuals might be fleeing and relay any information obtained to patrol units.
 - (f) Notify other units of the direction and progress of the pursuit.
 - (g) Ensure that neighboring law enforcement agencies are advised when it appears the pursuit may enter their jurisdictions.
- 2.3.2 The same radio dispatcher shall retain these duties and responsibilities until the pursuit has concluded.
- 2.3.3 The intent of the department's pursuit policy is to place the responsibility for the supervision of a pursuit with the concerned sector sergeant or other patrol shift sworn supervisor.

2.4 **RESPONSIBILITIES OF PATROL SHIFT SWORN SUPERVISOR**

- 2.4.1 Upon notification a vehicle pursuit is in progress, the nearest available sector sergeant or other patrol shift sworn supervisor shall:
- (a) Immediately acknowledge the pursuit.
 - (b) Proceed to the area of the pursuit.
 - (c) Supervise the pursuit until its conclusion.
 - (d) Continually evaluate pursuit factors and make determinations regarding the continuation or termination of the pursuit.
 - (e) Consider and strictly control any use of forcible-stop techniques for concluding the pursuit.
 - (f) Continue to the termination point of the pursuit in order to supervise all necessary operations.
 - (g) Ensure all necessary reports are completed in relation to the pursuit.
- 2.4.2 The sector sergeant or other patrol shift sworn supervisor may actually engage in the pursuit as the sworn supervisory unit following the primary and secondary units, when possible. Regardless of the sworn supervisor's actual engagement in the pursuit, the sworn supervisor shall retain the responsibility for the conduct of the pursuit, especially with respect to its continuation or termination.
- 2.4.3 In the event that a sworn supervisor initiates a pursuit, the sworn supervisor should relinquish his position as the primary unit as soon as is practicable, and shall assume a supervisory role.

2.5 **FORCIBLE-STOP TECHNIQUES**

A stationary blockade shall only be established **during** a pursuit when the offense involved is a felony involving violence or the threat of the use of violence, **or** when the

401.1 PURSUIT OPERATIONS

blockade can be established so as to **prevent** a vehicle pursuit, for any offense, while the suspect vehicle itself is stationary.

2.5.1 Unless entirely precluded or impractical under the circumstances present, officers shall obtain the permission of a sworn supervisor prior to the establishment of a stationary blockade during a pursuit for a felony involving violence or the threat of the use of violence.

2.5.2 The use of road spike devices shall be permitted in order to prevent or to terminate a vehicle pursuit for a misdemeanor or felony offense, under the training guidelines established. Channelization is a tactic that may be employed in conjunction with the deployment of a road spike device.

2.6 PURSUIT RESTRICTIONS

2.6.1 Ramming is regarded as an extremely high-risk maneuver, the consequences of which may often be beyond those intended by officers. Thus, ramming shall not be used as a pursuit tactic under any circumstance.

2.6.2 Establishment of a moving blockade is also regarded as a high-risk technique. Consequently, a moving blockade shall not be used as a pursuit tactic under any circumstance.

2.6.3 Blockades shall only be performed by officers trained on the approved circumstances and their proper execution.

2.6.4 Unmarked police vehicles may be used to establish a stationary blockade in order to **prevent** a vehicle pursuit. Only fully marked police vehicles may be used to establish a stationary blockade **during** a vehicle pursuit for a felony involving violence or the threat of the use of violence.

2.6.5 Once a department vehicle has been placed as part of a stationary blockade, no one shall remain in the vehicle. A stationary blockade shall not be established unless sufficient time has been afforded for the occupying officer to exit the police vehicle. The vehicle's ignition shall be turned off and any emergency lighting shall be activated.

2.6.6 No stationary blockade shall be employed when innocent persons would clearly be endangered by its use. A blockade shall be established only in such a manner as to provide a driver reasonable opportunity to stop.

2.6.7 Officers shall establish blockades only in well-lit areas, and shall avoid dark or blind areas, such as near curves or beyond the crest of a grade, where the visibility of a driver would be limited or otherwise impaired.

2.6.8 Road spike devices shall only be used by officers trained in their deployment. Road spike devices shall only be used when sufficient time has been afforded for their safe deployment.

2.6.9 Officers shall not pursue vehicles the wrong way on the interstate, other controlled access highway, or divided roadways. This is not intended to prohibit pursuit on the adjacent roadway where the officer is driving with the flow of traffic.

2.6.10 There is no prohibition of the pursuit of a suspect on city surface streets. Officers must evaluate the totality of the circumstances (risk to citizens, the officer, the offender, and environmental factors, as referenced in Section 1.2 in this directive) if choosing to pursue a suspect the wrong way on a one-way city surface street.

2.6.11 The pursuit of a motorcycle or an all-terrain vehicle is prohibited, unless the pursuit is initiated because of a crime of violence or a felony.

2.7 TERRITORIAL RESTRICTIONS

Officers shall not continue vehicle pursuits involving misdemeanors and/or felony traffic offenses beyond the territorial limits of the City of Toledo.

2.7.1 **The felony offense of eluding is not justification for a pursuit to leave the territorial limits of the City of Toledo.**

2.7.2 No vehicle pursuit shall be continued beyond the territorial limits of the State of Ohio unless the involved offense is a felony, an element of which is the use of violence or the threat of the use of violence.

Exception: Officers are authorized to assist in pursuing vehicles outside the territorial limits of the City of Toledo as the secondary unit whenever a single police vehicle from an outside police agency is pursuing a vehicle. For example: when a single police vehicle from an outside police agency is pursuing a vehicle which enters the territorial limits of the City of Toledo, and is joined by Toledo Police officers, and then leaves the territorial limits of the City of Toledo. Toledo Police officers can continue as a secondary unit, but shall terminate their involvement in the pursuit when the outside agency receives sufficient back-up. All other provisions of the department's pursuit policy shall be followed when pursuing vehicles outside the territorial limits of the City of Toledo.

2.8 MANDATORY TERMINATION OF VEHICULAR PURSUITS

2.8.1 **A VEHICLE PURSUIT SHALL BE TERMINATED WHENEVER THE LEVEL OF DANGER CREATED BY THE PURSUIT OUTWEIGHS THE CONSEQUENCES OF THE SUSPECT'S IMMEDIATE ESCAPE.**

2.8.2 In addition to the above, a vehicle pursuit **shall** be terminated when either of the following conditions occur:

- There is other than momentary loss of visual contact with the suspect vehicle ("two turns down" training concept).
- There is other than momentary loss of radio contact with Communications.

2.8.3 The following personnel shall be considered as having the authority to terminate a vehicle pursuit:

- The officer operating the primary unit in the pursuit.
- The sector sergeant or other patrol sworn shift supervisor in charge of the pursuit.
- A sworn supervisory officer of superior rank with authority in the matter.

2.9 INTER-JURISDICTIONAL PURSUITS

When a pursuit is initiated by Department officers or officers from another jurisdiction, **communications personnel** shall patch the channel the pursuit was initiated on to the PURSUIT CHANNEL (Zone 1 Channel 13 or Toggle Switch A Channel 13).

When it appears a vehicle pursuit initiated by **department officers** may enter another jurisdiction, the on-duty Communications supervisor shall ensure the other jurisdiction is notified. If the pursuit is terminated by department officers, then the communications supervisor shall determine whether the new jurisdiction wishes to assume control of the pursuit.

2.9.1 If the adjoining jurisdiction desires to take control of the pursuit, the sworn supervisor of the pursuit shall be so notified and shall relinquish control of the

401.1 PURSUIT OPERATIONS

pursuit to that jurisdiction. Department officers shall then end their participation and shall remain near jurisdictional boundaries until termination of the pursuit.

- 2.9.2 When the other jurisdiction does not wish to take over the pursuit, the guidelines set forth previously in this policy shall continue to be followed.
- 2.9.3 When another law enforcement agency initiates a pursuit within the City of Toledo, or enters into the department's jurisdiction while in pursuit, certain procedures shall be followed:
- Communications personnel shall ascertain the circumstances of the pursuit, including the reason for the pursuit and shall ensure this information is relayed to area units.
 - A sworn supervisor and two units shall be dispatched to the general area of the pursuit in order to monitor the situation.
 - The **dispatched units** shall be directed to switch to the PURSUIT CHANNEL for pursuit related communication, while still keeping communications with their primary dispatcher. If Toledo Police personnel assume control over the pursuit, Communications personnel shall patch the pursuit channel to the primary channel.
 - Any officer making transmission on the PURSUIT CHANNEL shall include the unit's agency and unit number.
- 2.9.4 When assistance is requested, the sworn supervisor who is dispatched shall make the determination regarding the participation of Toledo units.
- 2.9.5 Whenever department officers engage in a pursuit initiated by another agency, or whenever department officers engage in a pursuit outside their jurisdiction, all provisions of this pursuit policy shall be followed.

3 REQUIRED REPORTS

3.1 VEHICLE PURSUIT FORM

Whenever officers participate in a vehicle pursuit, the sworn supervisor in charge of the pursuit shall complete a VEHICLE PURSUIT FORM in Benchmark Analytics. The narrative portion of the form shall include a complete description of the pursuit route, as well as all other pertinent details.

- 3.1.1 When a sworn supervisor does not directly participate in a pursuit, the route of the pursuit shall be verified.

3.2 SUPPLEMENTAL CRIME REPORT (TPD FORM 38.3)

Officers who participate in the use of a blockade or in the deployment of road spike devices, or who are involved in a pursuit that results in death, injury or property damage, shall submit a SUPPLEMENTAL CRIME REPORT.

- 3.2.1 Reports shall include all pertinent information relative to the incident. These reports shall be in addition to any other necessary reports (e.g. crime report, accident report, etc.).
- 3.2.2 When a blockade has been established, or when road spikes have been deployed during a pursuit, the sworn supervisor shall also complete a SUPPLEMENTAL CRIME REPORT.
- 3.2.3 All reports shall be reviewed and processed upward, through the chain of command, to the respective district or division commander. Watch or section

commanders shall ensure that all recommendations made regarding the appropriateness of the pursuit are forwarded.

3.3 UNUSUAL INCIDENT REPORT (TPD FORM 40.0)

Whenever an outside agency's pursuit enters the boundaries of the City of Toledo, and Toledo officers do **NOT** engage in the pursuit, an UNUSUAL INCIDENT REPORT shall be completed by the concerned Toledo sworn supervisor.

3.4 ANNUAL REVIEW

Annually, the department shall compile and analyze statistics regarding the vehicle pursuits that occur during that period.

3.4.1 The data obtained, along with other applicable information, shall be used to provide a continuous review of the pursuit policy.

3.4.2 This process shall be undertaken with the aim of maintaining a reasonable and viable pursuit policy, while achieving the department's twin goals of protecting life and property and apprehending law violators.

3.5 TRAINING REQUIRED

Based on its own review process, as well as on information from other sources, the department shall annually conduct update training on its pursuit policy for all sworn personnel.

3.5.1 On a periodic basis, officers assigned to street duties shall receive additional training in the actual operation of police vehicles under emergency conditions.

3.5.2 Officers who have demonstrated a lack of understanding or adherence to the provisions of the department's pursuit policy shall be required to undergo additional and remedial training.

3.5.3 Cadets will receive initial pursuit policy training while in the academy.

REVISED December 1, 2012	CHIEF OF POLICE: <i>Michael C. Froendle</i>	PART: OPERATIONS	PAGES 2
RESCINDS October 1, 2011	FALSE ALARM NOTIFICATION		

I POLICY

In an effort to substantially reduce the number of false alarms and enable officers to spend more time on calls for service and problem-solving activities, the department shall utilize the city's False Alarm Ordinance.

II DEFINITION

FALSE ALARM – In accordance with TMC 511 – Alarm Systems, a false alarm is defined as “the activation of an alarm system which results in an unnecessary response by the police department.” This ordinance is separate and distinct from TMC 509.07 Making False Alarms (intentional activation of an alarm).

DIRECTIVE 401.7	TOLEDO POLICE DEPARTMENT		
EFFECTIVE November 01, 2002	STANDARD OPERATING GUIDELINES		
REVISED December 1, 2012	CHIEF OF POLICE: <i>Michael C. Frensdorff</i>	PART: OPERATIONS	PAGES 4
RESCINDS November 7, 2005	LABOR DISPUTES		

I POLICY

The department recognizes that negotiation and collective bargaining are legally recognized methods of peacefully settling labor disputes. In such disputes, it is not the function of the department to deal with the issues involved; rather, it is the role of the department to protect the rights of the public and the disputants by enforcing the law and by maintaining order.

II PROCEDURES

1 DEPLOYMENT

1.1 Recognizing that misunderstanding and law violations are minimized in an atmosphere of mutual cooperation and trust, the department will gather information regarding strikes, investigate related crimes, and meet with officials of labor and management to discuss and alleviate problems arising from such incidents.

1.1.1 Police officers will not normally be deployed at strike scenes; however, when such deployment becomes necessary it is the responsibility of the concerned command officer to take the necessary police action to deter crime and keep the peace.

1.2 OFFICERS' RESPONSIBILITIES

When officers become aware of a labor dispute or strike, they shall take any immediate action that becomes necessary and shall notify the dispatcher and the district sergeant that a strike is in progress and give its current status.

1.3 COMMUNICATIONS' RESPONSIBILITIES

When Communications personnel become aware or receive information that a strike or labor dispute is in progress, the dispatcher shall send a field unit and a district sergeant to the scene as soon as practicable.

1.3.1 The dispatcher shall provide the responding units with all information that he has in regard to the strike, e.g., number of pickets, any disorderly behavior, or any special circumstances that responding units would need to know.

1.3.2 If the dispatcher has been notified that a strike or labor dispute has reached a critical stage, or if extra assistance has been called for, the watch commander shall be notified at once. The Operations district and division commanders and the Public Information Officer (PIO) shall also be notified.

1.4 SERGEANT'S RESPONSIBILITIES

In all cases of labor disputes or strikes in which there is picketing or disorder, the district sergeant shall:

401.7 LABOR DISPUTES

- Confer with officials of both the union and management to emphasize the neutral position of the department and its responsibility in protecting life and property.
- Point out the rights and responsibility of both labor and management, e.g., the right to peaceful assembly, freedom of speech, protection of property and equal protection under the law.
- Emphasize that the use of public sidewalks and roadways, the free access to public places, and the rights of persons to enter and leave the premises will be preserved.
- Ensure the watch commander is updated on the situation and prepare an UNUSUAL INCIDENT REPORT (TPD FORM 40.0), through the chain of command, for the Operations Division commander.

1.5 WATCH COMMANDER'S RESPONSIBILITIES

In all cases of labor disputes or strikes in which there is disorder, the watch commander shall:

- Take the necessary steps to ensure sufficient police protection and supervision at the involved location.
- Make specialized assignments if conditions warrant.
- Maintain close contact with both sides of the dispute in order to keep the department informed.
- Ensure that an UNUSUAL INCIDENT REPORT is completed and forwarded to the district commander listing all incidents, complaints, or offenses relative to or arising from the dispute, and also upon termination or settlement of the labor dispute.

1.6 DISTRICT COMMANDER'S RESPONSIBILITIES

The district commander shall ensure the following is completed when labor trouble has developed or is expected to develop with a probability of disorder:

- Take the necessary steps to ensure sufficient police protection and supervision at the involved locations.
- Ensure that a Special Event Plan is developed (see Directive 409.2 – SPECIAL EVENT PLANNING).

2 ENFORCEMENT

2.1 ENFORCEMENT OF LAWS

The department will seek to minimize criminal violations connected with labor disputes by providing guidelines for the conduct of the parties and the area of the sidewalk to be used.

- 2.1.1 In cases where there is a denial of the right to free access, the department will take prompt and impartial police action.
- 2.1.2 Violations of court orders and injunctions do not ordinarily constitute criminal offenses for which the department will take enforcement action.
- 2.1.3 Minor Incidents – Arrests as a result of minor incidents on picket lines or other demonstrations should be kept to a minimum. Officers should exercise solid judgement and make arrests only as a last resort. Minor incidents between individuals may be resolved by separating the parties, cautioning them, and/or ordering them to leave the area.
- 2.1.4 Serious Incidents – Incidents such as assaults, inciting to riot or criminal damaging may constitute the basis for an immediate arrest.

- 2.1.5 Before making an arrest, the officer shall determine if it can be made without interference from sympathizers. A proper show of force (sufficient number of police officers) can frequently eliminate spontaneous acts of violence on the part of a crowd. If officers think additional back-up may be needed, they shall immediately notify the dispatcher.
- 2.1.6 Officers shall immediately transport prisoners from the scene to forestall any rescue attempts by sympathizers and to prevent further incidents.
- 2.1.7 When making mass arrests, officers must remember that they will be required to identify defendants at the trial.

3 PRIVATE SECURITY GUARDS AT LABOR DISPUTES

3.1 SECURITY GUARDS

It is a common practice for businesses to hire private security agencies to protect their property and employees during strikes.

- 3.1.1 The sergeant assigned to the area shall determine as soon as practical if private security guards are properly licensed as outlined in the Ohio Revised Code Section 4749, and the Rules and Regulations established by the Department of Public Safety.
- 3.1.2 For purposes of this section, private security guard refers to employees or agents of licensed private investigative services agencies such as Burns International Security, Pinkerton, Continental, etc. Security guards or personnel hired directly as employees of the business, such as Owens-Illinois Security, LOF Security, etc., which provide for their own security and protection needs, are not covered under the licensing provisions of ORC section 4749.

3.2 PRIVATE SECURITY GUARD; INSPECTIONS

Command officers inspecting a security guard's license shall pay special attention to the following licensing regulations.

- 3.2.1 All private security guards, except as noted, shall produce a State of Ohio, Department of Public Safety, Security Guard or Private Investigator's Identification Card when requested to do so by a law enforcement authority. The card shall bear:
 - The signature of the licensee (either the president or corporate officer of the company)
 - The license number of the agency
 - Name and signature of the cardholder
 - DOB of the cardholder
 - Physical description of the cardholder
 - Right thumbprint of the cardholder
 - A recent photograph of the cardholder
 - Date of Issue (card expires one year from date of issue)
- 3.2.2 In some instances, a private security guard may not have the required identification card in his possession. ORC section 4749.06 permits private security guards to engage in private security functions pending the issuance of an identification card, if the company or person whose life or property is being protected acknowledges and agrees in writing that he is aware that the guard has not completed the registration.

401.7 LABOR DISPUTES

3.3 PRIVATE SECURITY GUARD; VIOLATIONS

When an officer becomes aware, or suspects, a violation has occurred involving any of the rules and regulations of the Department of Public Safety or the ORC governing private investigators and security guards, he shall notify his supervisor in writing of the apparent violation. This notification will then be forwarded through channels to the Operations Division commander who shall determine the appropriate action to be taken.

DIRECTIVE 401.9	TOLEDO POLICE DEPARTMENT		
EFFECTIVE November 1, 2002	STANDARD OPERATING GUIDELINES		
	CHIEF OF POLICE:	<i>Michael C. Frenzel</i>	
REVISED August 1, 2018	PART:	OPERATIONS	PAGES 8
	CHAPTER:	PATROL OPERATIONS	
RESCINDS April 1, 2016	MENTALLY ILL AND DEVELOPMENTALLY DISABLED PERSONS		

I POLICY

When persons exhibit dangerous states of mental illness, the department's primary concern shall be to protect the mentally ill person and others. The presence of trained officers at incidents involving mentally ill individuals has been shown to substantially reduce injuries and unnecessary arrests. The department shall maintain a team of officers to respond to incidents involving mentally ill individuals.

II DEFINITIONS

For the purposes of this manual section, the following definitions apply:

MENTAL RETARDATION (MR) – Having significantly sub-average general intellectual functioning existing concurrently with deficiencies in adaptive behavior, manifested during the developmental period.

DEVELOPMENTALLY DISABLED (DD) – Having a disability that originates before age 22 that has continued or can be expected to continue indefinitely, and which constitutes a substantial limitation in the person’s ability to function normally in society.

MENTAL ILLNESS – The Ohio Revised Code (ORC) Section 5122.01(A) defines mental illness as a substantial disorder of thought, mood, perception, orientation, or memory that grossly impairs judgment, behavior, capacity to recognize reality, or ability to meet ordinary demands of life.

REASON TO BELIEVE – The Ohio Attorney General Opinion NO. 79-021 states that the phrase “reason to believe” is to be interpreted in accordance with common usage and that police officers may rely on statements of another to determine whether there is reason to believe a person should be taken into custody. Officers may use information from other sources to develop and substantiate probable cause.

AMERICANS WITH DISABILITIES ACT (ADA) – The ADA prohibits discrimination on the basis of disability in employment, state and local government, public accommodations, commercial facilities, transportation, and telecommunications. It also applies to the United States Congress.

To be protected by the ADA, one must have a disability or have a relationship or association with an individual with a disability. An individual with a disability is defined by the ADA as a person who has a physical or mental impairment that substantially limits one or more major life activities, a person who has a history or record of such impairment, or a person who is perceived by others as having such impairment. The ADA does not specifically name all of the impairments that are covered.

CRISIS INTERVENTION TEAM (CIT) - A group of officers, which have received specialized training in dealing with mentally ill individuals.

401.9 MENTALLY ILL AND DEVELOPMENTALLY DISABLED

III PROCEDURES

1 MR/DD AND MENTAL HEALTH OVERVIEW

The ORC effectively provides for procedures to remedy cases of abuse and neglect through emergency services and the intervention of the court when necessary, so that persons with MR/DD handicaps may safely reside in their community. In general, the ORC provides for similar measures of care, responsibilities and procedures for reporting cases, as those in elderly abuse cases. The ORC also provides guidelines to be followed when taking an individual into custody for the purpose of emergency involuntary hospitalization. General provisions concerning police activities are:

4.2 CIT SCENE MANAGEMENT

When a CIT officer is dispatched to an incident involving a mentally ill person, that officer shall be responsible for all aspects of interacting with the mentally ill person.

MENTALLY ILL AND DEVELOPMENTALLY DISABLED 401.9

- 4.2.1 Any sworn supervisor on the scene shall maintain overall accountability for the incident; however, he must keep in mind the CIT officer has had specialized training, and that the officer's conversation with the subject serves a purpose in attempting to resolve the situation in a peaceful and safe manner. Therefore, supervisors should allow the CIT officer as much leeway as practical.

- 4.4.1 A request shall be made to take the subject to a medical or mental health facility. The officers shall contact the service by telephone and make the request for screening.
- 4.4.2 When the request for service has been approved, the subject shall be placed in custody in an inconspicuous manner and transported to the medical or mental health facility.
- When taking the person into custody, officers shall advise the subject of their name, rank and the fact that they are a police officer of the Toledo Police Department. The subject shall also be advised that they are NOT under arrest, but that they are being taken to a medical or mental health facility to be evaluated by a doctor.

4 AMBER ALERT

The AMBER Plan is a voluntary partnership between law-enforcement agencies and broadcasters to activate an urgent bulletin in the most serious child-abduction cases. Broadcasters use the Emergency Alert System (EAS) to air a description of the abducted child and suspected abductor. This is the same concept used during severe weather emergencies. The goal of the AMBER Alert is to instantly galvanize the entire community to assist in the search for and safe return of the child.

Per the OHIO AMBER PLAN, the criteria that must be met to activate an Amber Alert are:

- The child must be 17 years of age or younger;
- The child must be in immediate danger of serious bodily harm or death;
- There must be enough descriptive information about the child, the suspect, and/or the circumstances surrounding the abduction to believe that activation of the alert will help in locating the child;
- The activation must be recommended by the local law enforcement agency of jurisdiction;

- The activation is not to be used for runaway children or family abductions **unless the investigation determines that the child is in immediate danger of serious bodily harm or death.**

4.1 OFFICER'S RESPONSIBILITIES

When officers become aware that a child is missing and have completed an initial investigation confirming that an abduction has taken place and the criteria have been met, he must immediately:

- 4.1.1 Make a radio broadcast consisting of available information about the description of the missing child, the suspect, any vehicle involved and possible whereabouts or destination.
- 4.1.2 Contact the on-duty Investigations Bureau supervisor (who will determine if an Amber Alert should be initiated).
- 4.1.3 Contact Records Section to log the missing and to obtain a Records Section number. All missing persons must be entered into LEADS/NCIC within 2 hours of obtaining report information from the reporting person (same as officer's reporting time). Complete a crime report detailing the circumstances surrounding the incident.
- 4.1.4 Obtain a photograph of the missing child if possible.

4.2 OPERATIONS DIVISION SUPERVISOR'S RESPONSIBILITIES

- Answer any other questions that the ACIM technician may have.

5.2 When necessary, the Operations sworn supervisor shall pass the case and all pertinent information on to the next shift's Watch Commander.

5.3 If the missing person is found, the responsible Operations sworn supervisor or his designee shall immediately notify ACIM.

5.3.1 A Case Follow-Up Report will be faxed to the department by ACIM.

RESCINDS November 01, 2002	SAFE HAVEN LAW – SURRENDERED NEWBORNS		

I POLICY

When in accordance with certain procedures, Ohio law provides that a parent who deserts a child less than 72 hours of age does not commit any criminal offense in the state of Ohio and may not be subjected to criminal prosecution for deserting the child. - 1.1 Officers shall immediately examine the child for indication of abuse or neglect.
- 1.2 Unless there is indication of abuse or neglect, no officer shall in any way attempt to identify or detain the person who has voluntarily surrendered the infant into his custody, nor shall he attempt to persuade the person not to desert the child. If there is apparent indication of abuse or neglect, this section does not apply and the officer shall take appropriate enforcement action.
- 1.3 Absent evidence of abuse or neglect, the officer shall ask for medical information about the child and the child’s parents from the person presenting the child. This information shall be entered on a SAFE HAVEN FOR NEWBORNS - MEDICAL HISTORY (TPD FORM 18.1) form.

DIRECTIVE 401.20	TOLEDO POLICE DEPARTMENT		
EFFECTIVE November 01, 2002	STANDARD OPERATING GUIDELINES		
REVISED December 1, 2012	CHIEF OF POLICE: <i>Michael C. Frensdorff</i>	PART: OPERATIONS	PAGES 1
RESCINDS November 01, 2002	CHAPTER: PATROL OPERATIONS	WALK-IN COMPLAINTS	

I POLICY

Since the department is decentralized through district stations, sub-stations and neighborhood offices, there are many accesses for the public to seek out an officer for assistance. Many of these walk-in complaints are to make out a report or report a crime. The following procedures shall be adhered to for handling citizens who indicate in some form or another they are being stalked, harassed or menaced in any way and that the suspect may be in the immediate area.

II PROCEDURES

1 WALK-IN COMPLAINT

1.1 When a citizen comes into a department facility to report a crime of stalking, menacing, domestic violence or similar crime, the reporting clerk/officer shall determine as quickly as possible if the suspect is in the immediate area.

1.1.1 If so, the clerk/officer shall:

- (a) Notify Communications of the situation and all pertinent information, including suspect description and vehicle description, if applicable.
- (b) Contact Records for a warrant check on the suspect and for possible vehicle description.
- (c) Ask the victim to stay until a unit arrives at the facility or apprehends the suspect.
- (d) Communications will enter a mask (priority two) and dispatch a unit to the area to look for the suspect or ask units if one is available to assist in the area.
- (e) The dispatched unit shall search the area for the suspect.
 - If found, the unit shall inquire through Communications to the initiating clerk/officer to determine if the suspect has any warrants or if there is further information they need to know.
 - If the suspect is not found, or if found and not booked, the dispatched unit shall report to the originating clerk's/officer's location to determine if the victim needs an escort home or further assistance.

1.2 In no instance shall the original reporting clerk/officer leave his area to check for the suspect or escort the victim to any location if he is a clerk, on light duty status, or is not wearing the prescribed soft body armor. If the officer does leave his assigned area, he shall notify Communications of that fact.

DIRECTIVE 401.21	TOLEDO POLICE DEPARTMENT		
EFFECTIVE June 20, 2003	STANDARD OPERATING GUIDELINES		
REVISED November 2, 2021	CHIEF OF POLICE: <i>Michael C. Froendle</i>	PART: OPERATIONS	PAGES 7
RESCINDS November 7, 2019	TASER		

I POLICY

Consistent with the department's policy of using only the level of force that is objectively reasonable to control or otherwise subdue violent or potentially violent individuals, the use of the TASER by trained personnel is authorized. The primary purpose for employing the TASER is to save human lives. Use of the TASER is authorized when it reasonably appears that an attempt to use other less-lethal options would endanger the safety of the subject, the officer, or any bystander in the area. It is not intended to be used as a general substitute for other less-lethal options that could be effectively utilized.

II DEFINITIONS

CEW – Conducted Electrical Weapon

SMART CARTRIDGE - X2 conducted electrical weapon (CEW) uses smart cartridges which contain a small circuit board that communicates the cartridge type (live vs. LS simulation), distance range of (15' or 25') and status (loaded vs. deployed) to the X2 CEW. The smart cartridges contain colorful confetti known as Anti-Felon Identification tags (AFIDS). Each piece of confetti is labeled with the serial number of the TASER cartridge.

TASER X2 – The TASER X2 is a two-shot CEW that is designed to provide the operator the capability to immediately follow-up ineffective shots with an additional cartridge deployment without reloading.

TASER 7 - The TASER 7 is a two-shot CEW that is designed to provide the operator the capability to immediately follow-up ineffective shots with an additional cartridge deployment without reloading.

TASER 7 CARTRIDGE - TASER 7 uses smart cartridges similar to those used by the X2. The TASER 7 cartridges are available in two different types for duty use; the 3.5 degree cartridge (stand-off cartridge - optimal range of 11-23 feet) or the 12 degree cartridge (QC cartridge -optimal range of 4-8 feet).

TASER 7 BATTERY - TASER 7 battery is rechargeable and serves as the device's power source and a storage device that stores and transfers firing data to Evidence.com when docked.

III PROCEDURES

1 USE OF THE TASER

Use of the TASER shall be consistent with its placement in the Response to Resistance Continuum as detailed in Directive 103.2/1 – GUIDELINES FOR RESPONSE TO RESISTANCE.

1.1 The TASER may be used to control a dangerous or violent subject when deadly physical force does not appear to be justified and/or necessary; or attempts to subdue the subject by other conventional tactics have been, or will likely be, ineffective in the situation at hand; or there is reasonable expectation that it will be unsafe for officers to approach within contact range of the subject.

When dealing with exhausted individuals or persons exhibiting symptoms of distress or agitated/excited delirium, once officers engage in apprehension procedures, it is important to minimize the duration of the physical struggle. These subjects are at significant risk of arrest-related death. Immediate medical attention may reduce this risk.

1.1.1 Examples of situations in which the TASER may be used include, *but are not limited to*:

- Dealing with mentally ill subjects who are perceived to be violent.
- Armed subjects.
- Warrant service where the subject is perceived to be violent.
- Violent persons under the influence of drugs and/or alcohol.
- Persons expressing the intent and having the means to commit suicide.

1.2 The primary risk of serious injury or death during CEW deployment occurs when the subject falls. Except in situations where the use of deadly force would be justified, the TASER shall not be used:

1.2.1 On any subject who may have been contaminated with combustible liquids.

1.2.2 When it is reasonable to believe that incapacitation of the subject may result in serious injury or death due to his physical location, such as on a ladder, roof, elevated platform, or in water more than several inches deep (potential for drowning).

1.2.3 On individuals who are in control of a motor vehicle.

1.2.4 On any detainee who is handcuffed, unless exigent, aggravated circumstances exist. The circumstances include, but are not limited to:

- The subject being uncontrollable due to size and/or physical ability.
- The subject poses an immediate threat of bodily harm to the officer, himself, or others present.
- Subject has mobility and has escaped physical custody and is placing themselves or others in extreme peril.

1.2.5 On any juvenile who is known to the officer to be, or appears to be under the age of 13.

1.2.6 On any elderly persons who is known to the officer to be, or appears to be over age 70.

1.2.7 On any woman who is known to the officer to be, or appears to be pregnant.

1.3 OTHER LIMITATIONS OF TASER USE

1.3.1 Officers shall not use the TASER in proximity to flammable gases, blasting materials, or any other highly combustible material (e.g., gasoline, natural gas, propane, meth labs) that may be ignited by use of the device.

1.3.2 A suspect or detainee shall only be exposed to the TASER for the minimum number of times required to gain control; however, no subject shall be exposed to the TASER more than three times unless exigent circumstances present a substantial risk of physical injury to the officer or to a suspect who has exhibited overly assaultive behavior. The officer shall articulate the exigent circumstance in the appropriate reports.

1.3.3 No suspect or detainee shall be exposed to the TASER by more than one officer at the same time. If simultaneous deployment occurs, the officers shall immediately communicate with each other and one of the TASERS shall be turned off.

1.4 Any detainee or suspect who has been exposed to the TASER shall be evaluated by hospital staff. EMS shall be summoned to the scene in accordance with subsections **401.21/3.2.2 OFFICER RESPONSIBILITIES WHEN TASER UTILIZED AND 401.21/4.1.1 SWORN SUPERVISOR RESPONSIBILITIES WHEN TASER UTILIZED** or in any other circumstances of serious injury.

1.5 The TASER shall not be pointed at any individual unless the officer involved reasonably believes it will be necessary to use the device.

1.5.1 The TASER shall not be treated as a toy, nor shall it be employed or utilized in horseplay.

2 **DEPLOYMENT OF TASERS**

2.1 TASERS shall be issued to, and used only by, officers who have demonstrated proficiency in the use of the TASER.

2.1.1 The Training Section shall have certified instructors conduct annual refresher training to all officers who are certified to use the TASER. Any officer who fails to meet the proficiency standards shall receive remedial training.

2.1.2 TASERS shall be carried in approved holsters on the support-side.

2.1.3 TASERS may be individually issued to officers as part of their official equipment or issued on a temporary basis from a pool of spare TASERS.

2.1.4 Removed

2.1.5 The preferred target areas are below the neck area for back shots and the lower center mass (below chest or heart area) for front shots. By lowering the point of aim to the lower torso on the front of the body by about four inches, the potential for Neuro-Muscular Incapacitation of the core muscles is often increased by splitting the belt line (one probe above the belt line the other below the belt line) of the body and targeting larger muscle groups.

2.1.6 Avoid intentionally targeting the CEW on sensitive areas of the body such as the head, throat, breast, chest or area of the heart, genitals, or known pre-existing injury areas without legal justification.

Preferred Target Areas in Blue

- 2.1.7 The TASER X2 or TASER 7 may be used by officers to display a “warning arc” as a method of deployment. A RESPONSE TO RESISTANCE REPORT shall be completed.
- 2.2 Only properly functioning department-issued TASERS and smart cartridges shall be carried in the field.
- 2.3 TASERS issued from a pool shall only be issued to qualified officers specifically designated by the section commander or his designee.
 - 2.3.1 The sworn supervisor issuing a TASER unit shall ensure that it includes two smart cartridges.
 - 2.3.2 TASERS issued from a pool shall be appropriately logged on the TASER LOG – POOL ISSUED (TPD FORM 15.12).
- 2.4 All TASERS (individually issued and issued from a pool) shall be tested for readiness at the start of each shift. This readiness testing shall be conducted as part of the roll call procedure. The testing shall be conducted as follows:
 - 2.4.1 Removed
 - 2.4.2 TASER 7
 - (a) Remove the TASER 7 from the holster
 - (b) Ensure that the safety switch is in the down (SAFE) position
 - (c) TASER 7 is to be put in the test mode.
 - (d) TASER 7 – Check the remaining battery life percentage on the CID Central Information Display). Replace the battery if the percentage is less than 20%. Place the TASER 7 battery in the charging dock if the battery shows low battery, or every 30 days, whichever comes first.
 - (e) Depress one of the two arc buttons and perform the spark test for A FULL FIVE SECONDS. Check for visible spark between the electrodes and a rapid spark rate.
 - (f) Check for any fault icons (in the upper right hand corner of CID) If there is a fault icon, forward the TASER to the TASER Coordinator in an inter-department envelope with a SUPERVISORS REPORT (TPD FORM 20.7) detailing the issue. The TPPM or battery shall be left installed in the TASER

and tape applied over the safety before placing it in an inter-department envelope.

Place the safety switch in the down (SAFE) position.

- a. Take each smart cartridge out of the TASER and inspect them for cracks, damage, or missing blast doors. If there is damage, forward the cartridge to the TASER coordinator and take out a new cartridge from the district's spare pool.
- b. Correctly replace the smart cartridges in the TASER.
- c. When instructed by a sworn supervisor, the officer shall then point the TASER X2 or TASER 7 in a safe direction (usually toward the floor) and place the safety in the up (FIRE) position.
- d. The officer shall check to see if both cartridges are correctly communicating with the TASER X2 or TASER 7.
- (g) Removed.
- (h) All other TASERS discharges shall continue to be documented as described in Directive 401.21/3 – OFFICER RESPONSIBILITIES WHEN TASER UTILIZED
- (i) Should the TASER X2 or TASER 7 not perform satisfactory or fails, due to a mechanical issue, forward the TASER to the TASER Coordinator in an inter-department envelope with a SUPERVISORS REPORT detailing the issue. The TPPM or battery shall be left installed in the TASER and tape applied over the safety before placing it in an inter-department envelope.

- 2.5 Officers shall only use department issued TASERs, smart cartridges, holsters and accessories. No other parts or accessories may be used. The only exception is the alternate TASER holster as outlined in Directive 303.2/7.9.4 –UNIFORMS AND EQUIPMENT – TASER HOLSTERS.

3 OFFICER RESPONSIBILITIES WHEN TASER UTILIZED

- 3.1 Request the response of a sworn supervisor.
 - 3.1.1 The officer shall advise the sworn supervisor that a subject has been exposed to a CEW and relate the approximate time the action occurred.
- 3.2 Treat persons who have been subjected to the TASER, or the probes, as follows:
 - 3.2.1 Officers shall wear latex gloves when removing the probes from the skin. Sanitizing gel or spray shall be administered to each puncture site along with a Band-Aid (if needed) as soon as practical.
 - 3.2.2 If the barbed shaft is imbedded so deep as to prevent the probe from hanging loosely, or if the probe struck the subject in the head, groin, or woman's breast, the probe shall NOT be removed. EMS shall be summoned to examine the person and make a determination as to treatment. The person shall also be evaluated by hospital staff.
 - 3.2.3 All other medical considerations shall utilize the procedures outlined in Directive 103.2/6 - RENDERING MEDICAL AID AFTER USE OF FORCE.
- 3.3 The smart cartridge and probes used shall be tagged and placed into evidence as follows:
 - 3.3.1 As the probes may be contaminated with blood, they shall be handled only while wearing latex gloves. See Directive 401.12 – COMMUNICABLE DISEASES

401.21 TASER

AND CONTAMINATION for biohazard precautions.

- 3.3.2 The probes shall be placed back into the smart cartridge portals - pointed end first, and secured within the smart cartridge. The wires shall then be loosely collected, NOT wound around the cartridge, and the entire used cartridge placed into a heat sealed evidence bag. The heat sealed evidence bag shall be STAPLED shut and NOT heat sealed. Standard evidentiary booking procedures shall then apply.
- 3.4 The serial numbers of both the TASER X2 or TASER 7 and the expended cartridge(s) shall be recorded in the crime report.
- 3.5 TASER discharges shall be documented as follows:
 - 3.5.1 Discharges involving a person or animal, (whether intentional or accidental, warning arc, and whether hit or miss), require the completion of a RESPONSE TO RESISTANCE REPORT. Careful attention shall be paid to the description of any subject injury - both initial and secondary, and the circumstances surrounding the use of the TASER.

5 CANINE RESPONSE

- 5.1 Canine teams shall patrol in modified, specially-equipped vehicles designated for such duty and will be clearly marked "K-9 UNIT". The canine teams shall respond to calls for service throughout the city and when not engaged in canine activity shall assist their shift's patrol officers.

Handlers must consider the totality of the circumstances known to them when considering the use of their canines. Canine handlers shall utilize reasonable means to affect suspect apprehension without the suspect incurring a canine bite. **Any situation in which a deployed canine bites a person shall be considered a use of force. The ACTION-RESPONSE REPORT, TPD FORM 29.3, shall be completed by the canine handler for all canine-bite incidents.**

- 6.1 Handlers shall not utilize the canine in bite situations for misdemeanants who do not pose an immediate threat to officers and/or citizens.
- 6.2 Canine teams shall be deployed and utilized only for tasks in which they have received departmental training.

- 6.3 Before deploying the canine to make a physical seizure, the handler shall consider the severity of the crime, whether the suspect poses an immediate threat to officers or citizens, and whether the suspect is actively resisting or attempting to evade arrest by hiding or fleeing. Prior to releasing the canine, and throughout the deployment of the canine, the handler will ensure that:
- a) Upon the immediate release of the canine, the canine handler will attempt to notify Communications that their canine is deployed on an apprehension.
 - b) There are no citizens present who will be endangered by the release of the canine.
 - c) A verbal warning will be given twice by the handler prior to releasing the canine, unless exigent circumstances exist that would endanger the handler and/or officers by doing so. This warning will give notice that the canine will be released if instructions are not followed to stop, surrender, and/or reveal themselves.
 - d) The canine handler must maintain visual contact with the canine throughout the pursuit. In the event visual contact is about to be lost, the handler will immediately recall the canine.
 - e) If the suspect surrenders prior to contact, the handler will immediately recall the canine.
 - f) Handlers will appraise each situation and make a decision whether to deploy their canine based upon their training, current law, and department policy regarding Action-Response.

7 BUILDING SEARCHES

- 7.1 Canine teams will be trained in searching buildings for persons attempting to avoid apprehension. When it is determined that an intruder may be present, the outside perimeter should be secured. **No officers shall enter the building until the canine team arrives.** Only the canine team and one back-up officer shall enter the building. Deviation from this policy is permitted only with the approval of the canine handler.
- 7.2 The canine handler will verbally alert the person(s) inside the building. This warning will include notice of the presence of the police and its intent to release a police canine in the building if instructions are not followed for persons to surrender and/or reveal themselves. Warnings shall be made at least (2) two separate times to provide the person(s) an opportunity to surrender and/or reveal themselves. Adequate time shall be given for a response to the warnings. If the person inside the dwelling refuses to respond or surrender, the canine shall be released to search the building.
- 7.3 The decision to allow the canine to search on or off leash will be left to the discretion of the canine officer, and will be dependent upon existing conditions. The handler should be cognizant of the environment (i.e., environmental and geographical hazards, etc.) **prior** to taking the canine off-leash. The handler shall always consider officer safety, the severity of the crime under investigation, and the possibility that an innocent person(s) may come into contact with the canine while the canine is off-leash.

- 8.2 During area searches and tracking of suspects, patrol units should secure a perimeter and attempt to clear unauthorized persons from the area to be searched.
- 8.3 Verbal warning shall be given periodically during the search unless exigent circumstances exist that would endanger the handler and/or other officers. One officer may accompany the canine team as back-up and cover. Deviation from this policy is permitted only with the approval of the canine handler.
- 8.4 Patrol units shall not enter the established perimeter unless ordered to do so by an Operations Division supervisor. The backup officer will keep perimeter units updated with their location and provide direction of the tracking by radio communication. This will allow the perimeter units to move accordingly in an effort to keep the perimeter secure. **All officers having contact with the deployed canine shall maintain their perimeter until the canine is under the control of the canine handler.**

9 VEHICLE SEARCHES

- 9.1 The use of a canine team for narcotics detection in vehicles is a valuable tool in drug enforcement. The canine's ability to alert on a narcotic is directly related to the availability of the scent and the proficiency of the canine.
- 9.2 The canine handler shall be responsible for ensuring that narcotics detection is initiated and performed safely. No detection operations shall occur if the canine handler has deemed the area to be unsafe.
- 9.3 It shall be the responsibility of the requesting officer or back-up officer(s) to maintain observation of the vehicle's operator and occupants. The canine handler must be attentive to the canine during narcotics detection.
- 9.4 All vehicle occupants shall be removed prior to the canine's entering a vehicle's interior.
- 9.5 When the canine enters a vehicle's interior for narcotics detection, the officer that requested the canine shall take custody of any narcotics, contraband or paraphernalia found by the canine and immediately advise the canine handler of its location.
- 9.6 It shall be the responsibility of the requesting officer to determine if an arrest will be made and to ensure that any evidence/contraband is booked per department guidelines in the Property Management Unit.

2.3 NOT ABLE TO BE ADMINISTERED, NOT APPLICABLE OR VICTIM INCAPACITATED

If for any reason the DA-LE is unable to be administered, the reason shall be noted in the crime report. If the completion of the form is **NOT APPLICABLE** (no crime of violence) or the victim is **INCAPACITATED** (severe intoxication, severe injuries, etc.), then the corresponding boxes on the DA-LE form shall be checked and a reason must be given as to why the form was not filled out in the **Justification for Further Review Field**.

2.4 CONTACT CRISIS RESPONSE TEAM FOR HIGH RISK VICTIMS

An incident shall be considered high risk when **seven or more questions** on the DA-LE supplemental report are answered affirmatively. The victim should be told their situation is extremely dangerous and they are at high risk for intimate partner violence (IPV). High Risk cases shall prompt **the officer**, not the victim, to call **the Crisis Response Team (CRT)**, see Directive 401.4/4.2 CRISIS RESPONSE TEAM. CRT staff will determine whether they will come to the scene, proceed by telephone conversation or follow-up with the victim at a later date.

2.4.1 If the victim wants a CRT advocate to come to the scene, the officer(s) shall stay with the victim until the CRT advocate arrives and completes their consultation. Officers may leave once the CRT advocate states the officer(s) are no longer needed. If an emergency situation arises and the officer(s) has to leave the scene before the advocate’s arrival, Communications shall be

401.31 DA-LE (DANGER ASSESSMENT FOR LAW ENFORCEMENT)

notified. Communications will contact the advocate, explain the situation, and will find out how the advocate wishes to proceed.

2.5 **VICTIM DECLINES CRISIS RESPONSE TEAM SERVICES**

If the victim declines CRT services, the officer(s) shall provide the CRT the victim's name and phone number and inform them the victim is considered high-risk for (IPV). A CRT advocate will attempt to contact the victim at a later date.

2.5.1 **CRT** shall be contacted for any victim regardless of gender.

2.6 **OVERRIDE**

In instances where the officer believes the victim is in a high risk situation, but fewer than seven questions are answered affirmatively or the questioning was unable to be completed, officers shall use their professional judgment (i.e., totality of the circumstances through observations, severity of the incident, level of fear and/or previous encounters, etc.) and **override** the outcome of the DA-LE assessment by checking the "further review" box and documenting their justification on the DA-LE SUPPLEMENTAL REPORT.

2.6.1 **CRT** shall be contacted and informed that officers have overridden the DA-LE and the victim is considered high risk for IPV. CRT staff will determine whether they will come to the scene, proceed by telephone conversation or follow-up with the victim at a later date. (If an advocate is called to the scene, the procedures listed under Directive 401.31/2.4 CONTACT CRT FOR HIGH RISK VICTIMS shall be followed.

2.6.2 If the victim declines **CRT** services, officers shall contact **CRT**, provide the victim's name and phone number and provide a brief explanation of the situation.

2.7 **DOMESTIC VIOLENCE/DA-LE INFORMATION SHEET**

Officers shall provide to the victim the DOMESTIC VIOLENCE/DA-LE INFORMATION SHEET (TPD FORM 38.16) which lists the contact phone numbers for area domestic violence service providers and information on the steps to prosecute an offender. The informational sheet can be found in E-Forms.

2.8 **NOTIFY SUPERVISOR**

Once all reports are completed and the victim is determined to be **high risk, or if an override was completed**, officers shall immediately notify a supervisor that DA-LE was administered. Once approved by the supervisor, the reports will be sent to CRS and copies will be sent to the Special Victims Unit and to the Court Liaison Unit via NORIS.

RESCINDS	GUNSHOT DETECTION TECHNOLOGY		

I PURPOSE

The purpose of this policy is to establish guidelines for the use of and response to a gunshot detection and alert system.

II POLICY

As part of the ongoing effort of the Toledo Police Department to reduce violent crime, the department utilizes gunshot detection technology. The technology is intended to enhance the ability to effectively respond and investigate violent crime involving illegal gunfire. Through the placement of sensors in designated areas, the location of gunfire can be conveyed and dispatched as a crime in progress. The system is designed to assist with evidence collection as well as aid in the investigation and prosecution of criminal activity.

III PROCEDURES

All personnel shall be mindful that gunfire detection technology allows for advance notification of gunfire before any calls for service are received. This technology is capable of providing a specific and reliable location of gunfire even when the incident is not reported or is only heard. The rapid response to potential shooting incidents will increase the ability to apprehend armed suspects, secure witnesses and preserve evidence. Rapid response may also be critical in the preservation of life.

1 OFFICER RESPONSIBILITIES

- 1.1 All patrol officers equipped with a Mobile Data Terminal (MDT) shall log into the gunshot detection alert system at the beginning of their tour and remain logged on until the end of their tour. When gunfire is detected, MDT users and the dispatcher will be alerted simultaneously, within 30 to 60 seconds of the incident.
- 1.2 An incident will be entered for a code 3 response and treated as a serious crime in progress call. Officers cannot cancel supervisors as their response to the scene is required.
- 1.3 Dispatchers will enter a gunshot detection alert "SSA" incident in CAD based on the closest related address. Whenever possible, dispatchers will relay the location of the incident based on the "dot on the map" (i.e., on the sidewalk in front of the house, in the back yard, north of the fence line, etc.).

- 1.4 To enhance situational awareness and improve officer safety, officers shall listen to the audio recording of the gunfire prior to arriving on scene.
- 1.5 Responding units shall ensure that their in-car and body worn cameras are activated as they make a safe and tactical approach to the scene, treating the incident as a crime in-progress in the same manner as a holdup alarm or a violent crime.
 - 1.5.1 Recordings of the scene shall be marked as "Evidence".

- 1.7 The search shall also include an examination of the scene for projectile strikes, projectiles, and any other relevant evidence. Officers shall be mindful that their in-car and body worn camera video footage may contain data pertinent to the investigation.
- 1.8 Officers will be provided contact cards by the on scene supervisor. The supervisor will direct the officer(s) with regard to the placement of the cards within the canvass area.
- 1.9 Unless it has been determined that the alert was not the result of illegal gunfire, such as fireworks, a crime report shall be completed on all alerts from the system. If there is no other crime(s) to report, officers shall title the report "Discharge within City Limits". That report, at a minimum, shall include the following information:
 - 1.9.1 Suspect information, including identification, if he/she was contacted or arrested.
 - 1.9.2 Documentation of any evidence located and/or recovered.
 - 1.9.3 Identity and location of witnesses.
 - 1.9.4 The gun shot detection system ID number generated by the system shall be documented in the report.
 - 1.9.5 The number of contact cards distributed shall be documented.

2 SUPERVISOR RESONSIBILITIES

- 2.1 The supervisor shall ensure that all necessary notifications are made, as well as adhere to the gunshot detection technology response procedures.
- 2.2 The supervisor shall possess contact cards and ensure that they are disseminated as required. As a general rule, the cards shall be left at residents and/or businesses within the canvass area. In a residential area, this shall include, at minimum, two houses in all directions of the alert location. This includes properties where contact was or wasn't made.
- 2.3 In addition to ensuring that existing reporting requirements are completed, the supervisor shall complete an UNUSUAL INCIDENT REPORT (TPD FORM 40.0) in the following circumstances:
 - 2.3.1 An illegal gunfire incident occurred in the detection area but did not generate a gunshot detection alert.
 - 2.3.2 A person was shot or a major arrest was made.

3 INVESTIGATOR RESPONSIBILITIES

3.1 Management of a crime scene continues to be dictated by the policy set forth in Directive 403.1 CRIME SCENE MANAGEMENT. The Gun Crime and Intelligence Task Force (GCITF) will be responsible for gunshot detection alert follow-up investigations, separate and apart from any criminal investigation.

3.1.1 Investigators, at times, may request assistance from personnel outside of the task force.

3.3 Investigators assigned to follow-up on incidents involving a gunshot detection alert shall review the incident via the Investigator portal and utilize all historical data captured that is pertinent to the investigation.

3.5 Audio files may be saved in MP3 format to a CD or DVD. When this is done, the investigator shall review the original MP3 recording. Upon archiving a copy of the MP3 to CD or DVD, the investigator shall review the archived MP3 copy to verify that it transferred accurately and completely. The disc shall be entered into evidence and maintained in the property room. The investigator shall complete a supplemental report documenting the acquisition of the audio files and their submission to the property room as evidence.

3.6 A detailed forensic report shall be requested, via the Investigator portal, in all incidents involving the shooting of an individual, including police officer involved shootings where gunfire detection data was captured.

3.7 Requestors not receiving a detailed forensic report within two weeks of requesting the report shall contact the gunshot detection company to follow up on the status of the report completion.

3.8 When receiving a detailed forensic report, the requestor shall save the report to CD or DVD and place the disc into the property room as evidence. A supplemental report shall be completed, documenting the request, and the acquisition of the report and subsequent submission of the report to the property room.

IV CRIME ANALYSIS & REVIEW

When reviewing gunfire related statistical data collected from the gunshot detection and alert system coverage area, the Toledo Police Department's Criminal Intelligence Section shall employ practices that accurately measure the performance and effectiveness of the system.

Commanders of special units detailed with investigating and deterring crimes involving gunfire shall implement a practice of periodically reviewing historical data to identify patterns of gunfire activity and, where applicable, develop an appropriate response.

V CONFIDENTIALITY

The location of gun detection sensors, as well as the area covered, will not be disclosed to individuals outside the Toledo Police Department, except as directed by the chief of police or his/her designee.

DIRECTIVE 401.33	TOLEDO POLICE DEPARTMENT		
EFFECTIVE June 9, 2022	STANDARD OPERATING GUIDELINES		
REVISED	CHIEF OF POLICE: <i>Michael C. Inoué</i>	PART: ADMINISTRATION	PAGES 3
RESCINDS	CHAPTER: ADMINISTRATIVE SUPPORT	LICENSE PLATE READERS (LPR)	

I POLICY

The policy of the Toledo Police Department is to utilize LPR technology to capture and store digital license plate data and images while recognizing the established privacy rights of the public. All data and images gathered by the LPR system are for the official use of this department, and because data may contain confidential information, it is not open to public review. Only properly trained sworn officers and authorized department personnel are allowed access to the LPR system or to collect LPR information.

The purpose of this policy is to provide guidance for the capture, storage, and use of digital data obtained through the use of License Plate Reader (LPR) technology.

II DEFINITION

LICENSE PLATE READER (LPR): A device that uses cameras and computer technology to compare digital images to lists of known information of interest.

LPR OPERATOR: Trained department members who may utilize LPR system/equipment. LPR operators may be assigned to any position within the department, and the LPR Administrator may order the deployment of the LPR systems for use in various efforts.

HOT LIST: A list of license plates associated with vehicles of interest compiled from one or more databases including, but not limited to, NCIC, DMV, Local BOLO's, etc.

DETECTION: Data obtained by an LPR of an image (such as a license plate) within public view that was read by the device, including potential images, and information regarding the location of the LPR system at the time of the LPR's read.

HIT: Alert from the LPR system that a scanned license plate number may be in a law enforcement database.

III PROCEDURES

1. ADMINISTRATION

The LPR technology allows for the automated detection of license plates along with identifiers through the Toledo Police Department's LPR system and the vendor's vehicle

401.33 LICENSE PLATE READERS

identification technology. The technology is used to convert data associated with vehicle license plates and vehicle descriptions for official law enforcement purposes, including identifying stolen or wanted vehicles, stolen license plates and missing persons. It may also be used to gather information related to active warrants, homeland security, electronic surveillance, suspect interdiction and stolen property recovery.

2. LPR ADMINSTATOR

- 2.1 Ensures that training requirements are completed for authorized users.
- 2.2 LPR system monitoring to ensure the security of the information and compliance with applicable privacy laws.
- 2.3 Ensures that procedures are followed for system operators and to maintain records of access.

3. OPERATION OF LPR SYSTEM

Use of an LPR is restricted to the purposes outlined below. Department personnel shall not use or allow others to use the equipment or database records for any unauthorized purpose.

- 3.1 An LPR shall only be used for official law enforcement business.
- 3.2 An LPR may be used in conjunction with patrol operation or criminal investigation. Reasonable suspicion or probable cause is not required before using an LPR.
- 3.3 Partial license plates and vehicle descriptors reported during major crimes can be entered into the LPR system in an attempt to identify suspect vehicles.
- 3.4 If practicable, the officer shall verify an LPR response before taking enforcement action that is based solely on an LPR alert. Because the LPR alert may relate to a vehicle and may not relate to the person operating said vehicle, officers are reminded that they need to have reasonable suspicion and/or probable cause to make a stop of any vehicle or person.
- 3.5 Occasionally, there may be errors in the LPR system's read of a license plate. Therefore, an alert alone shall not be a basis for police action, other than following the vehicle/person of interest.

4. HOT LISTS

Hot lists shall be obtained or compiled from sources consistent with the purposes of the LPR system set forth in this policy.

- 4.1 License plate and suspect information entered into the LPR system will contain the following information:
 - Department personnel's name
 - Related case number
 - Short synopsis describing the reason for input

4.2 Prior to a stop based on an alert, department members shall undertake the following:

- **Verify the status on a Hot List.** An officer must receive confirmation the license plate is still stolen, wanted, or otherwise of interest before proceeding (absent exigent circumstances).
- **Visually verify license plate number.** Officers shall visually verify that the license plate of interest matches identically with the image of the license plate number and state captured by the LPR.

5. **LOGIN/LOG-OUT PROCEDURE**

All users will be required to have individual credentials to access the system.

6. **PERMITTED USE**

It is a violation of this policy to use the LPR system or associated scan files or hot lists for any personal use. Anyone who engages in an impermissible use of the LPR system or associated scan files or hot lists may be subject to:

- Criminal prosecution
- Civil liability, and/or
- Administrative sanctions, up to and including termination, pursuant to and consistent with department policies.

7. **LPR AUDITS**

The Criminal Intelligence Section will audit a sampling of the LPR system utilization from the prior 12-month period to verify proper use in accordance with the above-authorized uses.

8. **RELEASING LPR DATA**

LPR data may be shared only with other law enforcement or prosecutorial agencies for official law enforcement purposes or as otherwise permitted by law.

DIRECTIVE 402.1	TOLEDO POLICE DEPARTMENT		
EFFECTIVE November 1, 2002	STANDARD OPERATING GUIDELINES		
REVISED January 4, 2019	CHIEF OF POLICE: <i>Michael C. Proendle</i>	PART: OPERATIONS	PAGES 12
RESCINDS April 1, 2016	ARREST, BOOKING AND ALTERNATIVES TO ARREST		

I POLICY

Only officers shall execute arrest warrants while representing the Toledo Police Department. Any arrest made by officers without a warrant shall be made in compliance with the Ohio Rules of Criminal Procedure and the Ohio Revised Code 2935. When the arrest is made without a warrant, pursuant to ORC 2935.07, the officer shall inform the person arrested of such officer's authority to make the arrest and the cause of the arrest. When a person is engaged in the actual commission of a criminal offense when the arrest occurs, it is not necessary to inform that person of the cause of arrest. Criminal arrests, by officers of this department, will be made in conformance with the specific judicial decisions governing the rights of the accused, arrest, search and seizure.

II DEFINITIONS

OPEN WARRANT – An open warrant is one that is issued by the Clerk of Courts after a complaint is filed against an individual alleging a criminal act.

EXAMPLE: A citizen files a criminal damaging complaint against another person and the victim signs the complaint. The other person is notified by the Records Section to set up a court date to answer the charges. If that person does not appear within the time specified, a warrant is issued on the complaint. Per Criminal Rule 4(A) (2), a summons may be issued in lieu of arrest when a police officer receives this type of warrant unless a prohibition to summons has been authorized and is noted on the warrant form.

ATTACHMENT – Also known as “bench warrant.” This type of order is only issued by a judge, usually for failure to appear (FTA). Attachments may be issued for any misdemeanor offense.

III PROCEDURES

1 GENERAL

1.1 MIRANDA RIGHTS

When a suspect is taken into custody and interrogated, officers, preferably the Investigative Services Division investigator shall advise the suspect of his rights under Miranda, prior to asking any questions as follows:

- You have the right to remain silent.
- Anything you say can and will be used against you in a court of law.
- You have the right to speak to an attorney and have him present during any questioning.
- If you cannot afford to hire an attorney, one will be appointed to represent you before any questioning.

402.1 ARREST, BOOKING AND ALTERNATIVES TO ARREST

- The above rights stay with you and may be claimed now or at any time during the questioning.
- Do you understand each of your rights?

Officers shall advise the suspect of these rights prior to any questioning, regardless of whether the suspect is in custody on a misdemeanor or a felony offense.

1.2 **CONSULAR IMMUNITY**

By treaty, consular officers of foreign nations are immune from arrest for criminal and traffic offenses unless ordered by a federal magistrate. Once identified, consular officers will not be unnecessarily detained, and they will, at all times, be afforded the respect and courtesy that their position demands. Consular immunity does not normally extend to members of the consular officers' families or to employees of consular offices.

1.3 **ARREST OF MUNICIPAL EMPLOYEES**

1.3.1 When a municipal employee of the City of Toledo is arrested for any offense, the arresting officers shall prepare a SERGEANT'S REPORT (TPD FORM 20.7) stating the following:

- Name of the employee arrested.
- Department the arrested employee works for.
- Date and time of arrest.
- Offense charged.

1.3.2 The arresting officer shall forward the SERGEANT'S REPORT and copies of all related reports to the commander of the Personnel Section.

1.3.3 The commander of the Personnel Section shall be responsible for making the proper notifications. Any person making inquiries into the arrest of a city employee shall be directed to the Department of Human Resources.

1.4 **ARREST OF FOREIGN NATIONALS**

1.4.1 **FOREIGN NATIONAL** – A foreign national is any person who is not a citizen of the United States.

1.4.2 The City of Toledo, empowered as a municipal corporation within the State of Ohio and bound by the laws of the federal government, has a legal obligation to abide by international treaties that affect the way the Department of Police Operations must handle foreign nationals who are either detained or arrested by department personnel.

- (a) A detention occurs concurrent with that point in an investigation where Miranda Rights are applicable.
- (b) For the purpose of this section, traffic citations and field interviews do not constitute a detention.

1.4.3 Any officer who arrests or detains a foreign national shall obtain the person's name, DOB, and country of origin and notify the on-duty Records Section supervisor of the incident. In all cases, the completed CRIME REPORT (TPD FORM 38.1) or INCIDENT REPORT (TPD FORM 38.12) shall indicate the name of the supervisor who was advised and informed of the details of the incident.

1.4.4 Officers shall also inform the detained/arrested foreign national of his right to contact his embassy or government representative.

1.4.5 **RECORD OF DETENTION TO BE MADE**

- (a) In all cases, where a foreign national is arrested or detained, the Records Section supervisor will make a record of the incident.

ARREST, BOOKING AND ALTERNATIVES TO ARREST 402.1

- (b) The Records Section commander shall be responsible for implementing and maintaining a procedure for compliance with the actual State Department requirements of this portion of the Vienna Convention.
- (c) In certain cases as proscribed by treaty, notification must be made to the person's embassy regardless of whether he wishes contact to be made.
- (d) The Records Section will maintain the list of these countries as well as embassy phone numbers.
- (e) The Records Section supervisor is responsible for ensuring that notification is made in compliance with the bureau order guidelines.

1.5 REVOCATION OF ARREST

- 1.5.1 In any instance where an officer has arrested a person, either by warrant or on-view, and it is later determined that the person should be released without charges being filed, the following procedures shall be followed:
 - (a) A sworn supervisor shall be summoned to the scene. Patrol officers shall not release any detainee without first receiving authorization from a sworn supervisor. To expedite the release of the arrested person, a sworn supervisor shall explain the circumstances of the release to the person and make immediate arrangements to have him returned to a location of his choosing, within reason.
 - (b) The sworn supervisor shall cause a CRIME REPORT to be completed by the arresting officers and the sworn supervisor shall complete an UNUSUAL INCIDENT REPORT (TPD FORM 40.0). The details of the incident, the 'arrest' and the subsequent release, shall be indicated in these reports.
 - (c) If the detainee has been taken to the Investigations Bureau, the investigator shall also complete a SUPPLEMENTAL CRIME REPORT (TPD FORM 38.3) detailing the circumstances of the incident.
- 1.5.2 When a mistaken arrest is discovered after the person has been booked, the officers discovering the error shall immediately notify the watch commander from the appropriate geographic area. He shall have the responsibility to ensure the following:
 - (a) Coordinate the immediate release of the person with the Lucas County Corrections Center (LCCC).
 - (b) Explain to the arrested person why he is being released and make the necessary arrangements for transportation, if needed.
 - (c) Obtain copies of all reports in regard to the arrest and require supplemental reports from all officers involved as soon as practical.
 - (d) Complete an UNUSUAL INCIDENT REPORT detailing the incident.
- 1.5.3 When a mistaken arrest is discovered after the detainee has been released through a judicial proceeding, the following procedure shall be followed:
 - (a) Complete an UNUSUAL INCIDENT REPORT detailing the incident.
 - (b) Department personnel becoming aware of such an arrest shall immediately notify, in writing, their division commander, through ascending levels of review.
 - (c) Division commanders shall review all available reports and documents to determine the cause of the inappropriate arrest. Once a determination is made, he shall notify the chief of police and shall transfer all documents and reports to the proper bureau commander who shall then conduct an investigation.

402.1 ARREST, BOOKING AND ALTERNATIVES TO ARREST

- 1.5.4 In all instances where there is a revocation of an arrest, bureau commanders shall ensure that copies of all reports are directed to the Court Liaison Unit and the Office of the Chief of Police.

2 FELONY BOOKING

2.1 FELONY CASE SCREENING

2.1.1 Whenever an officer arrests a person based on information received from the Records Section indicating the person is wanted on a felony warrant or attachment, the officer shall notify the Investigative Bureau desk personnel of the felony arrest to inquire if any on-duty investigator wishes to interview the prisoner and for logging purposes.

- (a) Officers shall transport the detainee to the Investigations Bureau for DNA Sample Collection and to obtain a FELONY BOOKING AUTHORIZATION FORM (TPD FORM 61.2).

2.2 ARREST NOTIFICATION, FELONIES

Whenever an officer arrests and/or transports a person charged with a felony, such detainee shall first be taken to the appropriate Investigations Section for processing. The on-duty Investigations Bureau supervisor shall be responsible for the following:

- 2.2.1 Interrogation of the detainee.
- 2.2.2 Review of the facts of the case with arresting/transporting officers.
- 2.2.3 Notification of the on-call Lucas County prosecutor, if necessary.
- 2.2.4 DNA sample collection if the detainee's Computerized Criminal History check (CCH) is not flagged.
- 2.2.5 Completion of a FELONY BOOKING AUTHORIZATION FORM. Transporting officers shall receive a copy of the FELONY BOOKING AUTHORIZATION FORM for booking purposes at LCCC. No felony detainees will be accepted by booking officers without a completed form.

2.3 DNA SAMPLE COLLECTION, FELONIES

The Toledo Police Department shall ensure compliance with the State of Ohio requirements to collect DNA samples from all adults arrested for a felony crime and shall adhere to the following:

- 2.3.1 A specified Investigative Services Division sworn supervisor shall be assigned to act as liaison to the Ohio Attorney General to handle all administrative matters related to the collection of DNA from adults arrested for a felony crime.
- 2.3.2 The Office of the State of Ohio Attorney General shall provide DNA collection kits for use by the Toledo Police Department. Each kit shall be comprised of a DNA collection instrument (swab), a Demographic Information Card, a Transport Pouch (evidence envelope), and a postage paid pre-addressed envelope.
- 2.3.3 Prior to completing the Demographic Information Card, the arresting officer shall perform a CCH. If the CCH check reveals that the detainee has a positive DNA flag, a DNA sample and card are not required.
- 2.3.4 If the CCH check reveals that no DNA record is available for this detainee, the arresting officer shall transport the detainee to the Investigations Bureau for DNA processing.
- 2.3.5 The Investigative Services Division investigator will be the collector and shall

complete the Demographic Information Card and obtain the DNA sample only if an investigator has been assigned to the case. If the incident only involves a warrant service, or an investigator is not involved in the on-view case, then the arresting officer(s) shall be responsible for obtaining the DNA sample and completing the Demographic Information Card.

2.3.6 **Completion of the Demographic Information Card**

- (a) The collector shall complete the Demographic Information Card with the requested information as indicated.
- (b) The "ITN#" is the Incident Tracking Number and is found on the ten-print card submitted to the Bureau of Criminal Identification and Investigation (BCI&I) (added during processing).
- (c) The arresting officer shall, upon completion of the booking process, immediately contact the Investigations Services Division and report the detainee's ITN# to the collector. The ITN# is needed throughout the DNA collection process.
- (d) The "BCI&I#" is found by completing a CCH check.
- (e) Indicate in the "Subject Verified By" section how the detainee was positively identified.
- (f) In the section on race, "Caucasian" is equivalent to "white", and "African-American" is equivalent to "black".
- (g) The "Qualifying Offense" section requires the numerical Ohio Revised Code offense (e.g., an offense of Rape requires "2907.02" to be written in that section; do not write out the word "rape"). If the detainee is being booked on more than one felony offense, the other offense(s) shall be noted on the back of the Demographic Information Card by name and offense code.
- (h) Indicate in the "Sample Collected Per" section that the detainee is an "Arrestee".
- (i) The detainee's signature shall be obtained. Refusals to sign may be indicated by printing the word "Refused" in that section.
- (j) Record the date and the Toledo Police Department's ORI number (OH0480700) where indicated.
- (k) Obtain the detainee's right thumb print using black ink, and place it in the space indicated. If the right thumb print is of poor quality, a new print shall be placed on the back of the card. Any prints on the back of the card shall be labeled for what they are (e.g. right thumb, left ring finger). If the right thumb is for any reason not available for printing, they shall use another digit and label it appropriately.
- (l) The collector shall print and sign in the space indicated.

2.3.7 **DNA Collection Procedures**

During processing, the collector shall:

- (a) Wear protective latex or latex-like gloves whenever handling the buccal DNA collection swab. Eye protection shall also be worn.
- (b) Print the name of the detainee and the detainee's BCI number on the handle of the swab where indicated.
- (c) Take caution to avoid cross-contaminating the swab by coughing, sneezing, or talking over the collection portion of the swab.
- (d) Instruct the detainee to open his mouth wide, whereupon the collection portion of the swab can be placed flat against the inside of the detainee's

402.1 ARREST, BOOKING AND ALTERNATIVES TO ARREST

cheek.

- (e) Beginning at the back of the mouth, drag the swab firmly against the inside of the cheek toward the opening of the mouth. When done correctly, there will be a noticeable bulge in the cheek area as it is being swabbed.
- (f) Repeat this movement seven times, always moving in the same direction. Do **NOT** rub the collection swab back and forth or in circles.
- (g) Upon completion, push the plastic slide cover over the collection paper.
- (h) Place the swab into the biohazard envelope labeled "Transport Pouch". It is important that the desiccant from the pouch is not removed as that serves as a drying agent to protect the sample from humidity.
- (i) Seal and label the pouch with the collector's name, id number, and date.
- (j) Place the pouch and Demographic Information Card into the pre-printed mailing envelope and seal it.
- (k) Deposit the sealed preprinted mailing envelope in the mailbox located in the Safety Building Report Room.
- (l) The Property Management Unit shall ensure the sealed envelope is forwarded to BCI&I within 15 days.

2.3.8 DNA Collection Procedures - Refusal

In the event that the detainee refuses to submit a DNA sample, the Toledo Police Department has two options to obtain a DNA sample:

- (a) Forcibly compelling the detainee to submit.
- (b) Booking the detainee without a sample and the detainee will be held in custody by a standing Toledo Municipal Court Order requiring submission of DNA sample as a precondition of release.

The collector of the DNA sample, shall notify an investigative supervisor of the detainee's refusal. The investigative supervisor will direct the appropriate course of action regarding the forced collection of DNA or booking into the LCCC with no eligibility of release until a DNA sample is submitted.

2.4 PROCESSING NON-CUSTODY FELONY WARRANTS

Whenever a member of the Toledo Police Department, not assigned to the Investigations Services Division desires to issue a felony warrant for a non-custody individual, the following procedures shall be followed:

- 2.4.1 The Investigations Bureau sworn supervisor shall be contacted by the officer and informed of the desired felony warrant, along with the facts of the incident.
- 2.4.2 The Investigations Bureau sworn supervisor shall contact the on-call Lucas County prosecutor and request authorization for the issuance of the felony affidavit.
- 2.4.3 If authorization is obtained, the Investigations Bureau sworn supervisor shall be responsible for assuring that the proper affidavit is signed by the requesting officer and that all necessary felony paper work is completed.

NOTE: In the event the county prosecutor does not authorize the issuance of a felony affidavit, no felony affidavit shall be filed.

3 MISDEMEANOR BOOKING

3.1 ON-VIEW MISDEMEANOR ARREST

- 3.1.1 Arresting officers shall first review all on-view misdemeanor arrests with consideration given to releasing the violator at the scene through the use of a summons or citation.
- 3.1.2 Officers shall perform a records check on all detainees to determine whether a prior conviction raises the offense classification to a felony, or if the person may be wanted on other charges.
- 3.1.3 Officers who believe they have no other recourse except to book the offender shall review their decision once they are at the jail, prior to booking. The option to cite or summons the offender in lieu of booking is often available to the officers.

EXAMPLE: A detainee has refused to identify himself upon arrest and is transported to LCCC by the arresting officers with the intention of booking him. Prior to the actual booking process the identity of the detainee is discovered and verified. If there is no other authorized reason to book the individual, he should be issued a citation or summons and released.

NOTE: Officers are not required to return the detainee to the place where custody began, but may do so if circumstances indicate such a courtesy is justified.

- 3.1.4 The arresting officer shall provide the booking officer with the applicable Ohio Revised Code or Toledo Municipal Code number for each charge upon which the detainee is being booked.
- 3.1.5 Officers witnessing the violation shall be the complainant and sign all applicable affidavits, summons, All Purpose Citations (APC), and Traffic Citations. In the case of two-man units or incidents involving multiple officers, one officer shall sign all of the affidavits, summons, APC's, and Traffic Citations issued to one detainee, unless extenuating circumstances exist which prevent that officer from doing so. The extenuating circumstances shall be documented in the CRIME REPORT.
- 3.1.6 **RELEASE AFTER ARREST** – Ohio law gives peace officers the power to make on-view arrests without a warrant for criminal acts committed in their presence. Officers are also authorized to release detainees on a summons:

Rule 4 (F), Release after arrest:

“In misdemeanor cases where a person has been arrested, with or without a warrant, the arresting officer, the officer in charge of the detention facility to which the person is brought, or the superior of either officer, without unnecessary delay, may release the arrested person by issuing a summons...”

3.2 OPEN MISDEMEANOR WARRANT ARRESTS

- 3.2.1 A RECOGNIZANCE-SUMMONS form shall be used by officers to summons individuals into Maumee, Oregon, Sylvania, and Toledo Municipal courts. This summons may be issued in lieu of custodial arrests for warrants that involve **non-violent offenses** that are determined to be summonsable by the appropriate authority.

402.1 ARREST, BOOKING AND ALTERNATIVES TO ARREST

- 3.2.2 Records Section personnel shall evaluate each open misdemeanor warrant arrest at the time of the record check. Records personnel will then advise the arresting officer whether to issue a summons and/or book the subject.
- 3.2.3 In all booking cases, the ORC or TMC numbers will be provided on the paperwork forwarded to the booking personnel via the Records Section.
- 3.2.4 In all cases where a summons will be issued, officers shall follow the procedure listed below:
- (a) Complete a RECOGNIZANCE-SUMMONS form.
 - (b) Issue a court date seven to ten days from the date of contact. Court dates and times for each court are listed on the form.
 - (c) Officers shall advise Records Section personnel by radio or telephone of the court date and time issued to the defendant.
 - (d) If the defendant has multiple summonsable warrants from one member court, only one RECOGNIZANCE-SUMMONS form shall be completed.
 - (e) Officers only need to list one case number on the form.
 - (f) Officers shall check the "Multiple Cases" box on the form indicating multiple warrants from that court.
 - (g) If the defendant has multiple summonsable warrants from multiple member courts, a separate RECOGNIZANCE-SUMMONS form must be completed for each court. If the Recognizance-Summons is completed on the ReportWISE form, one summons can be used for multiple member courts.
 - (h) Officers shall not summons a defendant into multiple courts on the same date and time.
 - (i) If a defendant has both summonsable and non-summonsable warrants, officers shall issue all applicable summonses before releasing the defendant to another law enforcement agency or booking the defendant.
 - (j) If a defendant has both summonsable and non-summonsable warrants issued by Toledo Municipal Court, officers shall not issue a summons but shall book the defendant on all Toledo Municipal Court warrants.
 - (k) Have the defendant sign the summons form and provide the yellow copy to the defendant. When using the ReportWISE Recognizance-Summons form the defendant will not be able to sign.
 - **If the defendant refuses to sign a summons for warrants issued by Toledo Municipal Court**, the officer has the option of booking the defendant on those warrants, or issuing the summons and writing "Refused" on the signature line and explaining to the person failure to appear in court on that date and time may result in a warrant being issued for his arrest.
 - **If the defendant refuses to sign a summons for warrants issued by Maumee, Oregon or Sylvania Municipal Courts, the officer shall** write "Refused" on the signature line. The issuing officer shall also explain to the person that failure to appear in court on that date and time may result in a warrant being issued for his arrest.

3.3 MISDEMEANOR ATTACHMENT ARRESTS

- 3.3.1 Persons arrested on authority of an attachment (bench warrant), for any misdemeanor issued by Toledo Municipal Court, shall be booked and held in the Lucas County Pre-Trial Detention Facility, if space is available.

ARREST, BOOKING AND ALTERNATIVES TO ARREST 402.1

3.3.2 Prior to transport, Records Section personnel shall contact LCCC to determine if a bed is available in the Pre-Trial Detention facility. If a bed is available, the detainee shall be booked.

(a) If no bed is available, the summons procedure outlined in Directive 402.1/3.2 – OPEN MISDEMEANOR WARRANT ARRESTS shall be followed.

3.4 EXCEPTIONS TO THE SUMMONS/CITATION POLICY

3.4.1 There are six basic exceptions to the misdemeanor summons/citation release procedure:

- When the identity of the detainee cannot be ascertained with reasonable certainty.
- When the person is so intoxicated he is a danger to himself or others and there is no competent party or agency to assume responsibility for the individual.
- When there appears to be a reasonable certainty the detainee will continue or resume the criminal conduct that led to his arrest, or his confinement is necessary for the protection of persons, property or evidence. This exception must be thoroughly documented.
- When the arrest is mandated by law, such as for domestic violence.
- When the arrest, either on-view or by warrant, is for any of the following offenses of violence: assault, domestic violence, menacing, aggravated menacing, menacing by stalking, aggravated trespass, violation of any Temporary Protection Order, riot, inducing panic, carrying a concealed weapon.
- When the detainee has one or more attachments (bench warrants) issued by the Toledo Municipal Court, and there is space available in the Lucas County Pre-Trial Detention Facility.

3.4.2 Police department personnel shall make every reasonable effort to ascertain the true identity of a person who does not have a photo ID, or whose identity is in question.

NOTE: There are many sources to help verify a person's identity: booking photos, vehicle registration, physical descriptors, search via Accurint, paycheck stub, social security number, personal checks, etc., which when considered in its totality, will help establish a person's identity.

3.5 MISDEMEANOR BOOKING AUTHORIZED

Persons shall be booked for misdemeanors only when:

- Arrested for a charge of domestic violence, including on-view arrests and warrants, as well as TPO violations.
- Being held for another agency or jurisdiction. (For example, a non-summonsable bench warrant issued by Sylvania or Maumee Court).
- Continuation of threatening, violent, or criminal behavior once he has been removed from the scene.
- So intoxicated he cannot care for himself and there is no one to care for him.
- Identity cannot be reasonably ascertained.
- There is an investigative need and a sworn supervisor authorizes booking.
- Charged with any offense of violence.
- Having one or more attachments and there is space available in the Lucas County Pre-Trial Detention Facility.

402.1 ARREST, BOOKING AND ALTERNATIVES TO ARREST

NOTE: When a subject is booked, the arrest/bookings process should serve all existing warrants as well. Officers shall not issue a summons on selected Toledo Municipal Court charges and book the person on the remaining Toledo Municipal Court charges. This is necessary to prevent duplicate court dates and to reduce scheduling conflicts in the Toledo Municipal Court, Clerk of Courts Office.

3.6 TRAFFIC VIOLATIONS

3.6.1 Officers booking persons who also have traffic violations shall write/type "BOOKED" in place of the court date on all E-Citations and paper citations.

3.7 ISSUING COURT DATES – ON-VIEW CHARGES

3.7.1 Officers shall not issue court dates when a person is booked for on-view charges and cited for others arising from the same incident.

3.7.2 LCCC booking personnel will issue the court date at the time of release.

3.8 REQUEST FOR DENIAL OF OWN RECOGNIZANCE (OR) BOND

3.8.1 During the performance of an officer's duties, he may become aware of certain information that would justify the denial of an 'own recognizance' (OR) bond for specific individuals that have been taken into custody. Such information shall be made available to the LCCC intake officer at the time the subject is booked.

3.8.2 Four primary indicators that may lead officers to request a denial of OR bond are:

- (a) The detainee took extreme measures to avoid apprehension; extended pursuits which endangered the community; or violent resistance to arrest.
- (b) The detainee took extreme measures to avoid detection, as in hiding on a roof or in a small crawl space area.
- (c) The detainee stated or indicated that he would flee if released.
- (d) The detainee indicated, or other information indicates, that he is in such a mental state that he presents a threat or danger to the safety of another person or to the community as a whole.

3.9 COMPLETING OWN RECOGNIZANCE (OR) DENIAL REQUEST FORM

3.9.1 When an officer believes that a detainee should not be released on OR Bond, the officer shall complete the REQUEST FOR DENIAL OF OR BOND (TPD FORM 29.6). The form shall be completed in duplicate with the original given to the Intake Officer at LCCC. The duplicate copy shall be attached to the CRIME REPORT or SUPPLEMENTAL CRIME REPORT, depending upon the circumstances (e.g., transporting officers may use a supplemental if they become aware of unique information).

3.9.2 Officers shall clearly state on the form the reason(s) for requesting a denial of OR privileges.

3.9.3 In cases of felony arrests, Investigative Services Division personnel shall forward a copy of this form to the Court Liaison Unit.

- (a) Completion of this form does not insure that a subject will not be released on OR through the Federal Court Order to reduce jail population.

3.10 PHOTOGRAPHING AND FINGERPRINTING ADULT ARRESTEES

3.10.1 All adults arrested and booked at the Lucas County Corrections Center shall be photographed and fingerprinted according to Lucas County Corrections Center policy and applicable state law.

4 **ALTERNATIVES TO PHYSICAL ARREST, BOOKING AND/OR CONFINEMENT**

The power to arrest that is granted to police officers is one alternative available to officers under circumstances requiring some form of police action. Additional remedies available to officers as alternatives to arrest are issuing a summons in lieu of arrest; summons after arrest without warrant; minor misdemeanor citation; and traffic citation.

Once a violator has been identified, it is the function of the department to initiate the criminal process. However, there are circumstances when a crime may occur and the department will not make a physical arrest. There may be a report written, a sworn complaint made or in some cases when the offense is of a minor nature, a verbal warning, or some other direction given. The decision to not arrest will be governed by department policy and the factual situation involved, not by the personal feelings of the officer. An arrest does not dictate a booking, and a booking does not dictate continued detention.

4.1 **SUMMONS ARREST**

When a summons is issued to a detainee, officers shall follow the procedure outlined above Directive 402.1/3.2 – OPEN MISDEMEANOR WARRANT ARRESTS.

4.2 **ALL-PURPOSE CITATION (APC)**

4.2.1 When an APC is issued to a detainee, officers shall ensure that the APC form is completed and signed by both the detainee and himself. The issuing officer shall also explain to the person that failure to appear in court on the date and time indicated may result in a warrant for his arrest.

4.2.2 Officers, without unnecessary delay, shall swear to and file the original portion of the APC with the clerk of court.

4.2.3 Officers shall turn in the Records Section copy at the end of their shift.

4.3 **CRIME REPORT REQUIRED FOR SUMMONS AND APC ARREST**

4.3.1 Issuing officers shall complete a CRIME REPORT whenever a criminal summons (RECOGNIZANCE – SUMMONS) or APC is issued.

4.3.2 The name of the person receiving the summons shall be placed in the “Suspect Name” field. The court date issued on the summons or APC shall be placed in the F.C.O/Summons Court Date field.

4.3.3 The CRIME REPORT shall also contain a narrative describing the events of the incident. If more than one warrant/attachment is involved, the Record Section numbers and/or case numbers and corresponding offenses shall be listed in the narrative.

4.4 **LOCAL COURT RULE #17 (MINOR MISDEMEANORS)**

Local Court Rule #17 states officers may issue a summons to any person who has a bench warrant (attachment) issued for him if the warrant is for a minor misdemeanor.

4.4.1 Therefore, officers shall not book a person solely on the fact that the person has an attachment for a minor misdemeanor.

4.5 **CRIMINAL RULE 4 (A) (2) (MISDEMEANOR 1-4)**

4.5.1 Most persons arrested on misdemeanor open warrants are eligible to be summoned unless the issuing authority includes a prohibition against it.

402.1 ARREST, BOOKING AND ALTERNATIVES TO ARREST

5 INFORMAL RESOLUTION

5.1 GENERAL

5.1.1 **DISCRETION** – In lieu of formal action, when appropriate, an officer may exercise discretion and choose informal action to solve the problem, such as a referral, informal resolution, and warning.

- (a) **REFERRALS** – An officer may offer the offender a referral to another agency or organization when it is the most reasonable alternative.
- (b) **INFORMAL RESOLUTION** – An officer may offer informal resolutions to situations and conflicts when they can be adequately resolved through the use of a verbal warnings, referrals, and notification of a parent or guardian of juveniles, etc.
- (c) **WARNING** – An officer may issue a warning when it is the most reasonable alternative for the offender and the violation.

5.2 SOCIAL SERVICE DIVERSION PROGRAMS – ADULTS

5.2.1 MENTAL HEALTH CRISIS SERVICES

Officers may refer persons on a 24-hour basis to the Zepf Center located at 2005 Ashland Avenue in cases involving but not limited to:

- Alcohol and drug abuse.
- Persons with suicidal tendencies.
- Disoriented, hallucinating persons.
- Endangered elderly.
- Other persons needing guidance or direction in resolving a crisis.

5.2.2 Removed.

DIRECTIVE 402.2	TOLEDO POLICE DEPARTMENT		
EFFECTIVE November 01, 2002	STANDARD OPERATING GUIDELINES		
REVISED April 1, 2016	CHIEF OF POLICE: <i>Michael C. Fosselle</i>	PART: OPERATIONS	PAGES 2
RESCINDS December 1, 2012	SEARCH AND SEIZURE WITHOUT A WARRANT		

I POLICY

The Toledo Police Department is responsive to the needs and constitutional rights of the community and develops public confidence by carrying out the police function in an ethical and lawful manner. The department operates under written rules imposed by the U.S. Supreme Court as well as federal, state and local court decisions governing search and seizure. The following procedures are meant to be guidelines for use by officers of this department.

II PROCEDURES

1 SEARCH BY CONSENT

- 1.1 Officers do not need a search warrant when an individual voluntarily consents to a search. Consent is not an exception to the warrant requirement, but a decision by a citizen not to assert Fourth Amendment rights.
- 1.2 The consent must be voluntarily given.
 - 1.2.1 In the search of a residence or apartment, a spouse or co-tenant with a right to access may consent to the search of the common areas only.
 - 1.2.2 A landlord or hotel employee cannot give consent to the search of a rented apartment or room.
- 1.3 Silence does not imply consent.
- 1.4 Coercion may not be used.
- 1.5 Whenever possible, a written waiver of search should be obtained.

2 STOP AND FRISK

- 2.1 When an officer observes a situation where the actions of a person lead him/her to believe that criminal activity may be occurring or may have occurred, the officer has the right and duty to make an investigatory stop.
- 2.2 If while the stop is being conducted officers feel that they have articulable reasons to fear for their safety, i.e. the person may be armed; the person may be patted down for weapons.
- 2.3 Facts observed by an officer may be combined with the following to justify a stop:
 - 2.3.1 Surrounding circumstances, such as time and location of stop;
 - 2.3.2 Rational inferences drawn from facts, circumstances;
 - 2.3.3 Officer's past experience and prior knowledge; and/or
 - 2.3.4 Information from other sources, including reliable informants.

NOTE: Officers shall not stop, detain, question or arrest a person based solely on characteristics of race, ethnicity or gender, gender identity, or sexual orientation.

402.2 SEARCH AND SEIZURE WITHOUT A WARRANT

3 **AUTOMOBILE SEARCHES**

May be conducted without a warrant when:

- Probable cause exists to believe evidence of a crime will be found.
- Facts giving rise to probable cause must be such that they would support issuance of a search warrant.
- Where a married person has sufficient rights of common access, use, and control of a vehicle registered in his/her spouse's name, he/she has authority to consent to the search of the vehicle against the wishes of the other.
- Automobile inventories will be conducted according to Directive 406.3 – TOWS.

4 **CRIME SCENE SEARCH**

During the initial response to a crime scene, officers may make a warrantless entry to render immediate aid to victims and may also conduct a warrantless search for suspects, any further search must be conducted by warrant or fall within one of the established exceptions to the warrant requirement, as specified in the Ohio Revised Code or the Ohio Rules of Criminal Procedure.

5 **EXIGENT CIRCUMSTANCES**

Those circumstances that would cause a reasonable person to believe that entry, or other prompt action was necessary to prevent physical harm to officers or other persons, the destruction of evidence, the escape of a suspect, or some other consequence improperly frustrating legitimate law enforcement efforts.

5.1 Entry of a residence to conduct a search, even for a person, must be conducted with a warrant, absent exigent circumstances. Factors to be considered as to whether there is an emergency that will permit a warrantless intrusion into a home to investigate, are:

- 5.1.1 Probable cause exists to believe the offense is a crime of violence;
- 5.1.2 It is reasonably believed that the suspect is armed;
- 5.1.3 There is strong reason to believe that the suspect is on the premises;
- 5.1.4 It is likely that the suspect will escape if not swiftly apprehended.

5.2 If an officer is in hot pursuit of a person and observed him enter a secured area, the officer may pursue the person into that area to effect a warrantless arrest. The term "hot pursuit", shall be defined as, immediate and continuous pursuit from the moment probable cause arose to arrest.

6 **SEARCH – INCIDENT TO ARREST**

Officers may search incident to arrest without a warrant, provided the arrest is valid and the arrestee is taken into custody.

6.1 The area and possessions within the arrestee's immediate control may be searched for weapons and/or evidence.

7 **SEARCH – PLAIN VIEW**

Warrantless seizures involving evidence of crime in plain view are not prohibited by the fourth amendment where the incriminatory nature of an object is immediately apparent.

7.1 Discovery of such evidence should be inadvertent.

8 **ABANDONED PROPERTY**

Officers may search and seize property that they reasonably believe has been abandoned.

DIRECTIVE 402.3	TOLEDO POLICE DEPARTMENT		
EFFECTIVE November 01, 2002	STANDARD OPERATING GUIDELINES		
REVISED January 1, 2015	CHIEF OF POLICE: <i>Michael C. Frensdorff</i>	PART: OPERATIONS	PAGES 2
RESCINDS November 01, 2002	CHAPTER: ARRESTS	ONE-ON-ONE IDENTIFICATION	

I POLICY

The United States Supreme Court has addressed one-on-one identification in numerous cases and has set forth guidelines to be followed when officers solicit eyewitness identification.

II PROCEDURES

1 GENERAL GUIDELINES

- 1.1 A primary consideration is the time period between the time the offense was reported and the discovery of the suspect. No one-on-one identification shall be attempted if the suspect is not stopped initially within an hour of the offense. (The clock stops when the suspect is stopped; however, the detention clock starts at this time. See 2.2 below.)
- 1.2 The distance between the crime scene and the point the suspect is located shall not be excessive considering the totality of the circumstances – i.e., the time of day, the mode of transportation, etc.
- 1.3 The identification process shall be conducted so as not to be unnecessarily suggestive or conducive to irreparable mistaken identity.
- 1.4 Officers shall take into consideration:
 - 1.4.1 The similarities of age, race, clothing, height, weight, speech characteristics and any other personal identifier shall be reasonably correlated between the suspect stopped and description of the suspect, considering the collective information available.
 - 1.4.2 The totality of knowledge of the critical events known to the police at the point the suspect is stopped.
 - 1.4.3 The degree of opportunity and attention the victim/witness had in reference to the suspects.

2 ONE-ON-ONE IDENTIFICATION PROCESS

- 2.1 The detective assigned to the case shall be notified and, if available shall conduct the one-on-one identification process. If no investigator is available, a uniformed command officer shall conduct the process. The investigator shall have the ultimate authority to direct the identification process, regardless of rank.
- 2.2 The detention of the suspect should not exceed twenty minutes.

402.3 ONE-ON-ONE IDENTIFICATION

- 2.3 Witnesses shall view the suspect one at a time. No viewer, police officer, or bystander shall be permitted to voice an opinion relative to the suspect being viewed and his/her relationship to the victim or offense involved.
- 2.4 The witness shall be transported to the suspect's location. In an emergency situation, such as the victim being in danger of dying, an immediate identification confrontation may be conducted, with the permission of medical authorities, by conveying the suspect to the crime scene or medical facility.
- 2.4.1 When following this practice, it is important that the conveying officers avoid implicating anyone either through verbal suggestion or physical gesture.
- 2.5 Documentation of an identification procedure and the manner in which it was conducted may be important in suppression hearings, trials and post-conviction appeals. Therefore, the assigned investigator or command officer conducting the identification process shall complete a SUPPLEMENTAL REPORT (TPD FORM 38.3). The SUPPLEMENTAL shall include the following:
- The time, date and location of the identification procedure.
 - A record of everyone present, including those not viewing the suspect.
 - A description of where the suspect was positioned relative to police vehicles and officers, and any utterances made.
 - All statements made by the viewer, the command officer or investigator, and any other person present.
 - A notation of the time period between the initial stopping of the suspect and the completion of the identification process.
 - If the suspect was handcuffed, during the one-on-one identification, the reason shall be documented in the supplemental report.
- 2.6 No one-on-one identification confrontation shall be conducted when the suspect is in a department vehicle, or is in a position where the witness can see the suspect being frisked or searched by police officers.
- 2.7 During a one-on-one identification, the suspect should not be handcuffed when a witness can observe the suspect. However, due to the totality of the circumstances, i.e. flight risk or combativeness of the suspect, whether the suspect is handcuffed or not, is left to the discretion of the detective assigned the case or the uniformed command officer in charge of the one-on-one identification.
- 2.8 The one-on-one identification confrontation has not been legally classified as a "critical stage" in the pre-arrest process. Therefore, the suspect does not have the right to an attorney. If the suspect's attorney is present, he shall be permitted to view the identification proceedings and take notes, but he cannot make suggestions or demands relative to the proceedings.

EFFECTIVE November 01, 2002	STANDARD OPERATING GUIDELINES

RESCINDS December 1, 2012	PART: OPERATIONS	CHAPTER: ARRESTS	
STRIP SEARCH AND BODY CAVITY SEARCH			

I **POLICY**

It is the policy of the department to conduct all strip or body cavity searches within the guidelines of the Ohio Revised Code (ORC) 2933.32.

II **DEFINITIONS**

STRIP SEARCH – The ORC 2933.32, defines strip search as an inspection of the genitalia, buttocks, breasts, or undergarments of a person that is preceded by the removal or rearrangement of some or all of the person’s clothing that directly covers the person’s genitalia, buttocks, breasts or undergarments and that is conducted visually, manually, by means of any instrument, apparatus or object, or in any other manner.

BODY CAVITY SEARCH – The ORC 2933.32, defines body cavity search as an inspection of the anal or vaginal cavity manually, by means of any instrument, apparatus or object, or in any other manner.

III **PROCEDURES**

1 **SEARCH RESTRICTION**

1.1 No member of the department who has detained or arrested a person for the alleged commission of a misdemeanor or traffic offense shall conduct or cause to be conducted a **strip search** of said person, unless there is probable cause to believe that the person is concealing evidence of the commission of a criminal offense, including fruits or tools of a crime, contraband, or a deadly weapon, that would not otherwise be discovered.

1.2 A **body cavity search** shall be conducted only after a search warrant is issued that authorizes the search, and shall only be conducted under sanitary conditions by a physician, registered nurse, or licensed practical nurse.

1.2.1 The appropriate ranking on-duty Investigative Services Division command officer shall be responsible for contacting the Lucas County Corrections Center to arrange for medical personnel at the jail to conduct the body cavity search after the search warrant has been obtained.

1.3 In addition to any search warrant that may have been obtained, no member of the department shall conduct a **strip or a body cavity search** until a written authorization (AUTHORIZATION TO PERFORM BODY CAVITY OR STRIP SEARCH TPD FORM 30.4) is completed by the appropriate ranking on-duty Investigative Services Division command officer.

402.4 STRIP AND BODY CAVITY SEARCH

- 1.4 A **strip or body cavity search** shall be conducted by a person or persons who are of the same sex as the person who is being searched. The search shall be conducted in a manner and in a location that permits only the person or persons who are physically conducting the search to observe the search.
- 1.5 When a discrepancy exists between a person's appearance, government-issued identification, and/or any law enforcement database record, officers shall ask the person how the person identifies and attempt to accommodate the person.

2 **REPORTS REQUIRED**

- 2.1 Upon completion of any search pursuant to this section, the officer who conducted or caused to be conducted the search shall prepare a CRIME REPORT (TPD FORM 38.1), including all of the following:
 - 2.1.1 The name, sex, date of birth and social security number of the person who was searched.
 - 2.1.2 The time, date, and location of the search.
 - 2.1.3 The names of the officers who conducted the search, their four digit identification number, their sex and current assignment.
 - 2.1.4 A list of any items recovered during the search.
 - 2.1.5 The facts upon which the officers based their probable cause for the search.
- 2.2 Officers shall attach the AUTHORIZATION TO PERFORM BODY CAVITY OR STRIP SEARCH, to the CRIME REPORT. The officers who conducted the search shall then furnish a copy of the CRIME REPORT, the authorization form, and any report of the medical personnel to the person who was searched.

DIRECTIVE 402.5	TOLEDO POLICE DEPARTMENT STANDARD OPERATING GUIDELINES		
EFFECTIVE November 01, 2002	CHIEF OF POLICE: <i>Michael C. Jeschke</i>		
REVISED September 12, 2018	PART: OPERATIONS	PAGES 11	
RESCINDS April 1, 2016	DETAINEEES		

I POLICY

To ensure the safety of all officers and detainees, the following procedures shall be established to detail accountability and the documentation of detainees delivered to, detained, and/or removed from department facilities.

II DEFINITIONS

INTERNAL SECURITY COMPARTMENT – A detainee containment compartment installed in some patrol wagons, which is constructed of solid metal and includes a video surveillance system.

INTERIOR SHIELD – A vehicle partition installed in patrol sedans, which separates the passenger compartment into two separate areas; the front area for officers and the rear area for subjects, suspects and detainees.

HEALTH CARE PROFESSIONAL – A physician, registered nurse, certified nurse-midwife or a physician assistance.

POSTPARTUM RECOVERY – The period of recovery immediately following childbirth, miscarriage or termination of a pregnancy up to six weeks after the pregnancy.

RETRAIN - Use of shackles, handcuffs or other similar appliance or device.

III PROCEDURES

1 DETAINEE SEARCHES

1.1 DETAINEE SEARCHES

Prior to transporting a detainee, the arresting officer shall be held strictly accountable for making a proper and thorough search. In every instance, the following property shall be removed from the possession of a detainee:

- Property carried unlawfully.
- Any weapons or dangerous instruments.
- Property lawfully carried but dangerous to life, or which could facilitate escape.
- Property required as evidence.

1.1.1 Property taken from a detainee shall be handled in accordance with existing procedures for disposition of property.

1.2 TRANSPORTING OFFICER SEARCH

If the transporting officer is not the arresting officer, he should not assume that the

402.5 DETAINEES

detainee has been properly searched. For his own safety, prior to placing the detainee into a vehicle, the transporting officer shall thoroughly search the detainee.

1.3 OPPOSITE SEX DETAINEES

If there are reasonable grounds to believe that a detainee of the opposite sex is carrying a concealed weapon or dangerous instrument, the officer, for his own safety, shall search the detainee prior to transport.

1.3.1 Anytime a detainee of the opposite sex is to be searched, a reasonable attempt shall be made to have the search conducted by an officer of the same sex. If an officer of the same sex is not available, the search shall be conducted in the presence of a witness.

1.3.2 In all cases when a detainee is transported, regardless of sex, the odometer reading, location and destination shall be reported by radio to the dispatcher, prior to the transporting officers leaving the scene. Upon arrival at the destination, the odometer reading shall again be given by radio. The location of pickup, the destination, the time the vehicle left the pickup point, the time the vehicle arrived at the destination and both odometer readings shall be recorded by the dispatcher.

1.3.3 At no time shall an officer use the trip odometer as an odometer reading. The officer shall use the actual odometer reading as it appears.

2 TRANSPORTING DETAINEES

2.1 HANDCUFFING

The use of handcuffs is mandatory on all detainees regardless if a unit is a two man or one man unit. The preferred method of handcuffing is with the detainee's hands behind the back, or one of the accepted variations for multiple arrests.

2.1.1 A detainee shall not be handcuffed in front. Handcuffs shall not be used as a come-along. A detainee shall not be handcuffed to any officer.

EXCEPTION: Should a detainee have a deformity or injury that would prevent handcuffing in the prescribed manner, restraints shall be applied in such a way as to prevent injury or cause additional injury.

2.1.2 Should it be necessary for a detainee to be handcuffed in front, his hands should be further restrained to reduce the chance of the handcuffs being used as a weapon (e.g., secure handcuffs to the detainee's belt or belt loop on his pants).

2.1.3 A department-issued hobbling device may be used by an officer to secure a combative detainee when the detainee poses a threat to himself or others, or could cause significant damage to property if not properly restrained. The following procedure applies to the use of hobbling devices:

(a) Detainees transported in a patrol wagon shall be accompanied and guarded in the rear confinement area/internal security compartment by the second officer of the transporting unit or, in OVI cases, by the arresting officer. Detainees shall be placed in a seated position on the floor of the confinement area with the officer seated behind the detainee.

(b) A sworn supervisor shall be notified before transporting any detainee restrained with a hobbling device.

- 2.1.4 **In no instance** shall an officer shackle directly together a detainee's hands and ankles (hog-tying), nor shall a detainee's feet be hobbled by a restraint that is secured behind the back.
- 2.1.5 Whenever an officer removes a detainee **from the custody** of a detention or medical facility and transports them to another location, the detainee shall remain handcuffed during the transport (e.g., transport to Investigations Bureau, Records Section, Identification Unit).
- 2.1.6 In instances where detainees are in an interview room and an investigator has reason to believe a greater degree of cooperation may be achieved in the interrogation, the handcuffs may be removed.

2.2 **HANDCUFFING/INJURY**

In all instances where restraining devices are used, they shall be used in such a way as to minimize the chance of injury or unnecessary discomfort upon the detainee being restrained.

2.3 **POSITIONAL ASPHYXIA**

Positional asphyxia occurs when a subject's body is placed in a position that interferes with breathing. Several factors, including a violent struggle with an officer, particularly when the use of behind the back handcuffing is combined with placing the detainee in a stomach-down prone position, could increase the risk of positional asphyxia. Therefore:

- 2.3.1 Any detainee placed in a stomach-down prone position while handcuffed shall be closely monitored for breathing difficulties and/or other medical considerations.
- 2.3.2 Once a detainee is controlled, he shall immediately be placed either in a seated position or placed in a position lying on his side with the legs no closer than a 90-degree angle to the torso.
- 2.3.3 No detainee shall be transported in a stomach-down prone position while handcuffed, except as a last resort, when its use becomes necessary to prevent the detainee from injuring himself or the transporting officer.

2.4 **PATROL WAGONS**

Patrol wagons shall be the preferred means of transporting detainees. Detainees shall be transported in a wagon when one is readily available.

- 2.4.1 When transporting a detainee in a patrol wagon that is **not equipped with** an internal security compartment, the detainee shall be accompanied and guarded in the rear confinement area by the second officer of the transporting unit or, in OVI cases, by the arresting officer.
- 2.4.2 When transporting a detainee in a patrol wagon **equipped with** an internal security compartment:
- (a) Officers are not required to ride in the rear compartment with the detainee **unless one of the following exceptions applies:**
- A detainee is being transported in a stomach-down prone position.
 - A detainee is not seat-belted securely to the bench seat.
 - A detainee is being restrained with a hobbling device.
 - A spit hood is being used on a detainee
 - A sick or injured detainee is being transported to a medical facility, hospital or other location.

402.5 DETAINEES

- A detainee is under arrest for OVI.
 - The video surveillance system used to monitor detainees is not functioning properly.
- (b) During transport, officers shall monitor the detainee either through the video surveillance system, or accompanying and guarding the detainee in the Internal Security Compartment.
 - (c) A detainee shall not be placed in any compartment that contains any police-related equipment or officer's personal belongings.
 - (d) All detainees shall be seat-belted securely to the bench. In those instances where the detainee's demeanor or physical condition (e.g., sick, intoxicated) precludes riding in a seated position on the bench, seat belting of the detainee is not required. However, the detainee shall be accompanied and guarded in the internal security compartment by the second officer and the reasons for transporting the detainee without seat belting shall be documented in the CRIME REPORT (TPD FORM 38.1).
 - (e) The interior security door of the internal security compartment shall be completely closed and locked during transportation.

EXCEPTION: The interior security door shall not be locked during transportation when an officer accompanies a detainee in the Internal Security Compartment.

2.4.3 No officer shall ride on the outside of the vehicle.

2.5 PATROL SEDANS

Situations may arise where it is not practical to use a patrol wagon to transport a detainee. In these cases, a patrol sedan may be used to expedite the transportation of the detainee. The determination on whether to transport a detainee in a wagon or sedan shall be made by the arresting officer or a sworn supervisor.

2.5.1 If a detainee is transported in a police sedan the following procedure shall be followed:

- (a) The detainee shall ride on the passenger side of the rear seat and shall be seat-belted securely. At no time shall a detainee ride in the front seat of a patrol sedan.
- (b) If a metal screen is not installed as part of the interior shield, the interior shield shall be closed.
- (c) If part of a two man unit, the non-driving officer has the option to sit in the front seat or the left side of the rear seat behind the driver. However, at all times the non-driving officer maintains the primary responsibility and accountability for the safety and security of the detainee and the officers.

2.5.2 One man units are discouraged from transporting multiple detainees. However, it remains the responsibility of the transporting officer to determine if he can safely transport multiple detainees. If the one man unit believes there is a danger in transporting more than one detainee, he shall notify the dispatcher and request assistance in transporting.

2.6 SEDANS WITHOUT INTERIOR SHIELDS

Anytime an officer transports a detainee in a sedan (either marked or unmarked), that

does not have an interior shield, the following procedure shall be followed:

- 2.6.1 The detainee shall ride on the passenger side of the rear seat and shall be seat-belted securely. At no time shall a detainee ride in the front seat of a sedan.
- 2.6.2 If part of a two man unit, the non-driving officer has the option to sit in the front seat or the left side of the rear seat behind the driver. However, at all times the non-driving officer maintains the primary responsibility and accountability for the safety and security of the detainee and the officers.
- 2.6.3 If the one man unit believes there is a danger in transporting the detainee, he shall notify the dispatcher and request assistance in transporting.

2.7 VEHICLE SEARCH

Prior to placing a detainee in a department vehicle, the vehicle shall be searched for weapons and contraband. After the detainee has reached the appropriate destination and is secure, the officers shall again search the vehicle for any weapons or contraband that may have been left behind by the detainee.

2.8 MONITORING OF DETAINEE AND THE USE OF SPIT HOODS

A detainee shall not be placed in a patrol wagon or police sedan and left unattended unless a life-threatening situation or other emergency arises that the officer must respond to or take action upon. Transporting officers remain responsible for the safety of detainees. A department-issued spit hood may be used to prevent the transfer of spit from a detainee to others. The following procedure applies to the use of spit hoods:

- 2.8.1 **Spit hoods shall only be used when a detainee is spitting or threatening to spit**
- 2.8.2 Spit hoods shall not be used on any detainee who is in respiratory distress, vomiting, requires medical attention or is unconscious.
- 2.8.3 Officers shall constantly monitor any detainee wearing a spit hood.
- 2.8.4 The use of a spit hood shall be documented in the CRIME REPORT and any other required reports.

2.9 DETAINEE COMMUNICATION WITH OTHERS

To help reduce the chance of injury or escape by a detainee during transportation, an officer shall not stop to allow a detainee to communicate with family, friends or his attorney. Once the detainee is in a secure location (e.g., Lucas County Correction Center, Investigations Bureau) he may be afforded the opportunity to speak to those individuals.

2.10 DETAINEE ESCAPE

Should a detainee escape while in the custody of an officer, the officer shall immediately notify the dispatcher of the situation. Notification shall include the location and direction of flight, description of the detainee, charges and other information related to officer safety and to aid in the apprehension of the detainee. The following procedure shall be followed:

- 2.10.1 The officer shall then notify his immediate supervisor.
- 2.10.2 The officer shall complete the required CRIME REPORT and articulate the facts and circumstances of the escape. A supervisor may also require the officer to

402.5 DETAINEES

complete a SUPPLEMENTAL CRIME REPORT (TPD FORM 38.3).

2.10.3 Should a detainee escape from an officer's custody while outside of the city of Toledo, a Communications supervisor shall notify the agency that has jurisdiction where the escape occurred.

2.10.4 The officer shall follow the orders of the supervisor regarding any further actions that may be required.

2.11 SICK OR INJURED DETAINEES

When it becomes apparent that a detainee is sick/injured and needs medical attention, the following procedure shall be followed:

2.11.1 Depending on the urgency of the detainee's need for medical attention, officers shall either request assistance from the Toledo Fire and Rescue Department or transport the detainee immediately to the nearest hospital with EMS approval.

2.11.2 If the detainee is transported to a hospital in a non-department vehicle (e.g., Life Squad, ambulance), at least one officer shall remain with the detainee at all times.

2.11.3 An officer shall remain with the detainee at all times while at the hospital. If a medical procedure being performed is potentially dangerous to the officer, or if the physician requests that the officer leave, he may wait outside the treatment area. However, the officer shall ensure the detainee does not escape.

2.11.4 If a physician requests the officer remove the handcuffs from a detainee to facilitate medical treatment, the officer may remove the handcuffs. However, the officer shall ensure the detainee does not escape.

2.11.5 Individuals arrested only on misdemeanor charges and detained for a prolonged treatment period, or admitted to the hospital, shall be issued a summons in accordance with established procedures.

2.11.6 An officer who transports a detainee from a hospital to the Lucas County Corrections Center (LCCC) shall convey any medical instructions for the proper care of the detainee to LCCC personnel.

2.12 HOSPITALIZATION/VISITATION OF DETAINEE

If an individual arrested on felony charges is admitted to the hospital, the officer having custody of the detainee shall immediately notify an Investigations Bureau supervisor. If a supervisor is not on-duty, he shall contact an appropriate on-duty detective who will determine if guard protection is deemed necessary.

2.12.1 When notified of a detainee's admission and confinement to a hospital, Investigations Bureau personnel shall:

(a) Assess the degree of risk, isolation needs, type of treatment, and all other pertinent information in order to determine the amount and type of security necessary.

(b) Determine the approximate length of time the detainee will be hospitalized.

(c) Coordinate with Operations Division supervisors to provide a rotating work schedule of Operations Division personnel to guard the detainee.

(d) At shift change, provide relieving Operations Division personnel with all pertinent information necessary for continued guard duty of the hospitalized detainee.

2.12.2 Watch commanders shall assign officers to guard duty during their regular shift, unless advised differently by the Operations Division commander or chief of police. Guard duty shifts should be no longer than eight (8) hours.

2.12.3 The officer assigned to guard a hospitalized detainee shall:

- (a) Remain with the detainee continuously and monitor all personal contacts.
- (b) Be alert to prevent suicide, escape, and/or assault attempts. Restraining devices may be used, if deemed necessary.
- (c) Prevent unauthorized property from being passed to the detainee.
- (d) If practical, the detainee shall be searched and restrained prior to being moved or transferred within the hospital.
- (e) Consult an Investigations Bureau supervisor for instructions when uncertain regarding specific procedures.

2.12.4 VISITATION

All persons wishing to visit a hospitalized detainee must obtain the appropriate pass at the Investigative Bureau desk located at the Safety Building. An Investigations Bureau sworn supervisor, following the guidelines and procedures set forth in the Investigations Bureau Manual, shall insure that the guarded detainee is advised of the visitation policy.

2.12.5 VISITATION PASSES ISSUED

An Investigations Bureau sworn supervisor shall issue all passes. Visitors must apply in person and present a valid state-issued photo identification. A copy of all issued passes shall be maintained as a permanent record in the case file. The following types of passes may be issued:

- HOSPITAL VISITATION PASS (TPD FORM 31.4) – This pass is valid for only one visit on the day the pass is issued. Therefore, the guarding officer shall retain the yellow copy of the pass and forward it to the Investigations Bureau at the end of his shift.
- CLERGY HOSPITAL VISITATION PASS (TPD FORM 31.45) – This pass is valid for multiple visits with the guarded detainee. Members of the clergy shall be allowed to retain the yellow copy of their pass. However, they are still required to present the pass and valid state-issued photo identification at each visit.

2.12.6 VISITATION LIMITATIONS

When guarding a detainee who is admitted to an area hospital, officers shall not allow a detainee visitation unless presented with the yellow copy of either the HOSPITAL VISITATION PASS or CLERGY HOSPITAL VISITATION PASS and a valid state-issued photo identification. The guarding officer shall verify that the name on the issued pass matches the person wishing to visit the detainee.

- Officers assigned to guard duty shall direct all visitors without a pass to the Investigations Bureau desk located at the Safety Building. Visitation of detainees under guard by the Toledo Police Department shall be limited to clergy, attorneys or immediate family members (e.g., mother, father, spouse, brother, sister or adult children).
- Visitation shall be limited to one person at a time.

402.5 DETAINEES

- Detainees shall be limited to two visitors per day, including family and attorneys. Visits from members of the clergy are excluded from this limitation.
- Each visit shall not exceed 30 minutes.
- All visitors are subject to a “pat down” search of their persons and a thorough search of purses, packages, and any item intended to be left for the detainee.
- Visitation is limited to those hours established by the hospital or unit where the detainee is currently being treated.

EXCEPTION: Imminent death of the detainee. If medical personnel summon family members to the hospital due to the imminent death of the detainee, the officers guarding the detainee shall immediately notify an Investigations Bureau sworn supervisor for instructions.

- Even if the visitor has been issued a pass, the guarding officer can still deny visitation when:
 - The visitor’s presence in the hospital constitutes a clear and probable danger to hospital security or interferes with hospital operations.
 - The visitor is under the influence of drugs or alcohol.
 - The visitor refuses or fails to show proper identification.
 - The visitor refuses to submit to a pat down or search of belongings.
 - The visitor’s past behavior was disruptive.

2.13 **DISABLED DETAINEES**

Should the need arise to transport a disabled detainee or special needs detainee, a patrol wagon shall be utilized whenever available. If a patrol wagon is not available, the officer shall contact his supervisor for instructions.

2.13.1 For safety considerations, officers are reminded that not all individuals in wheel chairs are immobile. Some people utilizing wheelchairs are capable of walking.

2.13.2 A wheelchair is a piece of medical equipment and shall not be relied upon to serve as a restraining device.

2.14 **DETAINEE SAFETY**

Once in an officer's custody, the safety of the detainee is paramount.

2.14.1 The detaining officer(s) shall exercise the utmost precaution to keep the detainee from escaping, injuring himself or others, and/or destroying any items of evidentiary value.

2.14.2 While in custody, if it appears that an officer is mistreating or abusing a detainee, or ignoring an obvious need for medical treatment, any witnessing officer(s) shall attempt to intervene in order to safeguard the detainee.

- (a) The intervening officer shall report the actions observed as soon as practical to his immediate supervisor, no later than the end of his tour.
- (b) The sworn supervisor shall determine whether a written report is necessary, and if so, shall order the officers involved to submit one. The sworn supervisor shall be responsible for forwarding the report and his observations immediately to his commander.
- (c) The commander, upon completion of his review, shall forward the report

through the chain of command to the chief of police.

2.15 TRANSFER OF CUSTODY TO LCCC

A detainee remains the responsibility of the transporting officer until the actual initiation of the booking process (i.e., LCCC personnel begin the search or booking process). At that point, the custody of the detainee transfers to the LCCC.

- 2.15.1 Once custody is transferred, LCCC personnel have full responsibility and authority over the detainee.
- 2.15.2 Officers shall remain with the detainee until released by LCCC personnel, or until the detainee is secured, whichever occurs first.
- 2.15.3 Officers shall lend all appropriate assistance during the booking process.
- 2.15.4 Should an injury, which occurred prior to the initiation of the booking process, be discovered during the booking process, LCCC personnel may refuse to accept custody of the detainee.

2.16 BOOKING INFORMATION

It is imperative that the proper charges be recorded at the time of booking. It shall be the responsibility of the arresting officers to provide the transporting officers with:

- The name of the detainee (if available).
- The charges to be booked on, as well as the appropriate code numbers.
- The name and ID number of the arresting officer.
- Officers filing additional charges or changing the original on-view charges shall notify LCCC booking desk personnel of the changes.

2.17 TRANSPORTING DETAINEES TO A DETENTION FACILITY

When an officer transports a detainee to a detention facility, he shall follow the procedures and guidelines of the facility, including:

- 2.17.1 Securing firearms and other weapons, if required, before entering the facility.
- 2.17.2 Completing all documentation required by the facility (e.g., warrants, attachments).
- 2.17.3 Delivering all documentation (e.g., medical after-care instructions, attachments, warrants) and property that accompanies the detainee to the facility accepting custody of the detainee.
- 2.17.4 Following the receiving facility's procedures and guidelines for removal of the detainee's restraints during the exchange of custody; this should normally occur with the initiation of the booking process or just prior to placing the person in a cell.
- 2.17.5 Providing additional information the receiving facility would need that is not included in other documentation (e.g., suicide risk, security risk, medical conditions).
- 2.17.6 Arresting officers shall document the detainee transaction on a CRIME REPORT (e.g., booking number, date and time of arrest, property disposition).
- 2.17.7 If a unit other than the arresting unit transports a detainee and circumstances arise during the transportation that require documentation, the transporting unit shall complete a SUPPLEMENTAL CRIME REPORT. These circumstances include but are not limited to:
 - Discovery of evidence, weapons, or contraband during transport or booking.
 - Injury to or illness of the detainee during transport or booking.

402.5 DETAINEES

- Instances where transporting officers use physical control techniques, which require an ACTION – RESPONSE REPORT (TPD FORM 29.3).
- Disposition of the detainee's property to a location other than the detention facility by the transporting unit.

2.18 TRANSPORTATION DOCUMENTATION

A CRIME REPORT/INCIDENT REPORT shall be completed by the arresting and/or reporting unit whenever a detainee is transported to a police, medical or detention facility, or to an outside police agency.

2.18.1 If another unit transports the detainee, the arresting/reporting unit shall record the transporting unit's number and the officers' names on the original report. However, if circumstances arise during the transportation that requires documentation, the transporting unit shall complete a SUPPLEMENTAL CRIME REPORT.

2.19 IN CUSTODY PRISONER TRANSPORTS

Whenever an officer removes a detainee **from the custody** of a detention or medical facility and transports them to another location, the officer shall complete an **Incident Report**. The report shall be titled "In Custody/Prisoner Transport".

2.19.1 The report will serve the purpose of positively identifying the detainee being transported.

2.19.2 The report should identify the reason for the transport, the location where the detainee is being taken to and the requestor's information (e.g. name of investigator, outside agency). The report shall also include the final destination of the detainee (e.g taken back to original location, transported to another medical/detention facility).

2.19.3 A Record Bureau number is required on the report.

- If the transfer is related to a prior incident/crime, the previously generated Records Section number shall be utilized on the report.
- If the transfer is not related to a prior reported incident/crime, a Records Section number shall be generated and an INCIDENT REPORT completed.
- If a crime occurs during transport, officers shall complete a Crime Report documenting the details of the crime. The report shall be titled "In Custody/Prisoner Transport". All other offenses shall be documented on the report. A new Records Section number will need to be generated.

2.19.4 Once the transfer is complete, the completed report shall be forwarded to the Records Section.

2.20 RESTRAINING PREGNANT AND POSTPARTUM ARRESTEES

No officer or department employee, after receiving confirmation that a female is pregnant by a health-care professional, shall knowingly restrain a female who is placed under arrest or in custody of a law enforcement officer.

2.20.1 A pregnant or postpartum female may be restrained with handcuffs, in front, if the female presents a serious threat of physical harm to herself, others, or property, or the female presents a substantial flight or security risk.

2.20.2 In making a threat assessment, officers may consider the nature of the crime, criminal history, presence of weapons or current past indications of flight or violence.

2.20.3 Officers shall document any and all reasons when completing

crime/supplemental reports.
2.20.4 Ankle, leg or waist shackles shall never be used.

In other cases it may be necessary to contact a supervisor and/or investigator to determine how to proceed.

3.2 CONDUCTING PRELIMINARY AND FOLLOW-UP INVESTIGATIONS

Officers conducting preliminary investigations will follow these guidelines, when appropriate, depending on the nature of the complaint:

- 3.2.1 Shall thoroughly evaluate the scene to determine if there is any evidence that would indicate a crime has been committed.

NOTE: Nothing in this order prevents Field Operations personnel, or other officers, engaged in locating "wanted persons" from using a single photograph of a person wanted on an existing arrest warrant. In these incidents, a single photograph may be shown to neighbors or co-workers to positively identify and/or aid in locating a suspect.

2.4 **STEP FOUR: ANALYSIS AND PRODUCTION**

The analysis and production phase is the conversion of raw information into intelligence.

2.5 **STEP FIVE: DISSEMINATION**

The final phase of the intelligence cycle refers to the distribution of a finished intelligence report to be used in the prevention or resolution of a criminal threat.

3 **CONFIDENTIALITY**

In order to protect the rights and privacy of individuals or groups of whom intelligence is gathered, special care must be taken.

3.1 **RESTRICTIONS ON RELEASE OF INFORMATION** (Title 28 C.F.R. Part 23)

3.1.1 Access to Criminal Intelligence may be granted on a **need-to-know** basis to individuals who have demonstrated a need to obtain data in order to fulfill official responsibilities.

3.1.2 Access to Criminal Intelligence may be granted to a right-to-know basis where an individual has a legal right to obtain the intelligence pursuant to a court order, statute, or decisional law.

4 **TRAINING**

Training and education are available through numerous organizations, including The International Association of Crime Analysts (IACA) and The International Association of Law Enforcement Intelligence Analysts (IALEIA). Roll call shall act as training in instances where NOTICE AND BULLETINS (TPD FORM 23.4) brief officers on the collection and/or sharing of intelligence.

5 **SAFEGUARDING, SECURING, AND STORING INTELLIGENCE**

All intelligence files and records shall be kept separate from general records, even where intelligence is part of an ongoing criminal investigation. Any closed intelligence files must be securely maintained by the Bureau responsible for generating the file in the event that it must be re-opened. Securely maintained includes, but is not limited to:

- Access to intelligence files and work area shall be limited to those personnel authorized to add or edit such files.
- Areas in which intelligence files are stored shall be locked at all times when unit personnel are not in the area.
- Intelligence files stored on a computer system shall be secured and accessible only with a password.
- All waste associated with intelligence files shall be shredded.

5.1 CLASSIFICATION OF FILES

In order to protect sources, investigatory integrity, the privacy of individuals, as well as the integrity of the file system, files will be classified as either “Open” or “Closed”, with an additional security classification of “Restricted”, “Confidential”, or “Unclassified”. It shall be the responsibility of each section or unit that maintains intelligence information to classify their respective files.

5.2 DOCUMENTATION AND REPORTING

Intelligence entries shall include the source from which information was attained.

5.3 DISSEMINATION

Intelligence products may only be shared with appropriate persons only for legitimate law enforcement purposes.

5.4 REQUESTS FOR INFORMATION

5.4.1 Requests for information made by other law enforcement agencies or representatives must include the name of the person requesting the information, the date, time, and purpose. Requests must also include specific identifying information concerning the person for whom the information is being requested.

5.4.2 Active criminal intelligence information shall not be disseminated outside of the agency if such dissemination would:

- Disclose the identity of a confidential source
- Disclose information of an active file without the lead investigator’s approval
- Jeopardize a pending investigation
- Violate the Third Agency Rule
- Endanger the physical safety of law enforcement personnel or others

5.4.3 Criminal threats pertaining to the jurisdiction of any other in-state agency; out-of-state agency; national security; or international interests shall be shared in an appropriate and timely manner. Depending upon the severity of the threat and the credibility of the source, the use of intelligence can be supplemented with direct communications to the proper authorities by the Chief of Police or his designee.

5.5 PURGING

Bureau Commanders are responsible for ensuring that intelligence files produced and stored by their respective bureau are maintained in accordance with the goals and objectives of the Department and include information that is both timely and relevant. Bureau Commanders shall ensure intelligence files are reviewed on an ongoing basis. Out of date and/or incorrect information shall be purged and destroyed. The 28 CRF 23 standard of five years will be utilized to determine if information is out of date. Additionally, when a file is determined to have no further value and/or no longer meets the criteria of any applicable law, that information shall be destroyed. Bureau Commanders are responsible for ensuring a schedule for purging is in effect for their Bureau’s Intelligence product.

403.2 CRIMINAL INTELLIGENCE

- 5.5.1 Considerations for purging files should include:
- How often is the information used?
 - For what purpose is the intelligence being used?
 - Who uses the information?
 - Is the investigation still open?
 - Is the intelligence outdated?
 - Is the intelligence relevant to the needs and objectives of the department?
 - Is the intelligence relevant to the purpose for which it was collected and stored?

5.6 **COMMUNICATION AND COORDINATION**

5.8.1 **COMMUNICATING INFORMATION/KNOWLEDGE MANAGEMENT**

All department personnel, including specialized and support components, shall encourage and support the exchange of information within the department for the purpose of coordinating activities. There are numerous ways to communicate information, including, but not limited to:

- Holding staff meetings.
- Utilization of the department's telephone and voice-mail system.
- Allowing each employee continuous access to the department wide information and communication using the department's computer network (For example: department e-mail or intranet web site).
- Utilizing the "Crime Alert" information supplied by Criminal Intelligence Section.
- Conducting Operations Division and Investigative Services Division daily roll call with personnel under their command.
- Investigative Services Division personnel attending Operation Division roll calls in order to relay information.

5.7 **REVIEW**

A review of this policy and procedure shall be conducted annually by the commander of the Criminal Intelligence Section.

DIRECTIVE 404.1	TOLEDO POLICE DEPARTMENT		
EFFECTIVE November 01, 2002	STANDARD OPERATING GUIDELINES		
REVISED April 1, 2016	CHIEF OF POLICE: <i>Michael C. Frensdorff</i>	PART: OPERATIONS	PAGES 4
RESCINDS February 1, 2016	SPECIAL OPERATIONS		

I POLICY

II PROCEDURES

1 SPECIAL OPERATIONS BUREAU

The Strategic Operations Bureau consists of the Vice/Narcotics Section, Gang Task Force Section, SWAT Section, and the Special Investigations Section

1.1 VICE/NARCOTICS SECTION

The Vice/Narcotics Section investigates crimes involving gambling, liquor, prostitution, narcotics, and handles liquor permit objections. It is the objective of the department to enforce all local, state, and federal statutes which prohibit the possession, use, or traffic in narcotics, non-prescription dangerous drugs, and other restricted or prohibited substances. Through aggressive enforcement, the department seeks to prevent and deter the use, possession, and trafficking of all such substances within the city. In doing so, the department may also conduct investigations outside the city, in cooperation with appropriate law enforcement agencies, to prevent the flow of such illegal substances into the area.

1.2 GANG TASK FORCE SECTION

Gang related activity has detrimental effects on society. The Gang Task Force Section provides prevention and suppression of gang related activity to the community.

1.3 SWAT SECTION

SWAT provides tactical support, such as, dynamic entry for search warrants, barricaded subjects, conducts surveillance, and engages in crime suppression operations.

1.3.1 REQUESTING TACTICAL ASSISTANCE

Generally, tactical assistance should be requested whenever one or more of the following circumstances exist:

- (a) The incident requires a specialized tactical response.
- (b) The location is barricaded against entry.
- (c) The suspect has a history of assaults with weapons or is a member of a militant group.
- (d) Any other situation the incident commander (IC) considers high-risk.
 - Only the IC shall make a request for tactical assistance.

404.1 SPECIAL ENFORCEMENT

- Requests shall be made by contacting the on-duty SWAT supervisor. If no SWAT supervisors are on duty, Communications shall be contacted to request a call-out.
- Upon request, SWAT will be utilized as a resource for the IC. The IC shall maintain overall control of the operation. All activities shall be coordinated through the IC in order to alleviate potential misunderstandings between operational components.
- From the time the IC orders intervention until the scene is declared secure, tactical operational plans and entry are the responsibility of the SWAT commander or his designee. The IC shall continue to maintain control of the overall operation; therefore, the SWAT commander shall coordinate his operations with the IC.

1.4 SPECIAL INVESTIGATIONS SECTION

1.4.1 METRO DRUG TASK FORCE

The Metro Drug Task Force Section consists of officers from local and federal agencies, which conduct long-term drug investigations and gather intelligence information concerning vice, drug, and organized crime activities affecting Northwest Ohio. The commander of the Metro Drug Task Force Section shall submit to the Inspections/Accreditation Unit an annual evaluation of the task force.

1.4.2 CANINE UNITS

Canine units may be utilized by department personnel and other requesting agencies to search vehicles, structures, open areas, and parcel/postal packages for the presence of narcotics.

(a) CALL-OUT PROCEDURE

Any officer outside the Vice/Narcotics Section requesting services of a canine unit shall first contact their immediate supervisor who, after assessing the need for a canine unit, shall contact a Metro Drug Task Force Section supervisor.

- The Metro Drug Task Force Section supervisor will make the final decision as to whether a canine unit will respond.
- Officers requesting the use of a canine unit will maintain security of the scene, and not begin to search until requested by the canine handler.
- The canine handler is subordinate to the ranking supervisor at the scene; however, the canine handler has the ultimate authority on the use of the canine.

(b) CANINE HANDLER INJURY

In the event a canine handler is injured and unable to control the canine, officers shall use the following procedure:

- Medical assistance should be called for the handler.
- No attempt should be made to approach the handler or the canine unless injuries are life threatening.
- Depending on the seriousness of the handler's injuries, the spouse of the handler should be requested to respond to the scene to take control of the canine.
- Other canine handlers including those from neighboring law enforcement agencies may be contacted for assistance.

- Assistance from the Lucas County Dog Warden should be requested as a last resort.
- The Metro Drug Task Force Section supervisor shall be notified. He shall make all subsequent notifications.

(c) **GENERAL RULES**

- Police personnel may only pet a canine in the presence of and with the permission of the canine handler.
- Under no circumstances shall personnel tease or agitate a canine.
- Except in emergency situations, no person other than the canine handler may give a canine commands.
- Personnel shall comply with the requests of the canine handler while the canine is working the scene.

1.4.3 **FORFEITURE/BULK CASH UNIT**

The mission of the Forfeiture/Bulk Cash Unit is to eliminate the profit derived through the direct or indirect involvement in illegal activity through the seizure and forfeiture of assets. The unit conducts investigations relating to the assets or property that is contraband, derived from, or utilized in the commission of an offense of municipal, state, or federal statutes. In addition, the unit works cooperatively with other units, sections, bureaus, and outside agencies in coordinating forfeiture actions.

(a) **INITIATION OF THE FORFEITURE PROCESS**

- **Seizure of Property** – The forfeiture process normally begins when an officer seizes property with the intent of having the property forfeited. Notice of the officer’s intent to seize the property, including vehicles, should be conveyed to the property owner or person in possession of the property. This notice may be given either verbally or through the preferred method of issuing a Notice of Property Seizure Form (TPD Form 23.14). Officers shall forward the Notice of Property Seizure Form to the Forfeiture Unit, prior to the end of their shift.
- **Seizure of Vehicles** – Whenever a vehicle is towed and a holder is placed on the vehicle per the Forfeiture Unit, the officer requesting the tow shall indicate this on the Tow Report (TPD Form 63.1). Officers shall forward a copy of the Tow Report to the Forfeiture Unit, prior to the end of their shift.

(b) **REPORT REQUIRED**

Whenever property, including vehicles, is seized for forfeiture, a copy of the original CRIME REPORT (TPD FORM 38.1) shall be forwarded to the Forfeiture Unit prior to the end of the officer’s shift. The CRIME REPORT shall list the property, the circumstances of any arrest and the reason for the seizure. Detectives shall advise the commander of the Forfeiture Unit of any associated criminal cases and pending court action.

1.4.4 **SPECIAL INTELLIGENCE GROUP**

Provides offender-based tactical surveillance

2 **UNDERCOVER OFFICERS**

In order to obtain information and evidence regarding criminal activities, it may be necessary that the department utilize undercover officers.

404.1 SPECIAL ENFORCEMENT

2.1 CONDUCT

Undercover officers shall not entice others to commit illegal activities.

2.2 POSING AS MEMBERS OF NEWS MEDIA

Undercover officers shall not pose as members of the news media in order to obtain intelligence information.

3 INFORMANTS

3.1 SOURCES OF INFORMATION

Sources of information are persons or organizations, not under the direction of a specific police officer, that furnish information without compensation and do not take an active part in an investigation. When sources of information seek compensation or become an active part of an investigation, their status changes to that of confidential informant. Sources of information do not require registration.

3.2 CONFIDENTIAL INFORMANTS (CI)

Confidential informants are persons under the direction of a specific police officer, who give information or other lawful assistance on criminal activity. Confidential informants take an active part in investigations and/or receive compensation.

3.3 COMPENSATION

Money or judicial/prosecutorial considerations.

3.5 INFORMANT'S IMMUNITY FROM PROSECUTION

Informants will sometimes offer to exchange information for immunity or for their release. A judge in a judicial proceeding may properly grant such immunity; however, neither the department nor any of its members have the authority to grant any person immunity from prosecution.

3.6 INDIVIDUAL OFFICER'S INFORMANT RESPONSIBILITIES

Officers should keep their supervisors informed of their relations and activities involving informants. An officer's immediate supervisor shall be made aware of the identity of informants under all circumstances. When practical, a second officer should be present when interviewing an informant.

DIRECTIVE 405.1	TOLEDO POLICE DEPARTMENT STANDARD OPERATING GUIDELINES		
EFFECTIVE November 01, 2002	CHIEF OF POLICE: <i>Michael C. Frenkle</i>		
REVISED February 1, 2016	PART: OPERATIONS	PAGES 6	
RESCINDS December 1, 2012	JUVENILES		

I POLICY

It is the responsibility of all members of the department to familiarize themselves with juvenile problems and support the established procedures for handling both criminal and non-criminal juvenile incidents.

Officers dealing with juveniles have a range of discretion in choosing the appropriate action to take. Officers shall use the least coercive method among reasonable and available alternatives.

Officers should bear in mind that only a small percentage of juveniles commit the majority of juvenile crimes. The vast majority of juvenile offenders are likely candidates for release to parents or positive diversion and intervention strategies. With this in mind, officers shall, whenever reasonable and justified under department policy, take those measures necessary to effect positive changes in juvenile criminal offenders that are consistent with state law, city ordinances, department policy, and the safety and security interests of the community.

The constitutional rights of all juveniles shall be protected at all times. The Toledo Police Department is committed to the development and implementation of lasting programs to prevent and control juvenile delinquency.

II PROCEDURES

1 JUVENILE ARREST AND ALTERNATIVES TO ARREST

1.1 JUVENILE ARREST WITH CUSTODY

Juveniles committing criminal offenses are subject to the same security procedures as adult offenders, and shall be handcuffed per Directive 402.5/2 – TRANSPORTING PRISONERS.

1.1.1 All juveniles arrested **and** booked for committing any felony or any misdemeanor of the 1st through 4th degree shall be fingerprinted and photographed. No judicial consent is necessary for fingerprints or photographs for these arrests. Even though the Juvenile Justice Center (JJC) fingerprints and photographs juveniles for felonies and certain misdemeanors, each time a juvenile is booked for any felony or any misdemeanor of the 1st through 4th degree, the arresting officer shall make the request for fingerprinting and photographing to the intake personnel during the booking process. Officers shall stay with the juvenile throughout the booking process to ensure this procedure is accomplished. Fingerprints obtained are submitted to Ohio Bureau of Investigation and Identification (BCI&I) by JJC. Scanned fingerprints

405.1 JUVENILES

are automatically entered into the Automated Fingerprint Identification System (AFIS).

- (a) Juveniles **shall not** be fingerprinted or photographed when booked for any traffic offenses, status offenses or minor misdemeanors.
 - (b) The juvenile shall then be processed for intake.
- 1.1.2 When an officer takes a juvenile into custody for an offense, the officer shall transport the juvenile to the appropriate facility without delay. The juvenile should be sight and sound separated from adult prisoners while in any temporary detention room/area. Upon completion of required reports, the juvenile shall then be transported to the JJC and processed for intake.
- a) Juveniles should be visually monitored by officers while in a secured area.
 - b) Juveniles charged with felony delinquent acts are not to be confined more than six (6) hours.
 - c) Juveniles charged with a misdemeanor delinquent act are not to be confined more than three (3) hours.
- 1.1.3 Officers filing criminal complaints or status offenses against juvenile offenders not in custody must appear in person at the JJC intake desk to swear to the affidavit prior to the end of their tour of duty. The affidavit shall be left with the Juvenile Clerk. The yellow copy of the CRIME REPORT (TPD FORM 38.1) or a draft copy of the report if generated in ReportWISE shall accompany the juvenile affidavit.
- 1.1.4 Officers shall determine if a juvenile has been or is in danger of being harmed. If an officer believes that a juvenile was harmed or is in danger of being harmed, he may place the juvenile into the custody of Lucas County Children's Services.
- 1.1.5 Officers shall make a reasonable attempt to notify a parent/legal guardian of the arrest of the juvenile.

1.2 **INTOXICATED JUVENILES**

Intoxicated juveniles or juveniles found to be in possession of intoxicants or drugs of abuse may be taken into custody and transported to a district station. The affidavit(s) and CRIME REPORT shall be completed. The juvenile shall then be transported to JJC and processed for intake unless the juvenile is released to parents/legal guardian. See Directive 405.1/1.4 – ARREST AND RELEASE TO PARENTS/LEGAL GUARDIAN.

- 1.2.1 The JJC Intake Officer has the authority to have the transporting unit get a medical clearance at a local hospital if they feel the juvenile is intoxicated.

1.3 **OPERATING A VEHICLE WHILE INTOXICATED - JUVENILES**

Juveniles arrested for operating a vehicle while intoxicated shall be transported to a district station for an intoxilyzer test.

1.4 **ARREST AND RELEASE TO PARENTS/LEGAL GUARDIAN**

When a juvenile is arrested, an officer may choose to release the juvenile to the custody of his parent/legal guardian, in lieu of booking the juvenile into the JJC. Generally, this procedure will be used for misdemeanor, non-violent crimes (e.g., shoplifting).

- 1.4.1 Officers shall advise the parent/legal guardian of the facts involving the incident and that criminal charges are going to be filed against the juvenile.

- 1.4.2 Officers shall also advise the parent/legal guardian that Juvenile Court will summon the juvenile and parent/legal guardian with the date and time to appear for a hearing.
- 1.4.3 An officer may release a juvenile to a parent/legal guardian at the scene of the alleged criminal act. The juvenile does not have to be transported to a district station to be released.

1.5 ISSUANCE OF A TRAFFIC CITATION

If a traffic citation is issued, the officer shall explain the required procedures and shall advise the juvenile that a parent/legal guardian must be present during court proceedings. See Directive 406.1/4.2 – JUVENILE TRAFFIC CITATIONS.

1.6 POLICE PREVENTION TEAM (PPT)

In an effort to avoid prosecution for minor violations of the law or status offenses, officers may refer juvenile offenders to the Toledo Police Prevention Team (PPT) for placement into a diversion program. Upon successful completion of the program, pending charges may be dismissed. Failure to complete the program, as prescribed, may result in charges being filed for the original violation.

1.6.1 If an officer feels a first-time offender may benefit by being placed in the PPT program, the following procedures shall be followed for the referral to proceed:

- Make contact with the parent/legal guardian of the juvenile offender.
- Briefly explain the diversion program, and direct the parent/legal guardian to the Toledo Police website for more information.
- Receive verbal consent from the parent/legal guardian indicating they would prefer the juvenile be placed in the diversion program, in lieu of charges being filed in court.
- Release the child to the parent/legal guardian.
- Ensure that the narrative portion of the incident/crime report is sufficient to provide information necessary for an affidavit or affidavits to be filed, at a later date, should the juvenile offender fail to complete the diversion program, as required.
- Check the PPT box on the report, if generated in ReportWISE. Otherwise, write “PPT” in the top right corner of the incident/crime report and turn the report in at the end of the shift.

1.6.2 If the parent/legal guardian indicates that they are not interested in the PPT Program, the officer(s) shall follow the established procedures for booking or releasing the juvenile to his parent/legal guardian and submit the affidavit to the Juvenile Clerk.

1.6.3 Juveniles are not eligible for the PPT program under the following circumstances:

- If they deny the charges
- If the offense is a traffic violation
- If they are currently on formal probation
- If they do not reside in the City of Toledo

1.7 RELEASE TO PARENT/LEGAL GUARDIAN; NO CHARGES FILED

There are instances when criminal charges for minor infractions will not be filed on a juvenile, but an officer feels the juvenile’s involvement needs to be brought to the attention of a parent/legal guardian. In these cases, the officer may counsel both the

405.1 JUVENILES

juvenile and parent/legal guardian concerning the actions of the juvenile and possible consequences if the behavior is repeated.

1.7.1 A CRIME REPORT shall be completed by officers to document the reason for the contact and the release of the juvenile to the parent/legal guardian

1.8 **RELEASE WITHOUT FURTHER ACTION**

If an officer determines that no criminal offense was committed and a parent/legal guardian does not need to be notified, the officer may simply release the juvenile with no further action required.

1.9 **CONTRIBUTING TO THE DELINQUENCY OF A MINOR**

Adults found to be in violation of the law for providing intoxicants to a juvenile shall be charged in Lucas County Juvenile Court for Contributing to the Delinquency of a Minor.

1.9.1 To file charges against an adult, a completed juvenile affidavit must be submitted.

1.9.2 The required affidavit and CRIME REPORT (yellow copy or draft copy) must be submitted to the Juvenile Clerk of Courts, or intake officer at JJC. Juvenile Court personnel will issue court dates.

2 **INTERVIEWS AND INTERROGATIONS**

2.1 **NON-CUSTODIAL INTERVIEWS**

Interviews with juveniles do not require the presence of a parent/legal guardian.

2.1.1 Non-custodial interviews do not require the advisement of a juvenile's Miranda warnings. However, in determining whether a juvenile is in "custody" for purposes of this requirement, the standard of review is whether a reasonable person would have felt he was not at liberty to terminate the interview and leave. To determine how a suspect would have assessed his freedom of movement, courts look at the circumstances surrounding the interview, including:

- The location of the questioning.
- The duration of the questioning.
- Statements made during the interview.
- The presence or absence of physical restraints during the questioning.
- The release of the suspect at the end of the questioning.

2.1.2 A non-custodial interview with a juvenile should be done with the consideration of the juvenile's, mental state, and/or any other factors or influences experienced by the juvenile.

2.1.3 A "voluntary" statement by a juvenile during a non-custodial interview is admissible.

2.2 **INTERROGATIONS**

Prior to custodial interrogation of a juvenile, a parent/legal guardian should be present. In the absence of a parent/legal guardian a juvenile may be questioned and may provide statements if reasonable assurances can be made that the juvenile fully understands his Miranda rights.

2.2.1 Prior to interrogation, both the juvenile and adult, if present, shall be advised of the Miranda rights of the juvenile.

- 2.2.2 If, prior to or during questioning, either the parent/legal guardian or juvenile expresses the desire to speak with an attorney, all questioning must cease and the rights of the juvenile must be respected.
- 2.2.3 The constitutional rights of the juvenile shall be strictly adhered to.
- 2.2.4 Interrogations of juveniles should not extend over periods of time that could be considered unreasonable or harassing and, whenever possible, should be conducted by only one officer at a time.
- 2.2.5 Officers shall explain department policies and procedures and other pertinent information about juvenile justice system procedures to all juveniles being interrogated.

3 **STATUS OFFENSES**

3.1 **STATUS OFFENDER**

A status offender is a juvenile who has violated a law applicable only to a juvenile, such as curfew violators, runaway or, unruly. When a status offender is taken into custody, arresting officers shall complete a CRIME REPORT.

- 3.1.1 At no time, on a status offense arrest **ONLY**, shall a juvenile be transported to any police facility. Juvenile status offenders shall be transported to the Juvenile Justice Center and released to the Assessment Center or intake.

EXCEPTION: If the juvenile is arrested for a status offense **and** criminal offense(s), which is **not a status offense** (e.g., assault, resisting arrest, disorderly conduct, etc.), the juvenile is **not** considered a status offender. Directive 405.1/1.1 – JUVENILE ARREST WITH CUSTODY still applies for juveniles arrested for felony and/or misdemeanors 1st through 4th degree.

3.2 **SAFEKEEPING DEPENDANT JUVENILE**

When a juvenile is taken into custody for dependency, neglect or as an abused child, officers shall complete a Crime Report and transport the juvenile to Lucas County Children’s Services.

4 **REMOVED**

5 **MEDICAL SERVICES FOR JUVENILE PRISONERS**

5.1 **SICK/INJURED JUVENILES**

Department employees shall ensure all sick and injured juveniles promptly receive any necessary medical treatment.

- 5.1.1 When a juvenile in the department's custody is injured, the custodial officers shall ensure the juvenile receives proper medical attention, either through the Toledo Fire and Rescue Department or by transporting the juvenile to the nearest hospital for treatment with EMS approval.
- 5.1.2 If the juvenile is treated and released, officers shall obtain the medical after-care instructions or discharge summary along with other necessary paperwork for the juvenile.
- 5.1.3 If the juvenile is admitted to the hospital, the officer shall complete the juvenile affidavit, go to the JJC and swear to the affidavit.

405.1 JUVENILES

5.1.4 If a juvenile is transported to JJC but is refused acceptance pending medical treatment, the officer shall notify a supervisor. Upon completion of treatment, the juvenile shall be returned to the JJC along with medical after-care instructions.

5.1.5 Reasonable attempts shall be made to notify a parent/legal guardian concerning the injuries and treatment.

5.2 JUVENILE EMERGENCY MENTAL HEALTH SERVICE

5.2.1 See Directive 401.9 – MENTALLY ILL AND DEVELOPMENTALLY DISABLED PERSONS.

6 JUVENILE PROGRAMS

6.1 TOLEDO-LUCAS COUNTY POLICE ATHLETIC LEAGUE (PAL)

PAL is a prevention program that relies heavily on athletics and recreational activities to create a bond between the police department, sheriff's office, fire department, and youth in the community.

The framework allows law enforcement officers to become mentors to young people in order to reinforce the values of hard work, competition and respect. This type of positive influence can counter gang influences and substance abuse, and reduce potential violence.

This program targets the disadvantaged youth who, without PAL, could not afford to participate in such activities. It provides juveniles better choices for safe recreational activities.

DIRECTIVE 406.1	TOLEDO POLICE DEPARTMENT		
EFFECTIVE November 01, 2002	STANDARD OPERATING GUIDELINES		
REVISED April 1, 2016	CHIEF OF POLICE: <i>Michael C. Fournelle</i>	PART: OPERATIONS	PAGES 14
RESCINDS February 1, 2016	TRAFFIC ENFORCEMENT AND CITATIONS		

I POLICY

Traffic crashes are a leading cause of death, injury and property damage. Since active, visible traffic enforcement deters crime and crashes, officers are expected to be alert to traffic violations and take enforcement action when they occur.

Officer safety must be the paramount consideration in all traffic stops as the risks involved in stops include not only hazards from the persons being stopped, but also from other traffic and persons at or near the location of the stop. However, officers must not ignore common courtesy and helpfulness.

II DEFINITION

PROFILING – Racial/ethnic/gender profiling is defined as the stopping, questioning, detention, arrest, or other disparate treatment of any person based solely on characteristics of race, ethnicity, gender, gender identity or sexual preference.

III PROCEDURES

1 TRAFFIC ENFORCEMENT OBJECTIVES

The traffic enforcement objectives of the department are to reduce traffic crashes and injuries and to facilitate the safe and expeditious flow of vehicular and pedestrian traffic through the public's voluntary compliance with traffic regulations.

- 1.1 The department will seek to achieve this objective through a combination of education and enforcement.
- 1.2 The department will seek to educate the public regarding traffic regulations through programs aimed at exposing specific problems, by publishing traffic crash and injury statistics and by giving notice and warning of changes in regulations prior to taking enforcement action.
- 1.3 Officers shall take appropriate action for each traffic violation witnessed or reported to them, either in the form of physical arrest, issuance of a citation or verbal warning whenever possible.

2 RACIAL, ETHNIC OR GENDER PROFILING

2.1 FAIR AND EQUAL TREATMENT

Officers must ensure all violators receive equal and fair treatment regardless of race, ethnicity, gender, gender identity, or sexual orientation. Racial, ethnic, gender, gender identity, or sexual orientation profiling are totally unacceptable patrol tactics and will not be condoned.

2.2 BASIS OF TRAFFIC STOPS

Officers shall make traffic stops only on the basis of reasonable suspicion or probable cause. Officers shall make arrests only on the basis of probable cause, and shall not

406.1 TRAFFIC ENFORCEMENT AND CITATIONS

stop, detain, search or arrest anyone based on racial, ethnic, gender, gender identity, or sexual orientation profiling.

3 TRAFFIC ENFORCEMENT

3.1 SELECTIVE TRAFFIC ENFORCEMENT

The department conducts statistical and visual surveys to determine by location, time, and day of the week, which violations are causing accidents.

3.1.1 Based upon the information developed, the department deploys its personnel to those specific areas to detect violations and to take appropriate action.

3.1.2 The Traffic Section shall provide crash analysis data to field operations units when necessary.

3.1.3 When the department receives complaints of a specific traffic problem in a particular area, it will assign personnel to investigate and take necessary enforcement action.

3.2 VISIBLE PATROL

Based upon the principle that the most effective deterrent to traffic law violations is visible patrol in a distinctly marked vehicle, and in the interest of maintaining a posture of prevention as opposed to apprehension, traffic law enforcement activities will be conducted accordingly. Traffic patrol or observation, whether overt or covert, may be conducted at any time by marked units. Unmarked or unconventional vehicles shall only be used to observe and detect violators. State law prohibits the use of unmarked vehicles for the purpose of traffic enforcement if the exclusive or main purpose of the officer is enforcing motor vehicle or traffic laws (ORC 4549.13).

3.2.1 In those areas where stationary observation is necessary to maximize the effectiveness of a selective enforcement effort, officers may park their vehicles in a conspicuous location in such a manner that traffic flow is not impeded.

3.2.2 Marked vehicles shall normally conduct all traffic stops.

3.2.3 The Traffic Section is responsible for conducting roadside safety checks (commercial enforcement, OVI/sobriety checkpoints, etc.).

3.3 REASONABLE SUSPICION TO STOP

All uniformed officers are expected to enforce the traffic laws and stop and detain motorists whenever there is reasonable suspicion that they have committed, are committing, or are about to commit an infraction of the law.

3.3.1 Appropriate enforcement action must be taken for every stop, generally in the form of a citation, verbal warning, or arrest.

3.3.2 The department discourages the "piling on" of citations for multiple violations. The motorist should be cited for the offense which formed reasonable suspicion for the stop and the most serious of the other violations, with warnings issued for any additional violations, if appropriate.

3.3.3 This policy does not prohibit stopping someone suspected of a crime based on one or more attributes of the perpetrator's description, or considering a person's apparent age when investigating curfew or liquor law violations.

3.4 UNIFORM TRAFFIC ENFORCEMENT

In order to apply uniform traffic enforcement policies, the following guidelines have been established:

- 3.4.1 **Operating a Vehicle while under the Influence of drugs/alcohol (OVI)** – If an officer establishes probable cause that an offender is under the influence of drugs/alcohol, the violator shall be appropriately charged.
 - 3.4.2 **Driving under suspension/revocation or no operator's license** – Officers shall not permit an unlicensed driver to drive the vehicle from the location of the stop. The driver should be appropriately charged.
 - 3.4.3 **Speed violations** – Drivers who exceed the established speed limits may be warned or issued a traffic citation based upon the conditions and the circumstances at the time of the violation.
 - 3.4.4 **Other hazardous violations** – The vehicle operator who commits a traffic violation in a hazardous or high accident location should be cited accordingly.
 - 3.4.5 **Off-road vehicle violations** – Upon receiving a complaint regarding trespassing and/or property damage caused by the operation of an off-road vehicle when the property owner wishes to file charges, the investigating officer shall attempt to identify the vehicle operator and take appropriate action.
 - 3.4.6 **Equipment violations** – A traffic citation should be issued when a vehicle's required equipment is either missing or inoperable/damaged and the operator should have been aware of the problem, e.g., old damage to a front fender with a missing headlight, cracked windshield, etc.
 - Any vehicle deemed unsafe as specified in the ORC and TMC shall not be allowed to operate on the public roadways.
 - 3.4.7 **Public carrier or commercial vehicle violations** – The operator of a public carrier or commercial vehicle that commits a traffic violation shall be handled in the same manner as the operator of a private vehicle who commits a similar violation.
 - 3.4.8 **Other non-hazardous violations** – Non-hazardous traffic violations are violations of the traffic laws affecting the use or protection of streets or highways, but not enacted primarily to regulate safe movement of vehicles and pedestrians, e.g., a registration.
 - The decision to either cite or warn a violator for a non-hazardous traffic violation will ultimately rely on the officer's judgement based on the totality of the circumstances and the conditions at the time of the violation.
 - 3.4.9 **Newly enacted laws or regulations** – A warning should normally be issued for a non-hazardous traffic violation of a newly enacted law or regulation.
 - 3.4.10 **Violations resulting in traffic collisions** – A traffic citation should be issued based upon probable cause as determined by the investigation.
 - 3.4.11 **Pedestrian and bicycle violations** – Pedestrians or bicyclists whose actions create a hazard to themselves, pedestrians or vehicular traffic should be charged accordingly.
- 3.5 **MOTORIST ASSISTANCE**
 When an officer observes an obviously disabled vehicle or a motorist who appears to be lost, stranded or in some distress, he shall stop and offer assistance.
- 3.5.1 The first priority shall be the safety of the citizen and officer.
 - 3.5.2 If the officer determines a medical or fire emergency exists, he shall notify the dispatcher and request Toledo Fire and Rescue respond to the scene.

406.1 TRAFFIC ENFORCEMENT AND CITATIONS

- 3.5.3 Stranded citizens shall be transported to a safe location where a phone or some other assistance is available.
- 3.5.4 Officers may assist a motorist by changing a tire, obtaining gas or water or calling a tow truck or mechanic, with the approval of the dispatcher, dependent on calls for service. All towing shall be in accordance with existing department policies.
- 3.5.5 Officers shall not use department vehicles to jump-start other vehicles.
- 3.5.6 Citizens shall not be left stranded or with a disabled vehicle unless the officer is certain that they are in a safe position and they have summoned the proper assistance.
- 3.5.7 If the vehicle is in a hazardous or unsafe location, the officer shall remain with the disabled vehicle until the hazardous condition is remedied, keeping in mind the officer's safety. If the officer cannot safely stay with the vehicle, road flares, warning signs or additional police vehicles may be required to protect the officer and other vehicles from striking the hazardous vehicle.

3.6 HAZARDOUS HIGHWAY CONDITIONS

When an officer discovers a hazardous highway condition on the roadway, he shall report the hazard to the dispatcher and request the appropriate response.

- 3.6.1 The dispatcher will notify the proper authority to respond to the hazard (Streets Department, ODOT, Traffic Engineering, etc.).
- 3.6.2 If the hazard is such that it presents a significant threat to safety, the officer shall take steps to protect the scene. Depending on the circumstances, the officer may lay out a flare pattern; utilize police vehicles to protect the scene, direct traffic, etc.

3.7 VIOLATOR CONTACT

Traffic enforcement is one of the many routine tasks performed by officers, but for violators it frequently is an emotionally traumatic experience. In many cases, this is the only contact a person has with the police.

- 3.7.1 Officers should be aware of these conditions and should strive to make each contact educational, and to leave the violator with the impression that the officer has performed a necessary task in a professional and courteous manner.
- 3.7.2 Officers shall strive to maintain a proper balance between asserting sufficient command presence to control the situation and projecting a courteous, non-confrontational attitude.

3.8 NON-RESIDENT AND MILITARY VIOLATORS

Since the Uniform Vehicle Code is followed by a majority of the states, including Ohio, non-residents are rarely subjected to unfamiliar traffic signs or inconsistent regulations. Therefore, unless the traffic regulation violated is one unique to the Toledo area, no immunity should be granted because a person is a non-resident.

- 3.8.1 Traffic citations for non-residents and military personnel shall be handled and processed in the same manner as local residents.
- 3.8.2 License confiscation is only mandatory for OVI, NOL and SOL violations or when ordered by the Bureau of Motor Vehicles.

3.9 FOREIGN NATIONALS AND DIPLOMATS

Issuing a traffic citation to a foreign national or diplomat does not require any special procedures.

- 3.9.1 Foreign nationals with diplomatic immunity cannot be compelled to sign a citation.
- 3.9.2 A copy of the citation and any other documentation regarding the incident should be forwarded to the U.S. Department of State, as soon as possible.
- 3.9.3 Arrest or prolonged detention of a foreign national requires notification to the person's embassy and the U.S. Department of State.
- 3.9.4 In cases involving OVI, accidents, personal injury, etc., telephonic notification to the U.S. Department of State is urged.
 - Field sobriety testing should be offered and fully documented.
 - If the officer deems the diplomat too impaired to drive safely, the officer shall not permit the diplomat to continue to drive. Arrangements shall be made for safe transportation; officers may transport the diplomat to a location, contact a friend/family member of diplomat, taxi, etc.
- 3.9.5 Consular officers (diplomats) of foreign nations are normally immune from criminal charges unless ordered by a federal magistrate. Consular officers have no immunity from traffic or parking citations. Immunity of criminal charges normally does not extend to their families.

3.10 LEGISLATORS

Members of the Ohio General Assembly may not be arrested while traveling to, from and during sessions of the General Assembly. Traffic citations, however, may be issued, as per the OHIO REVISED CODE, Sections 2331.11 and 2331.13, respectively.

3.11 SOBRIETY/SAFETY CHECKPOINTS

The Traffic Section shall conduct all sobriety checkpoints. Only specially trained personnel under the direction of the Traffic Unit shall conduct roadside safety checks.

3.12 ENFORCEMENT OF PARKING REGULATIONS

To ensure fair access to parking and to expedite the flow of vehicular traffic, street parking is restricted or otherwise controlled in various areas of the city. All existing parking regulations shall be enforced with reasonableness and impartiality.

4 TRAFFIC CITATIONS AND PARKING TICKETS

4.1 TRAFFIC CITATIONS AND PARKING TICKETS

All traffic citations shall be issued on a Uniform Traffic Ticket. Parking tickets shall be issued on a Parking Violation Notice.

- 4.1.1 All traffic citations and parking tickets shall be legibly written.
- 4.1.2 On traffic citations, the name of the person cited shall be entered as it appears on the driver's license: first name, middle initial and last name.
- 4.1.3 Verify the address and, if different from the license, list the present address in the space provided on the side.
- 4.1.4 List the person's telephone number. If none, then note "no phone."
- 4.1.5 At the bottom of the citation the "charging" officer shall sign his name. This shall be the officer who is charging the person for the violation.
 - The charging officer shall legibly print his I.D. number in the box marked "I.D. No."
 - If the charging officer is not the officer that is issuing the citation to the violator, the issuing officer shall sign his name and print his I.D. number in the appropriate location on the bottom of the citation.

406.1 TRAFFIC ENFORCEMENT AND CITATIONS

- o If the charging officer is the issuing officer, the “same as above” box will be checked.
 - The charging officer signs under penalty of falsification; the citation does not need to be sworn to.
 - Officers who work two-man units shall list their partner and his I.D. number on the inside of the citation, along with any other supplemental comments about the violation.
 - Officers shall only list the last four numbers of the driver’s Social Security Number on the front page of the citation.
 - Officers shall advise notice of the court appearance schedule, and indicate if the court appearance is mandatory.
 - Officers shall provide availability of options if the court appearance is not mandatory (i.e., paying the citation fine amount via mail).
- 4.1.6 Officers witnessing the violation shall be the complainant and shall sign all applicable affidavits, summons, All Purpose Citations (APC) and Traffic Citations. In the case of two-man units or incidents involving multiple officers, only one officer shall sign all of the affidavits, summons, APCs and Traffic Citations issued to one individual, unless extenuating circumstances exist which prevent that officer from doing so. Extenuating circumstances, along with complete Social Security Numbers of any involved persons, shall be documented in the CRIME REPORT.
- 4.1.7 On parking tickets, officers shall list their unit number and shift in the same box as their name.

4.2 JUVENILE TRAFFIC CITATIONS

All juvenile traffic violators are required to appear in Lucas County Juvenile Court.

- 4.2.1 Officers shall assign a court date on Friday at 0800 hours. The court date should be at least seven (7) days from the date of the citation.
- If a traffic violation happens on a Thursday, for example, officers shall assign the court date for the Friday of the following week.
 - If the following Friday falls on a holiday where the Court is closed officers shall assign a court date for the following Friday.
- 4.2.2 On citations issued to juveniles, officers shall list the following information on the right side of the citation in the areas marked "Name, Employment-Occupation":
- Mother's name.
 - Father’s name.
 - School and grade.
- 4.2.3 Juvenile OVI offenders shall be transported to a district station for an intoxilyzer test and processing. There are no procedural differences in the processing of an adult OVI or a juvenile OVI.

4.3 REMOVED

4.4 PROOF OF FINANCIAL RESPONSIBILITY

Any officer, who issues a citation for a traffic offense that requires proof of financial responsibility or requires the offender to appear in court, shall inform the violator he is required to show proof of insurance during his court appearance.

4.5 SECURE STORAGE AND DISTRIBUTION

All boxes of traffic citations and parking tickets received by the department shall be initially stored in a secure (locked) location by the Traffic Section.

- 4.5.1 The Traffic Section will distribute the ticket books as they are needed.
- 4.5.2 The Traffic Section shall keep a log of the citation books that are distributed, including the serial numbers and to whom they are distributed.
- 4.5.3 Each district, section or unit that obtains new traffic citations or parking tickets shall store them in a secure (locked) location.
- 4.5.4 Each district, section or unit that maintains a supply of traffic citations or parking tickets, shall maintain the TRAFFIC CITATION DISTRIBUTION LOG (TPD FORM 17.13) and PARKING TICKET DISTRIBUTION LOG (TPD FORM 17.14), for issuance and accountability of traffic citations and parking ticket books.
 - When an officer needs a supply of citations or tickets, a command officer shall sign out the books to the officer and record the beginning and ending serial number of each book, and the name and I.D. number of the officer who obtained the book.
 - Completed log sheets shall be forwarded to the Traffic Unit, where they will be kept on file.
- 4.5.5 Officers obtaining books of traffic citations or parking tickets shall be responsible for the citations/tickets contained in the books and shall maintain possession of the books.

4.6 LEDGER OF VIOLATIONS; TRAFFIC CITATIONS

When an officer issues a traffic citation, he shall record the issuance of the ticket on the Officer's Ledger of Violations, which is attached to the ticket book.

- 4.6.1 The citation number and the name of the violator shall be recorded on the ledger.
- 4.6.2 If the citation is voided, the officer shall write the citation number and the word "VOID" on the ledger entry.
- 4.6.3 When all of the citations in the book are used and the ledger is completely filled, the officer shall forward it to the Traffic Unit.
- 4.6.4 The Traffic Section shall be responsible for reviewing all ledgers for completeness. The completed ledgers will then be initialed by the Traffic Section and filed. The Traffic Section shall also review the sign-out logs to determine if there are any discrepancies.

4.7 LEDGER OF VIOLATIONS; PARKING TICKETS

Parking tickets are handled in the same manner as traffic citations except that the officer shall record the ticket number and the vehicle license number on the front flap of the ticket book.

- 4.7.1 If a vehicle drives off prior to being issued a parking ticket, the officer shall complete the ticket and write "DRIVE-OFF" across the front of the ticket.
- 4.7.2 The ticket shall then be routed to the Records Section for further follow-up.

4.8 LOST CITATIONS

If a book of traffic citations or parking tickets is lost, the officer shall forward a SUPERVISOR'S REPORT to his supervisor indicating the book has been lost. The SUPERVISOR'S REPORT shall then be forwarded to the Traffic Section for accountability and filing.

406.1 TRAFFIC ENFORCEMENT AND CITATIONS

5 REQUEST FOR DRIVER'S LICENSE RE-EXAMINATION

5.1 REQUEST FOR RE-EXAMINATION

When an officer observes a vehicle operator who, in the officer's opinion, may be incompetent to operate a motor vehicle due to a physical impairment or mental deficiency, he shall complete OHIO BUREAU OF MOTOR VEHICLE FORM BMV2308.

5.1.1 The form should be forwarded to the Traffic Section sergeant. The sergeant will ensure the form is properly completed.

5.1.2 The completed form will then be sent to the office of the Chief of Police for his signature.

5.1.3 The signed form shall be returned to the Traffic Section by the Chief's Office.

5.1.4 The Traffic Section sergeant shall mail the completed and signed form to the Ohio Bureau of Motor Vehicles.

6 TRAFFIC ENFORCEMENT DISPOSITION CODES; DISPATCHER NOTIFICATION

6.1 OFFICERS TO NOTIFY DISPATCHER

Unless circumstances prohibit, *prior to initiating a traffic stop*, officers shall notify the dispatcher by radio of the location of the stop, description of the vehicle being detained (including the license number, color, make and model, if known, and body style) and the reason for the stop. The dispatcher shall log this information.

6.2 CLEARING THE SCENE WITH THE DISPATCHER

Following a traffic stop, officers shall clear the scene by providing a disposition code that includes a letter designation in conjunction with a two digit numeric designation (DIRECTIVE 406.1/6.3 - NUMERIC DESIGNATION CODES) and appropriate arrest designation type. These codes shall be utilized only for traffic stops initiated by an officer, and apply to all such traffic stops regardless of the action taken by the officer.

6.2.1 All traffic stop disposition codes consist of the letter disposition codes (C - Charlie, D - David, etc.) along with a two-digit suffix that will represent the officer's perception of the driver's race/ethnicity and gender.

- For instance, if a vehicle is pulled over for a traffic violation, regardless of what action is taken and whether that action involves just the driver, just a passenger, or every occupant in the vehicle, the disposition code will be based upon the officer's perception of the **driver's** race/ethnicity and gender.
- Regardless of the action taken against any passenger in the vehicle, the officer's disposition code at the conclusion of the incident shall be based upon the action that was taken in relation to the DRIVER. For example: The driver is cited and released, but a passenger is arrested and booked. The officer's final disposition code will be "C" plus the appropriate 2-digit suffix.
- Likewise, if an officer is already out-of-service on an incident and makes a traffic stop (whether related to the original incident or not), the officer's final disposition at the conclusion of all activity will be based upon the traffic stop and NOT the original incident.
- Warrant or On-view arrest (appropriate designation type). Officers shall notify the dispatcher every time the driver of a stopped vehicle is arrested, with a disposition code and designation type (i.e., either a warrant or on-view arrest), upon the completion of all traffic stops.
 - Warrant arrest only: "Adam-11, by warrant"

- On-view arrest only: “Adam-11, by on-view”
 - Warrant **AND** On-view arrest (both): “Adam-11, by warrant”
 - Traffic accident investigations, where a driver is cited for an accident, shall require a disposition code, followed by a numeric designation code for the cited party.
 - “Charles-11”
 - Hit-skip accident investigations or instances where the party most responsible for an accident cannot be determined or located, shall require a disposition code, followed by a numeric designation code for any known party.
 - “Baker-11”
 - Suspect stops require only a disposition code. A numeric designation code is not necessary.
 - “A-Adam”, “D-David”, etc.
- 6.2.2 At no time shall a dispatcher accept a disposition code on a traffic stop if the format does not comply with this order.

6.3 **NUMERIC DESIGNATION CODES**

Numeric designation codes shall be used, as indicated in the following chart, to record the race/ethnicity and gender of drivers involved in officer-initiated traffic stops.

NOTE: There is no "other" or "unknown" designation. Every driver must be categorized, based upon the officer's perception.

Race/Ethnicity designation, followed by gender designation		
Race/Ethnicity	Gender	
	Male = 1	Female = 2
White = 1	11	12
Black = 2	21	22
Hispanic = 3	31	32
Asian Pacific Islander = 4	41	42
Middle Eastern, East Indian = 5	51	52
Native American = 6	61	62

WHITE MALE = **11**

WHITE FEMALE = **12**

BLACK MALE = **21**

BLACK FEMALE = **22**

HISPANIC MALE = **31**

HISPANIC FEMALE = **32**

ASIAN MALE = **41**

ASIAN FEMALE = **42**

MIDDLE EASTERN MALE = **51**

MIDDLE EASTERN FEMALE = **52**

NATIVE AMERICAN MALE = **61**

NATIVE AMERICAN FEMALE = **62**

EXAMPLES:

- Disposition code for a verbal warning issued to a black male driver is "D21," to a Hispanic female driver, "D32;" for a traffic citation issued to a Japanese male driver, "C41," to a white female driver, "C12;" for an arrest of a white male driver, "A11," an Arab male driver, "A51."

406.1 TRAFFIC ENFORCEMENT AND CITATIONS

- If a white male driver arrested on a warrant or summons as a result of a traffic stop, the officer shall notify the dispatcher with a disposition code of ***“Adam-11, by warrant.”*** If the arrest is due to an on-view charge, the officer shall notify the dispatcher with a disposition code of ***“Adam-11, by on-view”***.
- If the driver is arrested for an outstanding verified warrant AND also receives on an on-view charge, then officers shall notify the dispatcher of the warrant only, with a disposition code, of ***“Adam-11, by warrant”***.
- Since a verbal inquiry regarding race, ethnicity and gender risks exacerbating tensions during an already potentially tense encounter, the officer's perception shall be the only means of making this determination. Under no circumstances shall an officer discuss or question a driver regarding his race, ethnic origin or gender for purposes of this manual section.

7 TRAFFIC DIRECTION AND CONTROL

7.1 REFLECTIVE SAFETY VESTS

At all times, when directing or controlling traffic, regardless of the lighting conditions, officers and traffic aides shall wear department-issued reflective safety vests.

- 7.1.1 Officers and traffic aides shall also wear the reflective safety vests when directed to do so by a supervisor.
- 7.1.2 The issued black raincoat's reversible side is reflective, and may be substituted for the reflective safety vest, providing that the raincoat's reflective side is worn to exposure. Otherwise, the issued black raincoat should not be substituted for the wearing of the reflective vest.
- 7.1.3 The reflective safety vest shall always be worn as the outermost garment.
- 7.1.4 Officers and traffic aides shall be responsible for the accountability and availability of their issued vest.
- 7.1.5 A supply of vests is also stored at each district station and in the command post vehicle for use at special events, e.g., the 4th of July fireworks, Labor Day fireworks, parades, funerals, etc.

7.2 MANUAL TRAFFIC DIRECTION

Situations occur when officers are required to manually direct or control traffic. Manual direction by an officer will be handled in a manner that would enable drivers and pedestrians to recognize and respond to verbal and gestured motions.

- 7.2.1 **TO STOP TRAFFIC:** An officer, with a bladed stance, extends his arm outward with the palm toward the car to be stopped.
- 7.2.2 **TO START:** Starting from the stop position, the arm would be moved at the elbow, in a manner to indicate that the traffic may proceed. This is done by swinging the arm upwards (from the elbow down) toward the direction in which the traffic is to flow.
- 7.2.3 **RIGHT TURNS:** The officer shall gesture to the driver of the vehicle turning right to perform the turn by extending the arm toward the direction in which the turn is to be made.
- 7.2.4 **LEFT TURNS:** Only to be allowed when there is a gap in traffic or oncoming traffic is completely stopped. The officer will point in the direction of the turn when such movement can be safely made.
- 7.2.5 **PEDESTRIAN MOVEMENTS:** Stop all lanes of traffic. Talk to the pedestrians and explain when and where they need to proceed to.

7.2.6 To help enhance visibility, officers may utilize traffic cones, flashlights, traffic wands or flares while manually directing traffic.

7.3 TRAFFIC SIGNAL CONTROL BOXES

Officers shall not manually operate a traffic signal control box unless permission is received from a supervisor.

7.3.1 Anytime a box is manually operated and the officer must leave the scene, the officer shall notify the dispatcher, who will then notify Traffic Engineering that the signal control box has been changed.

7.3.2 If the box is locked or inaccessible, officers shall advise the dispatcher to contact Traffic Engineering to come to the scene and manually set the lights to the desired settings.

7.4 FIRE SCENES

Officers on the scene of fires shall assess the hazards present and take action to minimize further damage to life or property.

7.4.1 Officers shall be aware of their patrol vehicle so as not to block the flow of responding fire and rescue units.

7.4.2 Officers shall render assistance to fire and rescue personnel by ensuring the scene is clear for emergency vehicles, closing streets or alleys, directing or restricting vehicular and pedestrian traffic and protecting fire hoses from vehicular traffic.

7.5 ADVERSE WEATHER AND ROAD CONDITIONS

Adverse road conditions may arise out of many situations. These include accidental hazards such as downed power lines and debris or natural causes such as fog, ice and snow.

7.5.1 Officers shall be aware of changing weather conditions so emergency measures can be taken. This may include requesting the dispatcher to notify proper authorities to call out snow/salt plows or utility companies.

7.5.2 Officers shall be alert while directing traffic in adverse conditions, realizing that drivers may have a reduced visibility of the officer and that vehicles may require a greater stopping distance.

7.6 ACCIDENT SCENES

When dispatched to direct or control traffic at an accident scene, officers have a variety of options to protect the scene and alert oncoming traffic.

7.6.1 If a patrol vehicle is being used to direct or control traffic, it shall be positioned in such a manner so it does not become a traffic hazard.

- The patrol vehicle's emergency lights and the traffic control bar light shall be utilized at all times when the vehicle is in the roadway or protruding into the traffic flow.
- Due to safety concerns, whenever possible, officers should avoid sitting in a patrol vehicle that is being used for traffic direction.

7.6.2 If the roadway is to be closed for a prolonged period of time, officers shall notify the dispatcher to contact Traffic Engineering to respond to the scene with barricades or other appropriate temporary traffic control devices.

406.1 TRAFFIC ENFORCEMENT AND CITATIONS

8 TRAFFIC ESCORT

8.1 POLICE TRAFFIC ESCORTS

There are times when a police vehicle may be utilized for escorting non-police vehicles in various situations. Traffic escorts provide for the expeditious movement of vehicles through traffic.

8.1.1 Officers shall not participate in an escort without prior approval from the Commander of the Traffic Section.

8.1.2 A marked unit operating with lights and sirens in the emergency operation mode shall not escort non-police vehicles.

8.1.3 Only marked units with operational lights and sirens are to be utilized.

8.1.4 Prior to starting the non-emergency escort, the officer driving the lead police vehicle shall notify the driver of the escorted vehicle of the following:

- The specific route to be taken.
- To turn the headlights on.
- To maintain a safe distance from the vehicle ahead.
- Not to enter an intersection without the right-of-way unless signaled to do so by a police officer and all traffic has stopped.

8.2 TYPES OF ESCORTS

8.2.1 DIGNITARIES AND PUBLIC OFFICIALS

This type of escort is usually reserved for persons whose position entitles them to protection by the U.S. Secret Service. Prior coordination and authorization for escorts will normally be made in cooperation with other agencies (federal, state and/or local).

8.2.2 POLICE FUNERAL DETAILS

Police vehicles will normally be operated with the emergency lights operating and the siren off.

8.2.3 OVER-SIZED VEHICLES

This type of escort may be provided for vehicles that exceed the normal width, length, height or weight requirements. This escort will usually be in cooperation with other agencies (federal, state and/or local).

8.2.4 HAZARDOUS MATERIALS OR OTHER CARGO

This escort will also be coordinated with other agencies.

8.2.5 CIVILIAN ESCORTS FOR MEDICAL EMERGENCIES PROHIBITED

Under no circumstances shall an officer escort a civilian vehicle while operating Code 3 (lights/sirens) for any emergency (medical, family emergencies, etc.).

- The officer shall request a first responder or life squad to handle medical emergencies.
- Emergency transportation of civilians in police vehicles shall be done only when an officer has exhausted all reasonable efforts to obtain other transportation.
- Prior to actually transporting a civilian while operating Code 3, the officer shall contact both his supervisor and dispatcher and advise them of the situation.

8.2.6 OTHER NON-EMERGENCY ESCORTS

These may include buses, parades and vehicles carrying officials or famous personalities. Normally, only emergency lights will be activated.

9 CLASSIFICATION OF TRAFFIC STOPS

9.1 UNKNOWN RISK TRAFFIC STOPS

Unknown risk vehicle stops are defined as one where the potential for assault is likely. From a tactical standpoint, all traffic stops are unknown risk stops. Examples of unknown risk stops include fictitious registration, high profile violations (reckless operations, etc.), and unusual driver or passenger actions.

9.1.1 Making the Stop

- When initiating a traffic stop, no stop is routine
- Recognize the violation (Justification/Probable Cause for the stop).
- Choice of location for the stop if possible (available cover/concealment, traffic flow, lighting, officer safety, pedestrians in area)
- Notify dispatch
- Request back-up if needed
- Use of overhead lights, siren, takedown lights, spotlights, off-set police vehicle
- Activate in-car vehicle camera and body-worn camera if applicable

9.1.2 Approaching the vehicle

- Make safe exit and observe traffic
- Strong hand on weapon
- Flashlight in non-weapon hand and on side mirror of violator vehicle
- Prepare for possible flight of driver and/or occupants
- Order all occupants to keep hands in plain view
- Proper officer positioning at the vehicle (bladed stance, behind window of rear most occupant, force occupants to turn to speak towards your direction).
- Decide on approach (driver's side versus passenger side).

9.1.3 Violator Contact

- Always display a professional/courteous demeanor
- Obtain driver's license and insurance from the driver
- Obtain identification from occupants if applicable
- If the driver has no license or identification, have the driver exit the vehicle after turning the car off and giving the officer the keys.
- Cover officer stays with the vehicle
- Safe return to patrol vehicle while maintaining eye contact with the violator
- Determine enforcement action (warning, citation, arrest, etc)
- If an arrest is made, handcuff the suspect and search the vehicle
- Tow vehicle if necessary
- Reporting requirements
- Disposition code to dispatch

406.1 TRAFFIC ENFORCEMENT AND CITATIONS

9.2 HIGH RISK TRAFFIC STOPS

High risk vehicle stops are defined as stops where the potential for felonious assault is highly likely. When conducting a high risk stop, officers should anticipate the involvement of weapons. The suspects may be willing to do anything to prevent their apprehension. For these reasons, officers making high risk stops need to exercise extreme caution and deploy solid tactics.

9.3.1 Primary Considerations

- Recognition of high risk stop (involved in felony, drugs or weapons involved, stolen vehicle, warrants, intoxicated driver, suspicious driving behavior, suspicious activity after stop, etc.)
- Tactical considerations (wait for back-up before initiating stop)
- Choice of location for stop if possible (available cover/concealment, traffic flow, lighting, officer safety, pedestrians in area)
- Notify dispatcher of: unit number, location, license plate, color/make/model of vehicle, number of occupants, and need for back-up, tactical response of back-up).

9.2.2 Mechanics of the Stop

- Use of emergency lights/sirens
- Proper placement of primary and back-up vehicles – offset vehicles to block traffic. Use takedown lights and spotlights if necessary.
- Determine how the approach will be made. Consider use of the P.A. system, maintain cover, have suspects walk back to facing you away.

9.2.3 Approach/Suspect Contact

- Weapon drawn at high ready (if applicable) or holster ready
- Flashlight in non-weapon hand
- Control all occupants with loud, clear verbal commands.
- Stay behind the rear most occupant
- Avoid cross firing position
- Officers must communicate with each other
- Order suspects out of the vehicle one at a time and secure them before ordering out the next suspect
- Separate, search and interview suspects
- Records Bureau check of all occupants
- Systematic search of the vehicle
- Take the applicable enforcement action (notify ISB, citations, arrest, FI report, etc)
- Tow vehicle if necessary
- Reporting requirements
- Disposition Code to dispatch

RESCINDS January 1, 2015	OPERATING VEHICLE IMPAIRED (OVI)		
	CHAPTER: TRAFFIC OPERATIONS		

I POLICY

It shall be the policy of the Toledo Police Department to strictly enforce the provisions of the Ohio Revised Code and other applicable codes that apply to those who would operate a vehicle under the influence of alcohol or drugs. This policy also establishes guidelines for officers requesting the use of the Toledo Police Breath Testing Equipment.

II PROCEDURES

1 OPERATING VEHICLE UNDER THE INFLUENCE OF DRUGS/ALCOHOL (OVI) ENFORCEMENT

1.1 OVI ENFORCEMENT

Officers shall follow the established procedures as outlined in the Toledo Police Department OVI Manual.

1.2 FELONY DUI ARREST PROCESSING

Under Ohio Revised Code 4511.19 a person who has been arrested for OVI and has been convicted of OVI three times in the previous ten years or five times in the previous twenty years shall be charged with a felony OVI by the Traffic Section.

1.2.1 Steps to determine if a detainee can be charged with felony OVI:

- Check the driving history of the detainee with records personnel to determine if there are prior OVI convictions.
- If prior OVI convictions, complete a Supervisors Report (TPD Form 20.7) listing the prior OVI convictions and place the report in the OVI packet.
- Officers **shall initially charge** the detainee with the Basic OVI Law, ORC 4511. 19 (A) (1) (a) and any other traffic violations.
- The OVI/SOL Unit will then review the OVI case and determine if felony status applies.

2 BREATH TESTING

In the event that the arresting officer(s) is not a certified I-8000 intoxilyzer operator, he shall request that a certified I-8000 Intoxilyzer Operator be immediately dispatched to the designated District Station.

2.1 If the dispatcher cannot locate a certified Intoxilyzer Operator working on the channel, one shall be dispatched from another channel.

2.2 If Communications personnel cannot raise a certified Intoxilyzer Operator, the requesting officer shall have Communications check with UTPD, Ottawa Hills PD or OSP for an I-8000 Intoxilyzer operator.

406.2 OPERATING VEHICLE IMPAIRED

3 PROCESSING AND REPORTS

The officer shall ask the driver to submit to a blood test or urine test. Officers shall cite the subject for OVI ORC 4511.19 (A) (1) (a), and all other traffic citations pertinent to the accident. In addition, officers shall complete the LUCAS COUNTY CORONER’S FORENSIC TOXICOLOGY PROPERTY CONTROL FORM (if applicable), and submit it with the OVI package. 3.7 **SUBJECT CAUSES SERIOUS INJURY OR DEATH TO ANOTHER**

An **accident investigator** shall investigate all OVIs which involve serious injury or death to a person. In incidents involving suspected OVI drivers, standard procedure is to read the ADMINISTRATIVE LICENSE SUSPENSION FORM, BMV 2255, prior to offering the suspect a blood, breath or urine test. This has been true even if the suspect was not being physically arrested, or issued a citation due to extenuating circumstances, such as injuries sustained in an auto accident. A problem has been identified with this procedure as the wording on the ADMINISTRATIVE LICENSE SUSPENSION FORM, BMV 2255, which advises the suspect that he is under arrest when the tests are offered. If the person is not arrested or cited, the test results may not be admissible in court.

Additionally, if the suspect caused serious injury or death to another person, the OVI may become an element of a more serious charge, such as Aggravated Vehicular Assault, or Aggravated Vehicular Homicide, if OVI is not charged.

To ensure that test results are admissible in court, the following procedure shall be used whenever an individual is involved in a serious injury or fatal accident, and is not being placed under arrest. **The accident investigator shall not read the back of the ADMINISTRATIVE LICENSE SUSPENSION FORM, BMV 2255 to the suspect.**

3.7.1 The individual shall be asked to voluntarily submit to a blood, breath, or urine test. The WAIVER OF SEARCH WARRANT BLOOD, BREATH OR URINE SAMPLE (TPD FORM 17.23), shall be filled out and signed, if consent is given.

406.2 OPERATING VEHICLE IMPAIRED

3.7.2 If the individual refuses, the assigned accident reconstructionist shall proceed by search warrant to secure any blood or urine samples taken at the medical facility by staff.

3.7.3 If blood or urine samples are not taken by the medical facility, the assigned accident reconstructionist shall proceed by search warrant to secure a blood sample from the individual, by following the established procedure.

3.7.4 REMOVED

4 **OVI/SOL UNIT**

The OVI/SOL Unit shall be responsible for conducting and processing investigations concerning OVI's, Felony OVI's, SOL's, and Wrongful Entrustment cases.

5 **ALCOHOL ENFORCEMENT COUNTERMEASURES**

Alcohol enforcement countermeasures are additional enforcement techniques that generally go beyond normal traffic enforcement duties. The Traffic Section has the primary responsibility for conducting alcohol enforcement countermeasures. The Traffic Section commander shall analyze crash data and OVI arrest reports to determine where, when, and how alcohol countermeasures are to be employed. Summaries of OVI arrest reports will be provided to the Operations Division for use by district units while they are on patrol.

III SECURITY

1 PROCESSING AREAS

1.1 GENERAL GUIDELINES FOR USE OF A PROCESSING/TESTING AREA

The area where the alcohol breath tests are conducted are considered secured areas.

- 1.1.1 Officers shall inspect the Processing/Testing Area for weapons, contraband, or unsafe conditions prior to placing a detainee in the room/area and immediately after removing the detainee.
- Prior to placing a detainee into a Processing/Testing Area, officers shall remove all property from the detainee. The property shall be placed in one (1) of the property lockers provided near the Processing Area. Officers shall secure the locker and maintain possession of the property locker key until the property transfers with the detainee.
 - Weapons, contraband or evidence shall be handled in accordance with existing procedures. All other property shall transfer with the detainee when they are transported to another facility or released from custody.
- 1.1.2 While in a Processing/Testing Area, all detainees shall be handcuffed to a handcuff detainment device to ensure detainee safety, officer safety, prevent escape, and to prevent damage to the Processing/Testing Area, if applicable.
- The proper handcuffing technique to secure a detainee to a handcuff detention device is both hands handcuffed together behind the back with the operable portion of the handcuff detention device attached around the chain or hinge portion of the detainee’s handcuffs.
 - If no detention device is available, officers shall ensure that both of the detainee’s hands remain handcuffed behind the back.

BREATH TESTING EQUIPMENT 406.4

- The handcuffs may be removed from the detainee to conduct the required breath tests.
 - Once the tests have been concluded, the detainee shall be removed from the Processing/Testing Area and relocated to the Temporary Detention Area and secured per DM 306.1, while the officer completes required paperwork.
- 1.1.3 While a detainee is in the Processing Area, the officer shall keep the detainee under continual supervision.

1.2 SECURITY MEASURES

- 1.2.1 Officers shall secure all firearms before entering a Processing Area with a detainee, or before entering a Processing Area that contains a detainee. Officers shall secure their firearms in one (1) of the gun lockers installed outside the Processing Area entrance. Officers should also consider securing other potentially harmful weapons prior to entering a Processing Area.
- 1.2.2 Officers may utilize a duress alarm or the emergency button on a portable radio to summon assistance.
- 1.2.3 Only authorized personnel (e.g., police personnel) shall be permitted in Processing Areas or to have access to detainees. Other individuals, such as attorneys and family members, will have access to a detainee after the detainee is booked into a permanent detention facility.

If there is any doubt on the part of the officer, a sworn supervisor or investigator shall decide what action to take.
- (a) When a detainee is granted permission to use restroom facilities, an officer shall search the restroom for weapons, evidence or contraband before and after escorting the detainee to the restroom. The officer shall also monitor the detainee's activities as closely as possible.
- (b) When an opposite-sex detainee is involved, a sworn supervisor shall be advised and he shall render a decision whether to summon an officer of the appropriate sex, or allow the detainee to use the restroom facilities unsupervised.

DIRECTIVE 407.1	TOLEDO POLICE DEPARTMENT		
EFFECTIVE November 01, 2002	STANDARD OPERATING GUIDELINES		
REVISED April 1, 2016	CHIEF OF POLICE: <i>Michael C. Froendle</i>	PART: OPERATIONS	PAGES 8
RESCINDS December 1, 2012	CHAPTER: EVIDENCE	COLLECTION AND PRESERVATION OF EVIDENCE	

I POLICY

The Toledo Police Department is committed to the proper collection and preservation of physical evidence. These guidelines are written to ensure that physical evidence is identified, collected and properly preserved to protect the evidentiary integrity for possible court presentation, and when necessary, promptly conveyed to the appropriate laboratory or office for analysis to ensure its effectiveness in criminal cases.

II DEFINITIONS

CENTRAL PROCESSING UNIT (CPU) – the computer microprocessing chip that contains several thousand to several million transistors that perform multiple functions simultaneously.

DEOXYRIBONUCLEIC ACID (DNA) – the genetic material present in the cells of all living organisms. DNA is the fundamental building block for an individual's entire genetic makeup. A person's DNA is the same in every cell (with a nucleus), which is inherited half from each biological parent. The DNA in a person's blood is the same as the DNA in their skin cells, semen and saliva. An individual's DNA is unique except in cases of identical twins.

DIGITAL EVIDENCE – information and data of value to an investigation that is stored on, received, or transmitted by an electronic device. Sources of potential digital evidence include computer systems, hard drives, removable media, thumb drives (flash drives), memory cards, handheld devices, data storage tapes, surveillance equipment, cellular telephones, personal digital assistants (PDA) and MP3 players. Digital evidence is fragile and sensitive to extreme temperatures, humidity, physical shock, static electricity, and magnetic fields.

EVIDENCE TECHNICIAN – any detective assigned to the Crime Scene Investigation Unit, which processes crime scenes for evidence, and gathers, collects, marks, protects and preserves evidence for future analysis and/or court presentation.

FINGERPRINT – an impression of the friction ridges of all or any part of the finger.

MEMORY CARD ENVELOPE – an envelope used to package memory cards containing images from the department's digital cameras and PHOTO PLACARDS (TPD FORM 25.1).

NETWORK – a system of connected devices that communicate and share services (several computers linked together that share common resources).

NOTE: A single computer connected to an Internet Service Provider (ISP) through a modem is not an example of a network.

407.1 COLLECTION AND PRESERVATION OF EVIDENCE

SOFTWARE – computer programs (which are stored in and executed by an operating system and computer hardware) and associated data (which is also stored in the hardware) that may be dynamically written or modified during execution.

UNINTERRUPTIBLE POWER SUPPLY (UPS) - device which maintains power to the computer through powerful batteries, even after electrical power is lost.

III PROCEDURES

1 CRIME SCENE INVESTIGATION AND PHYSICAL EVIDENCE MANUAL

A copy of the Crime Scene Investigation Unit - Crime Scene Investigation and Physical Evidence Manual shall be available at all district stations for reference.

2 REQUESTING CRIME SCENE INVESTIGATION UNIT (CSIU) SERVICES

When the services of an evidence technician are needed for evidence collection, the requesting officer shall complete a CRIME SCENE INVESTIGATION UNIT– REQUEST FOR SERVICES (TPD FORM 28.8). The original form shall be forwarded to the Records Section and a copy sent to the Crime Scene Investigation Unit.

3 COLLECTION OF FINGERPRINTS

Fingerprint evidence remains the most positive means of identification in law enforcement. Therefore, it is imperative that officers search crime scenes for physical evidence, including fingerprint evidence.

3.1 When officers are involved in a major crime scene investigation where the Investigations Bureau and Crime Scene Investigation Unit will be responding, officers shall protect the crime scene and any potential physical evidence.

3.2 At all other crime scenes, officers are responsible for processing the scenes for fingerprints and/or other evidence, whenever possible, using the following guidelines.

3.2.1 Officers should use their issued fingerprint kit when processing crime scenes for fingerprints.

(a) When officers process fingerprints, they shall transfer the fingerprint to a lift card. Officers shall label the reverse side of the card with the Records Section number, the date and time the print was lifted, the location where the print was lifted (e.g., inside window glass at point of entry), the processing officer's initials, and his identification number. The lift card will be handled as evidence.

(b) Items an officer feels cannot be processed at the scene will be collected, protected for prints and booked into the Property Room. If possible, officers shall package the item in a paper bag.

EXCEPTION: Motor vehicles involved in major crimes, which need to be processed by Crime Scene Investigation Unit personnel, shall be towed to the Impound Lot, and if necessary, protected in the inside storage area.

(c) If an item is too large to be transported to the Property Room, it shall be protected at the scene.

3.2.2 In all instances, officers shall complete a CRIME SCENE INVESTIGATION UNIT – REQUEST FOR SERVICES, requesting the appropriate services from the Crime Scene Investigation Unit (e.g., AFIS search, process for latent prints, the

location of the item and the services requested of Crime Scene Investigation Unit personnel).

- 3.3 All fingerprints will be entered into the Automated Fingerprint Identification System (AFIS) by Crime Scene Investigation Unit personnel. All identifications will be made by members of the Crime Scene Investigations Unit.

4 SEIZING COMPUTERS AND DIGITAL EVIDENCE

Computer and related devices may contain digital evidence and shall be processed in the following manner. Officer safety and the safety of everyone at the scene should be an officer's primary consideration. Officers should be cognizant that there have been instances where computers have been booby trapped with explosive devices. Any officer who encounters a computer that appears to be tampered with shall notify the commander of the Technical Services Section for assistance.

- 4.1 In cases where it is necessary to seize a computer which is part of a network, or where a business is using a mainframe computer, officers shall contact the Computer Crimes Office before seizing any computer files or equipment or executing a search warrant.
- 4.2 Due to the expertise required in examining digital evidence and the ease with which evidence can be damaged or destroyed, officers shall use the following procedure when the seizure of a computer is necessary and Investigative Services Division personnel are not available.
 - 4.2.1 In all cases involving a seized computer, officers shall not open the case containing the Central Processing Unit (CPU) without Computer Crimes Office personnel present.
 - 4.2.2 Remove all individuals, especially the suspect, from the area surrounding the computer. Make sure that no one can touch the keyboard, the mouse or the CPU case, including law enforcement personnel. Officers shall not search the computer for evidence or turn the computer on or off.
 - 4.2.3 Do not accept any offers of assistance in shutting down the computer or saving documents from the subject or their associates, as simple commands can be used to reprogram the computer to cause data loss or damage to the operating system.
 - 4.2.4 Remove all network and phone connections from the CPU case. These connections can be used to remotely control the computer. Evidence can be deleted from a remote location.
 - 4.2.5 Record any pertinent data displayed on the computer display, or monitor. Videotape or photograph the image on the screen if it is any image other than a simple screensaver. Data displayed on the computer's monitor may not have been saved to permanent media, such as the hard disk drive and exists only in random access memory (RAM).
 - 4.2.6 Disconnect the power from the CPU case by pulling the electrical cord from the CPU case. The system may be connected to an uninterruptible power supply (UPS). Computers have the ability to detect when power is lost and use the UPS to shut down, or potentially launch a malicious application.

NOTE: If information or activity onscreen indicates that data is being deleted or overwritten, or there is indication that a destructive process is being

407.1 COLLECTION AND PRESERVATION OF EVIDENCE

performed, the officer shall immediately disconnect power from the CPU case by pulling the electrical cord from the CPU case.

- 4.2.7 Photograph and sketch the computer's setup. The information may be valuable to show the computer setup, or to reconstruct the computer system for examination at a later date. It is also likely that the individual examining the computer may not be the same individual that seized it and this provides a valuable visual aid to the examiner.
- 4.2.8 Seize all related documents regarding the operation of the computer. Material around the computer such as manuals, handwritten notes, printouts and post-its notes may provide valuable clues concerning passwords, the operation of the software and hardware, the location and type of evidence stored on the computer and leads to other suspects.
- 4.2.9 Dismantle the computer components as little as necessary to package and transport the computer to the Property Room. Label each connector and its connecting point for easy reassembly. Mark the computer system as evidence, but do not mark the evidence where it will cause damage to the computer should the computer have to be returned to the owner.
- 4.2.10 The computer components should be secured in the back seat of the vehicle if at all possible, to protect against environmental extremes such as heat, cold, fluids, jarring impacts and other damaging conditions such as electromagnetic radiation from the radio transmitter in the trunk of police vehicles.
- 4.2.11 Officers should take all steps reasonably necessary to protect digital evidence from magnetic fields, moisture, dust, vibration, or any other elements that may damage or destroy it.
- 4.2.12 All potential sources of digital evidence, such as removable storage media (e.g., CD, DVD, flash drives) should also be collected.
- 4.2.13 All computers, computer components or computer media that potentially contain digital evidence shall be booked into the Property Room as soon as possible to avoid damage from extreme temperatures, humidity, static electricity, strong magnetic fields or exposure to other items which could damage the evidence.
- 4.2.14 All devices or media containing digital evidence shall be booked in the manner described in Directive 304.1/8.9 – DIGITAL EVIDENCE.

5 DIGITAL PHOTOGRAPHS BY DEPARTMENT EMPLOYEES

- 5.1 The department has digital cameras to assist officers in documenting crime scenes, accident scenes, evidence, injuries, RRE incidents and other items or events. Photographs from these incidents are evidence and shall be handled as such. Officers using digital cameras shall use the following procedure:
 - Officers taking the photographs shall complete the front of the PHOTO PLACARD.
 - Officers shall photograph the front of the PHOTO PLACARD, making it the first picture in the series of photographs.
 - Upon completion of photographing the incident, officers shall complete the back of the PHOTO PLACARD, and then photograph the back of the PHOTO PLACARD, making it the final photograph in the series of photographs.
 - The memory card containing the images and the completed PHOTO PLACARD shall be placed in a MEMORY CARD ENVELOPE (TPD FORM 25.5).

- The memory card and the completed PHOTO PLACARD shall be booked, prior to the end of the officer's shift, in the manner described in Directive 304.1/8.9 – DIGITAL EVIDENCE.

5.2 Digital photograph images will be handled as evidence and processed in an expedient manner.

5.2.1 Only officers assigned to the Video Office, and authorized by the commander of the Property Investigations Section, shall download images stored on memory cards.

5.2.2 The images shall only be downloaded to the secure computer designated for photographic evidence.

5.2.3 After the digital photographic images have been transferred to the secure computer, the memory cards will be formatted and returned to the appropriate bureau, section or unit.

5.3 Officers requesting photographic prints shall complete a VIDEO OFFICE WORK ORDER (TPD FORM 31.13). The VIDEO OFFICE WORK ORDER shall be submitted to the Video Office no later than four (4) workdays prior to the date the photographic prints are needed.

5.4 Video Office personnel will process the VIDEO OFFICE WORK ORDER, make the necessary prints, and forward them to the requesting officer.

6 AUDIO AND VIDEO RECORDINGS MADE BY DEPARTMENT PERSONNEL

6.1 The department utilizes audio or video equipment to assist officers in documenting crime scenes, accident scenes, evidence, injuries, RRE incidents and other items or events. Any such recordings from these incidents are evidence and shall be handled as such. Officers shall document in the CRIME REPORT or SUPPLEMENTAL CRIME REPORT (TPD FORM 38.2) the date, time and location the recording was made, and the name of the officer making the recording. Officers making such recordings shall use the following procedure:

- Officers making such recordings shall clearly label the recording media as evidence.
- The recording media shall be properly packaged and booked in the manner described in Directive 304.1/8.9 – DIGITAL EVIDENCE.
- Officers shall book all audio and video recordings prior to the end of the officer's shift.

7 AUDIO AND VIDEO EVIDENCE FROM OTHER SOURCES

Any audio or video recording of an evidentiary nature not made by department personnel shall be appropriately tagged, marked, or labeled and booked in the manner described in Directive 304.1/8.9 – DIGITAL EVIDENCE. Analysis and/or duplication services of audio or video recordings shall be performed by the Video Office. Requests for analysis and/or duplication services shall be made utilizing the TOLEDO POLICE VIDEO OFFICE WORK ORDER (TPD FORM 31.13).

407.1 COLLECTION AND PRESERVATION OF EVIDENCE

8 SUBMITTING EVIDENCE FOR FORENSIC ANALYSIS

- 8.1 The officer in charge of an investigation is responsible for requesting lab examinations for any evidence concerning his case. When available, officers shall submit materials or substances (e.g., hairs, fibers, paint, glass, flammables, shoe prints) from a known source for comparison with physical evidence collected. Requests for examination shall be made by completing a REQUEST FOR ANALYSIS (TPD FORM 61.5). A REQUEST FOR ANALYSIS form shall be completed for each lab or office performing any analysis.

If the forensic analysis will be conducted by a lab other than the Toledo Police Department Forensic Lab or Computer Crimes Office, the officer requesting the analysis shall also complete a CRIME SCENE INVESTIGATION UNIT – REQUEST FOR SERVICES form to request the transfer of the evidence to the appropriate lab.
