Recently there have been several reports of people going to the homes of elderly residents and gaining entry by telling them they need to make sure their water is working. Each time the person at the door will have what appears to be an official looking ID badge. Once inside, the individual will distract the resident while others enter the home and steal belongings.

Please remember to check on your elderly neighbors and family members. Never let anyone in your home that you do not know or have not scheduled an appointment with. If you are ever in doubt, call 911. #toledopolice

**SCAM ALERT!**
